```

Does anyone have a copy of the assembly manual for an Eico 330 signal generator. I have a copy of the operation manual and I am now in need of the assembly manual. If anyone has a copy please send me an e-mail.

Thanks,
Geoff

Hi all, the last FEW battery packs and inserts I have purchased
within the last year from W&W battery seem not to be cracked up to their
usual high standards. About 8 months ago I ordered a battery insert for an
Alinco DJ-580T. W&W says that they use Sanyo or Panasonic cells. If
other brands
are used they will say so. Anyway, when I received the insert they were
green
batteries with no brand name on them. They didn't say Sanyo or
Panasonic like they
said in the past. Also the batteries had 1100 stamped into each
battery. The W&W sticker
says 12V @ 1200. I called them at the time and was told don't worry
about the 1100, it means
nothing. I said to myself ??? !!!
I few months earlier I purchased a NI-Cad pack for my FT-50. I can't
see into it but it never took a full charge, even
after a few weeks of proper cycling.
I have a buddy who has this expensive battery analyzer where he works,
I'm told the charger is a professional
charger and costs around $3500 dollars, its gotta be some gizmo.
Anyway, It did not perform well.   I called
 W&W and told them and they replaced the pack, which is a great thing
for them to do in the name of customer relations.
The one they sent me performed the same.   About 3 months ago I needed
another pack for the FT-50 because the second

NiCad pack went bad.
I pickup up a NiMH battery this time at the local hamfest. This battery
is the same deal. Never
gets a full charge. I have used W&W fast charger, my Yeasu charger and
a MaHa charger on these
batteries. After I use them for many cycles it is the same. My buddy
put this one on his
expensive analyzer and the best it will do is 70 percent. WHAT
GIVES???? This is a 9.6V @1100MaH and
it acts like a 600ma nicad. I use these HT's to receive 98% of the time
since they are used mostly at work.
I have the same damn problem with a pack for my FT-530.
 I have been very happy with W&W over the last 15 or so years. I don't
know what is going on other than
using cheaper batteries and charging for the higher priced good batteries.
BTW, that Alinco battery insert does not hold a great charge and has a
cell going bad. My batteries usually
last for about 2 years or so. Not any of these. I have had many HT's
over the years and I'm knowable of batteries
and the different types and charging habits. If I only had one charger
I'd suspect that, but with all the chargers I own
and with my buddys charger at work, I know it's not me or my equipment,
it's the batteries.
Any comments from people finding the same results??
73

  Hi all, BLAH BLAH BLAH.......
  Try buying a real **OEM** QUALITY battery!!! Yeah I know it costs a =
little more, but money is not everything.....
  The differance in price is minimal, compared to the lack of =
service...save your bucks a little longer and get the GOOD battery.

I have for sale a Heathkit DX-60 transmitter in fair to good cosmetic condition. All of the parts are there and the previous owner said it works, but I haven't tested it (no crystals or VFO). Asking $50 plus shipping from 68132.

I also have an SB-401 transmitter for parts or restoration. It is missing the finals and mic jack, but otherwise looks to be complete. Asking $75 plus shipping from 68132.

Finally, I have an SB-303 receiver in excellent condition. No scratches, dents, or dings. The Heathkit power cord and jack has been replaced by a more common computer type cord and jack, but it looks to be all original besides that. Asking $200 plus shipping from 68132.

I'll take cash for the above or will trade toward an Icom 706 or similar mobile HF rig, IC-736, Yaesu FT-840, or working Swan gear.

Please reply via email to jcamp2@cox.net.

Thanks and 73,
Jeff

>I buy ALL my batteries for my Motorola equipment FROM MOTOROLA.......

I do not any more; Motorola seems to use whatever cells are available
on the market, while aftermarket suppliers often use Sanyo cells -
these batteries are cheaper, and at least the same quality as the
original ones, often better.

Time for my monthly chassis request. I recently acquired an RCA 13K console. The speaker is present but the chassis is missing and I'm hoping someone here has a 13K chassis they would be willing to sell. I'd even take another speaker if I had to.
I was told that the 15K chassis will fit into my cabinet as well and will work with my current speaker. If anyone has a 13K or 15K chassis they would be willing to sell please send me an e-mail.

Regards,
Geoff

If you have a HAM or CB Radio product to sell, and are looking for an easy inexpensive way to sell it... I have the ideal domain name for you.

PileupBuster.com

The name is instantly recognizable to all HAM and CB Radio people. It is also very meaningful and easy to remember.

Click on this link to see the traffic and get more information.

http://PileupBuster.com

If you don't like the price, email me an offer.

Or, maybe you have an HF RIG to trade. I am looking for a used Yeasu FT-1000 or an FT-897 with or without the antenna tuner.

Regards,

Bill

Hello!
I'm Motorola P080 tranceiver owner. The one I use went probably broken - it gives a short beep afrer powerin on and displays "EPM ERR" message.
Possible cause of this malfunction is application (Tuner32 for Motorola programming) failure during the programming procedure.
Some parameters of my TRX were changed, but this application doen't allow me to restore their last values. My attempts to restore some older configuration files don't give any results.
I also tried to use EntryLevelProgramming application - it also gives no positive results. I'd appreciate any suggestions, how to repair it.

Best regards, Jacek.

I am in search of a few Pal 20L8ACNS chips or their replacement, as well as a programmer or schematic to build one. I have to duplicate a chip for one of my projects and would appreciate any advice of an equivalant if an original cannot be found. Gladly pay any reasonable costs. Thanks & 73's Don Smith KB6GQA

"Hey fatboy, I'm tired of your cross-posted spam. I will now report every
one
of your abusive spam posts to ebay. Say buh-bye to your account, tubby."

So what you are saying, you retarded nut that has nothing better to do is
that ONLY MY POSTS ARE SPAM?
But the others are not?

He bought a handi from me months ago and he paid promptly via PayPal.

Now, PayPal has placed a hold on MY ACCOUNT because of the recent complaints
about his activity.

I'm not sure who to blame here!  Him or PayPal.

I would blame PayPal for this one. If the guy paid for something, it's paid for. PayPal probably froze your account so they could steal the money back from you to pay some of his victims.. (makes about as much sense as anything else PayPal does).

Rich, again could you just make one post with all the items?
You are in clear violation of ebay rules and are spamming
per your ISP. I do like some of your items, but don't want
to have a large amount of bandwidth wasted when you
make one post per item.

so why do you have to spam this group with your stupid ebay ads when
there are groups just for such purposes?

Many of the Eimac power triodes and tetrodes are rated for use at AF.

The 3CX400A7/8874 is a compact high-mu power triode intended for use in zero bias Class B amplifiers in audio or RF applications. Operation with zero bias simplifies circuitry and cathode driven operation is attractive since a power gain as high as twenty can be obtained.

The 5CX1500A is designed for use as a Class AB1 linear amplifier in audio or radio frequency applications. Its

characteristic low intermodulation distortion makes it
especially suitable for single sideband service. The
tube is also recommended for use as a Class C RF power
amplifier in CW, FM and AM service.

The 5CX1500A is good for 3200 Watts as a class AB1 audio power amp:

```
                                MAXIMUM RATINGS
TYPICAL OPERATION
Class Type of Service           Plate Voltage (Volts) Plate current (Amps)  Plate
Voltage (Volts)   Screen Voltage (Volts)  Plate Current (Amps)    Drive Power
(Watts) Output Power (kiloWatts)
AB1   AF Amplifier or Modulated 4,000                1.0                 3,800
500                    1.3                    --                 3.22
```

A look through the catalog at <http://www.cpii.com/eimac/index.html>
is very instructive.

Complain to his ISP and to EBAY. Make sure that you
include the entire post with headers, EBay does not like
it when their clients Spam and have strict policies.

>
>Congrats on the new ticket! I just got mine Tuesday, so I was in the same spot last week. I settled on the Yaesu VX-5R, and got a Diamond SRH77CA antenna to go with it. I picked it because it hit the sweet spot on price/performance for me, and it seemed to get the best reviews on eHam.net. I love my Icom R71A, and was really looking for another Icom, but they all seemed to get picked on for pricey accessories and susceptability to intermod.
>

I went with the VX-7R which is a little more money, but worth it to me. It has a good LI-ion battery that does well and runs a reasonable power.

>Seriously though, it looks like almost all the HTs in the $200-$300 range are pretty good, I've since had recommendations for the Icom W32A and the

I think the W32A is one of the best duobanders put out. Good enough that after it was discontinued there was still enough consumer demand they brought it back and it's been back over a year. The W32 is really from an earlier generation that is quite a bit larger than the VX-5 or 7. For those of us who wear bifocals that is not all bad.

I happen to like the little Yaesu radios, although the VX5 and 7 are not really Yaesu. They are listed with them and maybe built by them, but the name plate lists a different name. Mine's in the car and I don't remember the new name.

I have a complete set of the Diamond mobile antennas with both mag and lip mounts. Well I did until my wife drove into the garage without lowering one.

I use the large one on top of a 4-runner and have had it ever since they hit the market. It has hit a few bridges and parking ramps knocking the whole thing off the roof, but it still works fine on both 144 and 440. (That is one tough mag mount). I did break one though.

i thought it was a pretty good warning when it came in an unsolicited
message on a news group.  NEVER visit a site that you don't know what you
are going there for.  and NO, seeing fake pictures of osama is not a good
reason.

For Sale: Kenwood VFO-120 - $125.00, includes shipping (to continental US)

This unit is in great shape and includes interface cable. Works with Kenwood
TS-120 and TS-130, and I believe the TS-520.

Reason for sale - no longer needed. Had it attached to a Kenwood TS-120S
which
I upgraded to a TS-140S, my backup rig. An old friend had a radio failure
and
wanted the TS-120S but had no need for the external VFO. I could not say no
to
```

the guy so sold him the radio to get him back on the air. He does not work
any
split and therefore did not have any need for the VFO. So - I have it up for
sale.

I have had good experience with Icom over the years owning W2A, 3SAT, 901A, R10, and a 725. All of these radios have been great products. I wish they still made or would replace the concept of the 901A.

Recently I picked up the Kenwood TH-F6A. It is a great radio that consolidated three different radio I had previously. It is a 5 watt triband 144, 220, 440 with wide band receive. I have been impressed with the receive since I was not expected much but the audio is clear and loud and sensitive. The transmit is great too. I would recommend getting an after market antennae. I picked up the Diamond SRH320A improves the transmit. In my area there are many 220 machines making this a great one radio solution. It is impressive how well the radio performs given how small it is. Hopefully Kenwood's success will wake Icom and Yaesu up to the 220 market place in the USA.

Good luck on your decision. As you noted any of the major player make a good product and you will mostly be happy with any decision. I feel currently the Kenwood is offering the most band for the dollar.

Hey noodnick, if you looked at it you would have seen it has been
changed
so it won't connect to anything.
Maybe you should post warnings to the new internet users instead
of bitching about mine!

Hey dumbass, stop re-posting the virus url with your
lameass warnings.

Hi!

Looking for a manual for the Icom IC-228H 2 Meter radio.
A photocopy will be OK.
Thanks..

Alvin Mirabal

Hello Alvin;
ModsDk has the manual you are looking for.  Go to:
http://www.mods.dk/downloadmanual.php?File=IC-228A_E_H_Instruction_manual.zip
and download it.  It looks to be a Zipped PDF file.

I have this h/t in as new condition.  The battery seems to hold a charge =
forever.  I do not have the original box nor original wall charger, but =
I do have the original manuals, cigarette plug charger and antenna. I =
have a non-Kenwood wall wart that charges the radio with no problem. I =
will also include a Diamond SRH77CA antenna that will greatly improve =
the radios performance.

Pic.s available upon request.  $300.00 + shipping to lower 48.

Please email direct if interested.

Make plans now to attend the Ten Tec Hamfest in Sevierville, TN! It
will be held at the Ten Tec factory on Dolly Parton Parkway on Friday,
September 24 and Sunday, September 25). See their web page by
following the link:
http://www.tentec.com/04hamfest.htm
Forget that YaeComWood stuff and buy an American Jupiter or Orion!
See you there. Justin

I have a nice receiver that coversLSB-USB-AM-CW.

RADIO SHACK DX-394 ALL MODE RECEIVER FROM 150khzTO 29.999mhz. THIS UNIT HAS SO239 AND HI Z ANTENNA CONNECTIONS ALSO HAS TAPE OUTPUT REAR JACK. 120VAC OR 12VDC. RADIO IS LIKE NEW, LOOKS NEW AND WORKING FINE. I DO HAVE THE OPERATING MANUAL BUT NO BOX.

The Radio Shack DX-394 Communications Receiver brings the voices of the world to you. In the 13 international short wave (SW) bands, you can hear news broadcasts and other programs from sources such as Radio Japan, the British Broadcasting Corporation, Radio Moscow and Radio Peking. You can get emergency information firsthand by listening to ham radio communications, including single sideband (SSB) voice transmissions and continuous wave (CW) Morse code transmissions. In the long wave (LW) band, you can hear ship-to-shore calls, other marine and aeronautical services, and sometimes even hurricane reports.You can tune to local broadcasts in the medium wave (MW) bands. (In the United States, we commonly call the MW band the AM band).

FEATURES:

PLL Synthesized Receiver - ensures accurate, stable tuning.

Large, Liquid Crystal Display - shows the time, band and frequency, signal strength, and other indicators.

Five Programmable Timers - let you store frequencies and on/off times for automatic listening pleasure.

Tape Out Jack - lets you connect an optional tape recorder.

Dual Time - includes a primary clock and a secondary clock, so you can set one to your local time, and the other to UTC (Coordinated Universal Time - also known as Greenwich Mean Time) or to the local time of a city in another time zone.

Search Tuning - scans up or down the band for the next available station.

Memory Tuning - stores up to 160 frequencies so you can quickly select your favorite stations.

Direct Access Tuning - tunes to the frequency you enter on the keypad.

Rotary Tuning Adjustment - lets you manually tun desired frequencies or channels.

Lock - prevents you from accidentally changing the band or frequency changing the clock settings, or turning on or off the timer.

MW Step Setting - lets you easily change the frequency step setting to match the MW (AM) broadcast frequencies used by many other countries.

RF Gain Control - sets the receiver's sensitivity.

Headphones Jack - lets you connnect a pair of headphones.

External Speaker Jack - lets you connect an external speaker.

Dual Conversion Upper - eliminates any interference from IF Superheterodyne (Intermediate Frequency) images, so you only hear the selected frequency.

Monitor Memory - lets you temporarily save a frequency.

Two Antenna Jacks - lets you use high- or low-impedance antenna connector.

Memory Backup - replacement-free rechargeable lithium battery keeps channels stored in memory for more than 1 month during a power loss.

Two Power Options - lets you power the receiver from standard AC power or from your vehicle's battery (with an optional DC cigarette lighterpower cable; does not come with it).

I AM ASKING $100.00 +SHIPPING.EMAIL ME IF INTERESTED.

I was looking at ebay and saw a nice Kenwood TS-680S that you dont see
around much any more,, and though people here should have a look if
they are looking for such a nice radio. Happy Dx'ing to all here.

Hi
Does someone have the EPROM data (digital or physical) of both EPROM's
in the NRD-535(D) ?

Please let me know.

Thanks

Kees

I have for sale the following items:

Ten Tec Corsair HF transceiver. Excellent condition, ssb filter, 160-10m coverage (including warc). This solid state transceiver has one of the quietest and most sensitive receivers I have ever seen. Legendary Ten Tec high speed full break in on cw, passband tuning, notch filter, rf preamp, power continmuously adjustable from 1 watt to about 100 out. Ten Tec transceivers were wired to use only Ten Tec power supplies, but I'm including an external power switch wired to a Ten Tec power cord that will let you use it with any 20 amp power supply. No manual, but it's so easy to operate that you won't need one. $375 plus shipping from 68132.

Kenwood TS-520SE HF transceiver. Very good condition. 160-10m coverage (no warc bands). Full output 100-110 watts out from a pair of 6146 finals. 8 out of 10 cosmetically and 10 out of 10 electronically. Built in AC supply. There is a small cover missing on the left side of the radio that covered the vox delay and some other adjustment switches. It looks like it was about 1 inch tall by 3 inches long. Does not affect the operation of the radio. I have been using this radio on 40 and 75 meters and have gotten excellent audio reports every time I've used it. $275 plus shipping from 68132.

Drake R4C Receiver. No modifications, excellent condition. No scratches on the front panel, but the case cover has some minor scratches (nothing through to the metal) and could use a re-spray. I have the paint and would be glad to do it for an additional $10 prior to shipping if you would like. Cosmetically this receiver is an 8.5 and electronically it's a 10. $275 plus shipping from 68132.

Drake T4XC Transmitter. Very good condition, case could use a re-spray (would do this one too prior to shipping for an additional $10). The hard to find Drake PL-68 mic jack has been replaced with a standard 1/4" mic jack, which makes it much easier to find a microphone for it. I've been using a Shure 444 wired for a Swan 350 with good results. This radio is about an 8.5 out of 10 cosmetically, 9.5-10 electronically. $275 plus shipping from 68132.

Heathkit SB-230 HF amplifier. This amplifier uses a single 8873 triode in a conduction-cooled design to produce a solid 900 watts out with about 85 watts of drive. The conduction cooled design means that it has a large heat sink in the rear, but no cooling fan, so the amplifier is completely silent except for the T-R relay. The 8873 is full output and will not need replacement any time soon unless you abuse it. Wired for 110, but can be changed over to 220 easily. No scratches, dents, or dings. Easily a 9.5 out of 10. $425 plus shipping from 68132.

Heil Goldline Microphone. Perfect condition Heil Goldline dual element mic with HC-5 and Goldline elements. You select the element you want with a small toggle switch on the side. This mic has a total of less than 5 hours on it. Included are adapter cables for Kenwood (8-pin), Icom, Yaesu, and Ten-Tec (4-pin). Also included are the table top mic stand and hand PTT switch. Original box. $250 plus shipping from 68132.

All of the items listed above are fully operational and I'd be glad to do an on the air demo in the general portion of any band on any of them if you'd like. I have excellent feedback on eBay (user name jcc271) if you would like references. If you have any questions or would like to buy any of these items, you can reach me at jcamp2@cox.net.

Thanks,
Jeff
N0WJP

Frankly, I believe that it takes a lot of balls to post an ad for a
Korean made product and include a waving American Flag and a cartoon
character that proclaims "Go America" in that same ad.

Do you totally lack common sense, or just so shameless in your pursuit
of a sale that you don't care?

                                                  Harry C.

What Ham Radio would YOU buy that has been made in America ?
Do you drive a Honda or a Benz?  Do you watch a Panasonic or Sony TV?
Jezzzzzz

Frankly, I believe that it takes a lot of balls to post an ad for a
Korean made product and include a waving American Flag and a cartoon
character that proclaims "Go America" in that same ad.

Do you totally lack common sense, or just so shameless in your pursuit
of a sale that you don't care?

                                                    Harry C.

Nahhh, it just takes a little willful ignorance.

I use the VX150 (2m only) and love it. I have not tried the FT60R, but if it is half as reliable it should be a good unit.

No, I drive a Ford Bronco and my ham rigs includes a Barker &
Williamson 5100 transmitter and a Hallicrafters SX-71 receiver.
Everything else is home constructed, including 2-M and 420-Mhz rigs.
(I am now in the market for a mint condition Collins 75A4!)

I simply objected to you waving the American flag in your desperate
attempt to sell a inexpensive, foreign made, non-repairable and
throw-away consumer item.

Harry C.

I agree with you in general, but I suspect a significant percentage of
real hams reject this and remain loyal to quality American made radio
products that, although costly, at least can be repaired and
maintained. This is why used products like the Collins 75A4 and even
Heathkit products continue to command high prices. When they break,
you can fix them.

It's not entirely a patriotic thing with me. I simply wouldn't want to
own any ham equipment that I can't maintain and repair myself under
emergency conditions. In fact, this is something that was traditional
in amateur radio until very recently.

Harry C.

> I passed my Element 2 exam last week and am eagerly awaiting the posting
> of my Tech ticket on the FCC site. In the meantime, I have been doing

I'm in a similar boat, having passed my BASIC (Canada) exam. I need something very rugged because a) I will take this everywhere, including camping trips and b) I tend to drop things!!!

I've done a lot of reading on the eHAM site (posted elsewhere) and did a lot of listening on my scanner to hams in Toronto. I had the occastion a few days ago to listen in to a conversation between two hams with the VX-7R, the model I'm most interested in. I was worried about the sound quality postings but they sounded great. Then I heard one of them mention he was on an external mic. Just then another ham buddy of mine came into the conversation. I called him on his cell and he relayed my request to have the two vx-7r's switch to their internal mics. They did and they both sounded GREAT!

I've basically decided to go ahead with the vx-7r, now that I've had the chance to hear them in action!

Rob

I have for sale a GE 19D402955-P8 UHF 6 cavity duplexer. This duplexer is made for GE by Decibel and is equivalent to their DB-4072 model. First $110 plus shipping to 68132 takes it. I also have a pdf file with instructions on how to tune it and will include a cd with the file, plus a printed copy if you like.

I also have an NHRC-4-MII repeater controller. This is a controller that fits inside a GE Mastr II radio. It has one link port. I'll also throw in the NHRC-VSQ volume and squelch control. You can read more about them at www.nhrc.net. list price is $189 but you can have this one for $120 plus shipping from 68132.

These items were part of a repeater project that never got off the ground. I bought the duplexer used on eBay and the controller new from NHRC. The controller has never been used. Please contact me at jcamp2@cox.net. Will also trade for Swan gear in reasonably good shape or for a Drake AC-4/MS-4 speaker and power supply. Payment by cashier's check or money order is fine, but Paypal is preferred.

Thanks and 73,
Jeff

Hello all!

The latest version of firmware for the NRD-535(D) is the H-ROM
version.

On this site

http://members.home.nl/rita.kees/eprom.html

you can see how to reach for the EPROMs, needed to change the
firmware.

If you can burn the EPROMs yourself, just ask me, maybe I can help you
with the correct data/contents :-))
Mail me at : PA8540 at home dot nl

After all, it's a shame to pay for a deficiency of JRC .....

73

Hello all!

This marvolous program TRX-manager now also supports the NRD-535(D) from JRC.

Though the application is for transceivers, it is very usefull with really great features for RX as well.

Take a look at:

http://www.trx-manager.com/

And download a demo.

73's

Kees

Time for my monthly chassis request. I recently acquired an RCA 13K console.
The speaker is present but the chassis is missing and I'm hoping someone
here has a 13K chassis they would be willing to sell. I'd even take another
speaker if I had to.

I was told that the 15K chassis will fit into my cabinet as well and will
work with my current speaker. If anyone has a 13K or 15K chassis they would
be willing to sell please send me an e-mail.

Regards,
Geoff

Hello there,

I'm looking for a Maxcom Antenna Matcher... yes I know what they are and
the story behind them.

If you have one in pretty much any condition that you'd like to sell or
trade away, please contact me using the yahoo email address below. Please,
no other spam.

thanks much

New XP2500A
The World's #1 Digital Satellite Television
Receiver Descrambler is Now Available to you!!!!!

Order Yours at: http://www.fta9000.3322.org

No Monthly Subscription Charges of ANY Sort!
No Service Contracts of ANY Sort!
No Telephone Connections of ANY Sort!!!!
Does NOT use ANY Sort of Satellite Access Card
The World's Number One "Cardless" Satellite Receiver!!!!

A NEW Product for the NEW Year of 2005
Our New XP2500A Digital Satellite Television Receiver Descrambler allows you to view at your convenience the following with the USA, Canada, Cuba, Bahamas, Jamaica, Virgin Islands and Mexico:

View Over 600+ Digital Television Stations FREE! (Everything!)
View Over 200+ Digital Commercial Free Music Stations FREE !(all categories)
View Over 40 Pay-Per-View Movies Channels FREE!
View 8 HBO's/5 Cinemax's/10 Showtime's/8 Starz, etc. FREE!
View Seven Adult Channels FREE FREE FREE � 24 Hours A Day (Non-Stop Action)!
Boxing/Football/Soccer/Baseball/Basketball � ALL Sports Packages FREE (With No Black Outs)!
Receive Home-Town Local Broadcast Television Stations from 4 Time Zones
Use this New Television Descrambler at Home/Office/Truck/RV etc.
Works In the USA and Canada � plus ALL of North and South America and Territories!
Works on: Nagravision, Seca, Viaccess #1 and #2, Irdeto One and Betacrypt Digital Satellite Signals!!!!

NOTE TO AUSTRAILIANS: We get many request about the Australia�s "Foxtel Channel".
Our New XP2500A Receiver works nearly ANY where in the world - but it will NOT receive "Australia�s FOXTEL Broadcast Channel" as of yet.....they use Irdeto #2 a Decoding System.....so wait patiently - our Descrambling Technicians are working HARD on this one, to brake the code.
International Customers.

I recently inherited a used, but in new cond. IC-706MKII. It includes
all the factory accesories and paperwork. I saw a list price online at
$899, i will take the first $350. Drope me a mail @ jayinmia@yahoo.com

if interested. Thanks

```

Come and visit Ham Radio Forums at http://www.hamradioforums.com - Registration only takes a minute, and the site has many features for registered users.

Ham Radio Forums has a Photo Classifieds section where you can buy, sell, and auction your gear with up to 3 pictures per listing! There is a Photo Galleries department where every user gets 10 megs of photo storage, Ham related or not! The extensive Forums section allows you to read and post messages about anything Ham related. Registered users have full access to the chat rooms, fully integrated into the site. And there is an Articles section, where users can publish articles Ham related.

And it's all FREE! So come check it out at
http://www.hamradioforums.com

Thank You,

k4sci

Hi all, I picked up a Bencher Iambic paddle.   It was not wired for any
keyer.
Question, what is the correct way to wire it up??
Does the dit belong on the left paddle or the right??
Is there a correct way??

Dits on the left, dahs on the right... if you're right handed.
I assume you have never done CW on a keyer or bug....

Dave

Don't bother with that old technology. If it's the gold plated one
I'll offer ten bucks<:-))

Normally they are wired so your thumb sends the dits.

wire accordingly for right or left handed operation.

I picked one up at a swapfest and found it was backward (dits on the
right) or wired for a lefty so I just swapped the wires on the bottom.

Ronny,

Thank you for the nice reply and I appreciate your comments. :)

By the way, the door prizes came in last week. These are really nice radios
and I almost would rather keep one for myself, hi hi. :)

Usually, configure so your thumb sends the dits, wire accordingly for right
or left handed operation. Some folks connect it in reverse and it is really
a personal preference, but you may be in for a surprise if you operate some
else's station. If you do encounter a "backwards" paddle, a quick fix that
works on some paddles is to turn them upside down! I did this at our last
Field Day rather than rewire temporally, however a lefty was right at home
with it rightside up (;-)

I have for sale or trade a nice set of Drake Twins. I have an R4C and T4XC is very good condition. The R4C has no modifications. I have the manuals for both of them, but you'll have to come up with your own interconnect cables to use them in transceive mode.

I also have a very nice Drake TR4C, AC4/MS4, and manual that I'll include in the swap for a near mint condition set of Swan twins.

I'd really like to do a swap, but I'll also sell all 4 pieces of Drake gear for $795 plus shipping. If you're interested I can also do an on the air demo of this equipment for you in the general portion of any band except 160.

Please email me at jcamp2@cox.net.

73,
Jeff

Dit on the Left side (same side a "BUG" uses- those mechanically
generate dits, with a pendulium), but then mine is backwards--
learned on a buddies key , was left-handed! When in doubt, simple
mod is double pole, double throw - glue under side of key, "X" strap the
far sides , and wire to key- wire the center to rig- as a reverser
switch- then anyone can use it even if trained on a backwards setup!
Jim NN7K (P.S. offer 15 bux for gold one! ;)

> Does the dit belong on the left paddle or the right??
> Is there a correct way??

It does not really mater. It is usually the dits on the left paddle if you are right handed. REason being that is the way the mechanical bugs are wired. The thumb is able to hit the paddle harder to make the mechanical bud do the dits. With no hard hitting needed for the electronic bug it will not mater but most will learn dits with the thumb.

I never thought of the DPDT switch. I think I'll do that for next FD.

Look at the vibroplex page at URL:
http://www.la.ca.us/frandy/

sez:
The Vibroplex was based on a lever that rotated around a vertical pivot. Pushing a paddle mounted on one end of the lever to the right and holding it there caused a spring-mounted contact on the other end of the lever to vibrate against a stationary contact, making strings of dots.

Dashes were made manually by pushing the lever to the left and releasing it.

Dits on the thumb side, so left side should be sending dits if your
right handed.

Mine is wired for right handed CW operating, but I also have a MFJ
Memory Keyer that has a button on it that will reverse the keys for
left handed CW operators.

Hello
I have for sale an AL-811H in excellent condition.
I am selling this Amp only because I am getting a
higher power amp (Is there ever enuff?)
This Amp will be coming to you from a Non-smoking enviornment.
I sent it out at the begining of the year for minor repairs,new tubes
& PCB asbly. I have the invoice from Ameritron that I will send with
it.
```

Amp has NEVER been abused in any way & I usually only ran 40/50W into
it with 400/500W out.
It is wired for 220VAC & can very easily be changed back to 120VAC
which I will do if wanted.

As you can see from the pic it is in Great shape & I have MANY more
pics inside & out upon request.
You will not be disappointed with this 1..
I have the original box & manual...

Price $550.00 + shipping from NJ

Thanks for looking
KJ2T

Hello Everyone,

First I would like to say thank you to those of you that read my original post and visited my new web site. I also appreciate all the feedback and comments that I received.

Based on that feedback, and since my web site is still new, I have decided to allow members to post a free photo ad. You can use this free ad to advertise your radio gear for sale, post a want ad, or even advertise your eBay auction item.

While you're checking out my new web site, please be sure to sign up for the free door prize drawing. The first door prize drawing will be held in

October and one lucky registered member will win either a new ham or CB radio.

To learn more about how to get a free photo ad and to read the rules for the free door prize drawing, please visit http://www.onlinehamfest.com .

Please also tell a friend about my new web site or add a link to your web page. I could really use everyone's help in getting my new web site off to a good start. :)

Tnx es 73
Dave, Zed Zed

I have located some large neon bulbs, the ones that were in very early tube testers, they are about the size of a refrigerator light bulb, I found both bayonet mount and also screw in type. They are GE new old stock.

here are the specs on the bayonet mount ones

type NE-36
GE brand
105-125V
base: BA15d - Double Contact Candelabra Bayonet
2 Watt
External Resistance 3500 ohms

here is a data sheet I found with some measurements which appear to be correct
http://www.donsbulbs.com/cgi-bin/r/b.pl/ne-36.html

here are the specs for the very similar looking candelabra base (screw in ones)

type NE or also known as NE-34
GE brand
105-125V
base: E26 - Edison Medium Screw (like a standard light bulb)
2 Watt

here is a data sheet I found with some measurements which appear to be correct
http://www.donsbulbs.com/cgi-bin/r/b.pl/ne-34.html

I also have a lot of other neon bulbs such as NE-16, NE-30, NE-48, NE-51 etc.if anyone would like to buy any before I put them on ebay
also will trade for NOS GE NE-45 neon bulbs

if you are interested, email me at cacheoverflow@yahoo.com

cheers!

wild bill

Start learning about the exciting world of APRS with APRSPoint, the APRS software regarded by most hams as having the best map support and most intuitive user interface. Track other hams on a zoomable, street-level detail map in an intuitive and easy to use interface. Send instant short messages through either RF or internet link. If you are an experienced APRS user, you'll appreciate the ability to plot a digipeater or other ham stations' signal range on the map, connect to APRS internet servers, send email through your ham radio, and other advanced features. This week you can get APRSPoint with MapPoint 2004 included for the best possible price ever. Check out the website at http://www.aprspoint.com/ for details.

Thought I would try here before I go to that "huge online auction" site. I'm selling this gear because other hobbies are taking up my spare time (and money).

I am offering a very nice IC-718 for sale. Bought in February 2003, used for about six months in a non-smoking home. Looks and works like new. Comes with power cord, hand mike, manual and UT-106 DSP installed (no CW or SSB filters have been installed). $425 + $15 S/H in CONUS. Also have a Samlex 1223 power supply that I bought with this radio. Cost $99.00, will sell with IC-718 for $50.00. Will take money order or cashier's check. Please e-mail me at buzzygirlATcomcast.net for digital pictures and/or if you have any questions. Thank you!

Jackie

radio.vhf-uhf:1639 rec.radio.amateur.equipment:2077 rec.radio.amateur.swap:420

I passed my Element 2 exam last week and am eagerly awaiting the posting of my Tech ticket on the FCC site. In the meantime, I have been doing research on radios. I have considered as many factors as I know of, including TX power, physical size, and portability. My needs have led me to look for a good handheld unit. Before anyone chimes in with a recommendation to go for a mobile, let me say that being able to carry the radio with me wherever I go is a must, which rules out mobiles.

I am looking for opinions about HTs that cover the 2meter and 70cm bands and have at least 5 watts output. I value the opinions and experiences of other hams, so I figured that these newsgroups would be a good place to solicit them.

Please either post your opinions here, or feel free to email me at "entrekin-at-iname-dot-com" with the appropriate symbols (low-tech anti-spam measure). I look forward to getting lots of input!

Thanks,
Andy Entrekin
Bedford TX USA

For any of you who frown on cross-posting:
Sorry for the cross-posting, but I wanted to get as many responses as possible. If I hadn't cross-posted, I would have just copied this same message in to each post to a single group. This just seemed smarter.

< snip >
I haven't bought a new dual-bander recently, but I love my Yaesu FT-530. It has been bullet-proof. I have dropped it, overheated it (both internally and with sunshine on a car seat) and it keeps coming back for more.

Based on my experience, you should have
-- a radio with external 12V power input
-- a radio has a detachable antenna (BNC mount probably best)
-- an external speaker/mike for your radio (I think they all accept one.)
-- a repeater directory for your area (or find one on the Internet)
-- at least one outside antenna cabled into a favored operating location (2M j-pole also works on 440)
-- a holder for your HT that props it up on a desktop or bench
-- an accessory battery for long-term worry-free portable operation (Gel-cells are good.)

5 watts on VHF/UHF will generally take you out to the radio horizon, or to a high-level repeater even with a rubber duck antenna. The outside antenna will help you QSO with low power stations or somebody with a bad antenna.

Welcome to the amateur ranks.

I like my Kenwood TH-D7a, which gives me essentially two radios in one (as opposed to a single radio that can be on one of two bands) plus APRS and packet capability.

Congratulations on your ticket!!!!!!!!!!
I agree, the FT-530 is a GREAT radio!! Also, check out the Alinco DJ-580T. Almost the same and built like a tank also! These are older radios and a bit larger.
This is not a bad thing! They usually have louder speaker audio than the tiny HT's of today, although the Alinco DJ-580T has the edge on speaker audio. . One more favorite on mine is the Yaesu FT-50R. It is smaller than the other 2 and works great with LOUD speaker audio. This is a dual band radio but one band at a time. The best part of all, these radios can be gotten at a good price that won't kill you!!

There are any number of good radios out there, a lot depends on personal preferences.

But, the one thing I urge you is to invest a few more bucks on a telescoping antenna. For less than 20 bucks, you'll double or more your effective power, plus improve your reception, as compared to the rubber duck that comes with most HT's.

Of course, the telescoping antenna will be a bit more bulky than the duck, so that may or may not be a factor for you, depending on how you intend yo use the radio.

Indeed.. The duck that comes with the Kenwood TH-D7a is by far the WORST
antenna I've ever seen.. A comet SMA whip tripled my range.

The other thing that's a big range booster, is a "tiger tail", which is
nothing more than a 19" wire and a lug to fit under the antenna connector..
This provides a counterpoise for the antenna, and acts as a crude dipole.

With a good antenna, you will find that the 5W setting is rarely needed, and
mostly just chews up batteries.

I have the TH-F6 and it is a Tribander for around $300.00 you can't beat it.
I get around 16hrs per battery charge

my 2 cents

Don't blow all your cash on an HT. By all means get one, but save some dough for a nice starter rig like a Yaesu FT-857 or an 897. You'll get all-mode on a lot of bands for not a ton of cash.

Kudos on your ticket!

Well you did get many very good comments. I won't repeat any.

I have the TH-F6. I can't compare features, but what I think can be important to you:
* You can get an AA battery pack for when your Li=Ions are dead in an emergency, or you are too poor to afford new ones (Tx power lower however)

* I believe it has the widest general coverage available for a "dual bander".= 100 KHz to 1,300 MHz. AM , FM, Wide FM, U/L SSB, CW. You name it (except the CW beacons on 902 and 1296) and you can probably listen...TV, CB, AM & FM broadcast, FRS, GMRS, Aircraft...wad-I-miss?

Fine tuning on HF down to (sort-of) 33 Hz.

* It does 222 - kinda rare. Lets keep the band alive!

* It is pricy, but it is around a very loose rule of thumb for cost of 'about' $100 per band.

* Better antennas are available. I have a 19 inch for mine, when needed.

5W,   .5W,   .05W on internal

5W,   2W,   .5W on external 12 V sig lighter plug avail.

I forget the double A power, possibly 2W, .5W, .05W

The beeps are pretty "blind-friendly"

Disadvantages (to some - I'm ok with it)
* SMA Antenna connector.
* It doesn't receive FM below 29.7.
* Doesn't receive CW & SSB above 470MHz (See beacon comment above, but AM or FM "works").

True for most HTs, and a very good idea.

I have AA packs for all my emergency gear, and I keep a stock of batteries
in the car which I rotate out into the kid's toys periodically.

Andy,

Congrats!   I have two I recommend, will give the drawbacks to both.
ICOM W32A, very good radio, short battery life transmitting on high power 2 hrs max 50 % cycle, 5-7 hrs listen on NiMh, direct battery charge from wall wart and will run off of wall wart has built in charge controller, excellent output, dual receive, weak audio, dual scan (memory and frequency), dual independent vfo's, direct frequency input, v-u, v-v, u-v, u-u, splits, cross-band repeat, weather, 100-999 M. receive except 220; easy to program can be programmed off a computer with cable and sw, 200 memories total split between U and V, onboard instructions, alpha numeric display, new around $250, haven't seen one used.
Kenwood TH-77A, a little harder to program than the ICOM (manual only to one memory bank), older model, dual band, dual receive, outstanding audio, dual scan (memory and frequency) v-u, u-v, u-u, v-v, I don't know if it will crossband, receive 130-500 (I think it can be extended but VFO's are tight, not as flexible as the ICOM), excellent battery life 12-14 hrs on MH PB-8 metal hydride batteries, only 40 memories, direct frequency input 2m drops first digit, will run off of wall wart (dc jack) but not charge battery (external only), outstanding front end and transmitter very solid, I have 2 of them both used for $100 each, no weather or air receive, not computer programmed, my knock arounds very rugged, one is my base, the other I carry every day around the yard, truck, etc.

goody KF6PBN

Congrats on the new ticket! I just got mine Tuesday, so I was in the same spot last week. I settled on the Yaesu VX-5R, and got a Diamond SRH77CA antenna to go with it. I picked it because it hit the sweet spot on price/performance for me, and it seemed to get the best reviews on eHam.net. I love my Icom R71A, and was really looking for another Icom, but they all seemed to get picked on for pricey accessories and susceptability to intermod.

Seriously though, it looks like almost all the HTs in the $200-$300 range are pretty good, I've since had recommendations for the Icom W32A and the T90A. I think anything that can put out five watts on 2M will make you happy, all the rest is just flavor.

Here's an Icom IC-Q7A hand held radio on Ebay. It might be a tiny radio, but it has many of the features of the bigger HT's. Click the link below & find out more. I will ship to the United States only.

I have for sale the following antennas. This is for PICK UP ONLY from Beachwood, NJ.

Cushcraft A27010S 10dB Dual Band Yagi. 5 elements on each.
Check out http://www.cushcraft.com/amateur/details.asp?catid=182 for details on this antenna.

MFJ-1762 6m 3 element yagi.
Details: http://www.mfjenterprises.com/products.php?prodid=MFJ-1762

The MFJ is about 2 - 3 years old and the Cushcraft is about 1 - 2 years old. Both are in working order and currently assembled. They were taken down when I had my roof redone and I don't feel like putting them back up.

BEST OFFER. I also have a tripod, a couple of masts and a TV antenna rotator from Radio Shack that I've used to rotate these antennas.

Do a search on e-bay ... that's where I bought my IFR 1200S ... and the
service manual for it.

There have been quite a few 1200S service manuals lately (I had an automatic
search running for a while, until I bought mine), and I suspect that the
1100S manuals are available, too, but I didn't search for 1100S since I
wanted the 1200S.

73,
Carl - wk3c

I have for sale the following antennas. This is for PICK UP ONLY from Beachwood, NJ.

Cushcraft A27010S 10dB Dual Band Yagi. 5 elements on each.
Check out http://www.cushcraft.com/amateur/details.asp?catid=182 for details on this antenna.

MFJ-1762 6m 3 element yagi.
Details: http://www.mfjenterprises.com/products.php?prodid=MFJ-1762

The MFJ is about 2 - 3 years old and the Cushcraft is about 1 - 2 years old. Both are in working order and currently assembled. They were taken down when I had my roof redone and I don't feel like putting them back up.

BEST OFFER. I also have a tripod, a couple of masts and a TV antenna rotator from Radio Shack that I've used to rotate these antennas.

I have for sale the following antennas. This is for PICK UP ONLY from
Beachwood, NJ.

Cushcraft A27010S 10dB Dual Band Yagi. 5 elements on each.
Check out http://www.cushcraft.com/amateur/details.asp?catid=182 for details
on this antenna.

MFJ-1762 6m 3 element yagi.
Details: http://www.mfjenterprises.com/products.php?prodid=MFJ-1762

The MFJ is about 2 - 3 years old and the Cushcraft is about 1 - 2 years old.
Both are in working order and currently assembled. They were taken down when
I had my roof redone and I don't feel like putting them back up.

BEST OFFER. I also have a tripod, a couple of masts and a TV antenna rotator
from Radio Shack that I've used to rotate these antennas.

I have a manual for the HP AN/USM-44 signal generator
package which includes the TS-510 signal generator
(a HP-608 militarized clone). Manual is fairly thick and
in good shape. Asking $8.00, and will ship media rate.

Pete

Some brand new composition resistors followed me home from a fest
today. More than I can use! I have 50 to 100 of each value. These
are
Allen-Bradley 5% just like used in the original equipment. I

have the following:

47 ohms, 390 ohms and 1200 ohms--- all 1/2 watt

15 ohms and 180 ohms --------- all 1 watt

All are still in their plastic wrappers. Will trade for your excess
or
sell if you don't have anything to trade.

Thanks,

Bill

I have for sale the following antennas. This is for PICK UP ONLY from
Beachwood, NJ.

Cushcraft A27010S 10dB Dual Band Yagi. 5 elements on each.

Check out http://www.cushcraft.com/amateur/details.asp?catid=182 for details
on this antenna.

MFJ-1762 6m 3 element yagi.
Details: http://www.mfjenterprises.com/products.php?prodid=MFJ-1762

The MFJ is about 2 - 3 years old and the Cushcraft is about 1 - 2 years old.
Both are in working order and currently assembled. They were taken down when
I had my roof redone and I don't feel like putting them back up.

BEST OFFER. I also have a tripod, a couple of masts and a TV antenna rotator
from Radio Shack that I've used to rotate these antennas.

Anyone have one they are willing to part with (or even have a hackjob
solution)?

I have for sale the following antennas. This is for PICK UP ONLY from Beachwood, NJ.

Cushcraft A27010S 10dB Dual Band Yagi. 5 elements on each.
Check out http://www.cushcraft.com/amateur/details.asp?catid=182 for details on this antenna.

MFJ-1762 6m 3 element yagi.
Details: http://www.mfjenterprises.com/products.php?prodid=MFJ-1762

The MFJ is about 2 - 3 years old and the Cushcraft is about 1 - 2 years old. Both are in working order and currently assembled. They were taken down when I had my roof redone and I don't feel like putting them back up.

BEST OFFER. I also have a tripod, a couple of masts and a TV antenna rotator from Radio Shack that I've used to rotate these antennas.

Hi Sarge,

He got $ 3,000 for it, not sure if he will ever see the cash...

I do like the square D double pole main breaker on the lower right of the case.
At least it looks clean on the outside.

I think he should offer a trailer with a genset as an accessory !

Looking at the auction entries under amateur radio on yahoo, it looks like everything is cb related.

Uh, look close. It's YAHOO, not EBay. EBay won't even let hams
sell some legit stuff.

And it's a 'CB Radio' specific section

Do a search on the guy. He's also sold a '3-pill' Fat Boy. I guess that
means an amp with 3 modules in it.

Yahoo doesn't care. They'll let you sell anything. I just hope they have a
real estate section so the neighbors of the guys who won those two actions
can move after getting unbearable RFI 24/7 from those amps.

Please tell me what good is it? From my calculations assuming 10K watts OUTPUT the current draw from the 20 volt supply would be ONE THOUSAND AMPERES!!!! What pray tell do you power it with, your own 20K desiel generator and run one inch cross section power leads from it and cool it with a 5000 BTU air conditioner? I'm not going to even adderss the 40K QRO version, which by the way would be 80KW input watts since these things only run 50% efficiency.

The other question I have is running 32 semi conductors in

parallel
will have quite a bit of capacitance, I would suspect at CB frequencies,
if
it would radiate RF (besides generating all that heat) I would suspect it

would be uncontrollable and be the biggest BCI, TVI, and every thing else

"I" generator on earth.

Not to mention that those 32 diodes had better be pretty well matched- as
its going to be hard to use current balanceing resistors with this kind
of current to prevent current hogging by one, or 2 diodes, at this kind
of current, with 32 diodes explodeing , in unison would be quite
spectacular at this current load!!  (Boom, Boom, Boom, Boom, ect)!

yes, the guy is crazy like a fox.
I posted a few questions to his auction and he removed them so
nobody would read it and not bid. His "lil" box can't generate that
kind of power. His house AC supply can't do it either.
He told someone that RG 217 - 218 will handle the 38,000 watts.
That would turn that coax into a puddle. The guy who won it will be a
very sad CBer. The seller should be reported!!!!!!

For Sale: Fox-Tango Model S102-025 250 Hz CW Crystal Filter for Yeasu models FT-757GX / FT-767GX. With original box.

$75 includes shipping in US.

Specifications:
1. Ultimate rejection: > 80 dB
2. Ripple: < 2 dB
3. Typical insertion loss: 250 Hz: < 9 dB dB
4. Zin/Zout: 2000 ohms
Physical: 36 x 22 x 20 mm
Reference 1201.1
Filter Fits By: Drop In
Bandwidth at 6dB 250
Mode CW 1 IF
Center Freq. KHz 8215.9

Please email any replies.
Thanks for reading.

Beware of these e-mails, ALSO, the same thing is being done for PAYPAL!!
BOTH Ebay and Paypal will NEVER ask you for this information via e-mail.
If you respond to them, they look EXACTLY like Ebay and Paypal.
I would not even respond to it.  Just forward them to spoof@ebay.com
and I believe the other is spoof@paypal.com.
If you click on the link given by them you can "sign in" with bogus username and
passwords.
BEWARE!!!!
You folks might want to pass this around to everyone and list it in other
groups.

Actually they will not when you look closely. Any form legitimately requesting sensitive personal data will via a 128-bit, encrypted, secure link, NOT email, and SCAM ARTISTS are incapable of duplicating these. (Email is not secure.)

Both Explorer and Netscape contain icons at the bottom of the browser window to show when such a secure link has been established and in effect with your computer, and both allow you to check the security level established, and inspect their certification credentials (the security Certificate that they hold) for authenticity.

Normally eBay and Paypal go through this ritual only when you are first open your account and is required.

You'll see the identical security measured being taken when doing online business with any reputable dealer when credit card number are needed, and also when you access your "On-Line Banking" with Bankamerica, Fleet, Citicorp, and Chase Bank. In fact, you won't even be asked to enter your password or PIN number except via a secure, encrypted link.

Harry C.

Don't be so sure.....

check out
http://www.antiphishing.org/
and go down the page 1/2 way to "Recent Phishing Attacks". The financial
industry is seeing about 1 to 2 really good attempts at this every single
day. And you can be certain, these guys are gettting really good. While most
are not using the 128 bit encryption, some are.

Mike, I stand by what I previously posted.

I suggest that you go back and more carefully re-read it before dismissing it's factual content.

Learn what a secure link is, and how its use is indicated on your web browser screen.

Learn how to check the seurity level of the link, read its Certificate, see which security firm issued the certificate, its expiration date, etc.

Every single one of the "Recent Phishing Attacks" that are cited represent rather crude email bait, some leading to a non-secured, non-encrypted, and obviously scam URL that aim to fool only the most naive and inexperienced net users who evidently never bother to employ common sense

Of course it's precisely these net ignorant users that are the targets of the scammers, and nothing except learning how to employ the security measures alrady existing on the web is going to protect them from really stupid acts based total upon their own to learn how the system operates prior to using it.

It's very similar to the confidence artists of current and earlier generations who relied on the ignorance and/or greed of their victims for success in perpetrating their scams. All scams that I have seen rely on one or the other of these factors being present in order to rip someone off of something. On top of that, these scammers justify their actions as an educational exercise of value to their victim, which in many cases it certainly is.

Harry C.

p.s. When bidding on eBay, there are a number of measures that you can employ to protect yourself from being scammer. Always carefully check the sellers feedback and how long he has been a member of eBay. Be wary of "Power Sellers" since these are usually firms that market mass volumes of usually "distressed" merchandise. Be particularly wary of sellers having zero feedback, particularly if they have been a member of eBay for less than a month or two. (Prior to bidding, communicate with these new sellers by email and learn what their story is, realizing that someone selling on eBay has to start somewhere. Still, it's most unusual to find a seller on eBay that has not accumulated some level of positive feedback previously as a buyer. It should be regarded as suspicious when that is not the case.)

TK-349 UHF HT as new. $40 + shipping CONUS Paypal preferred. Money order
OK.   If you have a file I can flash it before I ship. Antenna, belt clip
and spk mic cover no box. No battery or charger (runs fine on a 12vdc cord
and a "B" plug from RS)

Reply off list. K4RJJ Ronny

Hmmm... No real reason to get all bent outta shape.. I own an I730 and
it is not really that great of a phone.
That and his negs are gonna be noticed. I loved the "I am still a good
buyer"

How does the saying go? "What happens on eBay, STAYS on eBay".

Ahh, the Ebay Guild is born! Only buy off good established sellers. Those new ones are gonna scam ya.

Mybe that's a good idea. The established sellers can band together to keep new people out.

Mike, that's a pretty bizarre interpretation of what I posted. I was simply sharing my experience gained though something like 5 years of buying and selling on eBay with the newcomers.

If you want to purchase a "pig in a poke" from a seller with zero feedback it's certainly your option to do so and eBay or its established sellers can do nothing to prevent you from doing so. Then too, if a seller has zero feedback most people would consider it prudent to contact the seller by email and determine the facts of the situation.

I personally purchased a HP LJ4+ laser printer from a seller on eBay with zero feedback, but only after an email conversation with him (since this was an over $100 item plus signigicant shipping expense). In fact, I was the very first to provide him with positive feedback.

Realize the facts. On eBay, the majority of fraud stems from sellers with zero feedback offering highly underpriced popular items who insist on payment by a money order (which once cashed is essentially untraceable). Be afraid when you run into this pattern...be very afraid!

Be aware of the importance of feedback on eBay, because like a D&B report, it paints a picture of the seller's or buyer's past history and performance. Without reading it, you are flying blind!

If you check out my feedback on eBay, you'll learn that since Feb 15, 1999, I've accumulated a total of 313 postive feedbacks (a score of 223 positives since repeat purchase or sales to the same person don't count), plus one neutral from a woman who praised my packing and fast shipping, but claimed that the sealed-in-box antique Cabbage Patch Doll that I sold here "smelled like smoke". Just for the record, the majority of my feedback score stems from items that I have purchased over the years, since I've been only selling since the beginning of the year (roughly 25 items so far this year).

As a seller, I make it a practice to try and ship out an item the day after the auction ends, provided he/she (the buyer) has substantial positive feedback and no negatives even though I have not yet received payment. (I haven't been burned by anyone yet!) Obviously if I received immediate Paypal payment I ship on the next business day, regardless of the buyer's feedback.

Frankly speaking, on eBay the more new sellers the better, because it expands both the quantity and variety of items being offered for sale.

> Mybe that's a good idea. The established sellers can band together to keep new people out.

Are you normally a believer in conspiracy theories? :-) As a new seller, I can't imagine how such a thing could even be done, or any reason that anyone would want to! I sell collectable, antique computer game software, ham radio and research components, radiation detection equipment, technical items, etc. Who would it possibly benefit to keep any of my items from being listed on eBay, and sold on eBay as most of them are?

Think about it.

Harry C.

I have for sale the following antennas. This is for PICK UP ONLY from Beachwood, NJ.

Cushcraft A27010S 10dB Dual Band Yagi. 5 elements on each.
Check out http://www.cushcraft.com/amateur/details.asp?catid=182 for details on this antenna.

MFJ-1762 6m 3 element yagi.
Details: http://www.mfjenterprises.com/products.php?prodid=MFJ-1762

The MFJ is about 2 - 3 years old and the Cushcraft is about 1 - 2 years old. Both are in working order and currently assembled. They were taken down when I had my roof redone and I don't feel like putting them back up.

BEST OFFER. I also have a tripod, a couple of masts and a TV antenna rotator from Radio Shack that I've used to rotate these antennas.

To me, it doesn't matter WHO is writing the viruses or how, the bastards
ought to be shot on site. End of story. They are the lowest form of scum on
this earth and I place them with the likes of Oscummy Bin Laden and any
other scum out to do harm. WC

It's elemetary.
Who has the biggest axe to grind against MS?
Which company has been putting licensing pressure on open source code?
Who stands to gain most from the increased unpopularity and insecurity
of MS products?
[not that I have any affection for MS you understand, but it's simple
logic]

Personally, I think the virus writers are doing our country a great
service. If it were not for the virus writers finding these security holes
in software that our gov and major corporations use, a terrorist could
unleash a whole bunch of viruses all at one time shutting down our country
at a critical moment.

In fact the way I see it, there is so much money being made in anti-spam and anti-virus software that MS would be a fool to fix the problems.

All you windoze lusers can keep rebooting and reloading your computers at the same time you spend more money.

```

Our club is liquidating an estate of a Silent Key. This amp is in very clean shape and has had very little use.
It comes with the matching amp.
It also looks like it has a kit to add 10 meters but all the parts for that are still in the closed pouch with instructions.
This amp works on 110 or 240.

Asking $995. plus shipping.

I am in Portland Oregon so the shipping on this piece is going to cost some.
THe Power supply is very heavy.

If interested you can call me (Ed) days at 503 241 8663 or email me at
emellnik@emavideo.com

Charles, N5PVL:

I'm sure very little thats politicised is ever straightforward!
I read a long story in the Raleigh newspaper that showed the local ham club working in the field with the power company to insure fcc compliance and a ham-friendly relationship. This arrl clip was from may'04. My recollection was that the news story was about the same time.

Its about time for an update.

```

Here in Raleigh NC, Progress Energy has closed down the BPL testing for now.

Duke Power Co. and other companies in the state plan on testing their BPL.

I have 2 Saber III UHF Securenet radios with DES-XL installed in them and working currently, the radios are 8/10. I also have the T3011 BX KVL

Keyloader for the DES-XL so you can change your Securenet "key". I have a smart charger for the radios and a charger for the KVL. The KVL has a new battery bought last year I think and the radios have several batteries bought over the past several years. I also have the instruction book for the KVL (something hard to find now days). The radios also have antennas with them. I will gladly program 10 channels in them for you for nothing. I am still currently using these but will be upgrading them soon to an APCO 25 SmartZone Astro XTS5000 III 800MHz so I am looking to sell these as a unit only and will not break the set. Please contact me off line for more information. Located in zip 350xx. $2000.00 for the entire setup. Shipped only in the USA since there are DES-XL boards installed.

What does the "N" stand for in your screen name? I bet it's what you
want us to believe it is. I think you are a very young, very angry
teenager without a clue to anything yet. You do not even know what
little you understand about bpl must less ham radio.

Mid-'80's ICOM R71A for sale. Recently removed from sailboat as I am looking for RX/TX capability and this SSB is RX only. It works. It shows no outward signs of any abuse. It comes with owner's manual and some schematics. No AC power cord.

Since anyone interested in such a machine knows its value, I'll ask that you simply make me an offer that will satisfy both of us.

Excellent condition Yaesu VX-1R HT. Includes original box and manual. This unit is perfect, and has seen little use. Shipped to your door insured for $110.

Pictures available on request.

Thanks

Hi all,  does anyone out there know how to do a CPU reset of these
radio's??
The rigs are the same type, just different bands.
THANKS!!

If you are troubled with intermod at your base station, this filter will likely cure it. A DCI 2 meter bandpass filter, Model DCI-146-4H. Excellent condition, with original box and data sheet. $60 CONUS shipped and insured to your door.

This is maybe one of the best Amateur bandpass filters made. See:

http://www.dci.ca/?Section=Amateur

for more info.

Email k8cxm@fuse.net if interested.

Thanks.

AES spring/summer catalog lists them at $129.99, if you can still find one.
This one does include shipping CONUS.

They are discontinued in favor of the VX2, which has more power and features. I bought a new one at a hamfest for 110.00 two years ago. So you want the new price for a used item. Priceless. Chisel on.

Several posters have informed me that I over priced this unit, and I must admit maybe I did. I did not do any research in checking on what they were selling for. Sorry. Still I always thought it was the sellers right to set a price, guess I was wrong. Anyway....

Now priced at $80 and YOU pay shipping and insurance.

Excellent condition Yaesu VX-1R HT. Includes original box and manual. This unit is perfect, and has seen little use.

Pictures available on request. Contact me at k8cxm@fuse.net if interested.

Thanks

I have a very clean Kenwood DM-81 dip meter with all seven coils, rf probe,
earphone and alligator clip. These are quite rare and possibly the best dip
meter around. Asking $60 plus shipping. I can send pictures to interested
parties.
Thanks
Jack WN5A

Don't apoligize, Jim. You have to remember these cheap bastards are
hams. They aren't here to buy anything for half of what you paid for
it when it was new. They'd rather wait for you to die so they can buy
it from your wife for 2 bucks and then run over to FleaBay and resell
it again.

The Hambo Rambo Price Police - Big Balls and No Calls. Ignore "Mongoloid Helmutboy" and his two bit friends.

73, Jim KH2D

Thanks for the reply. I've always hated trying to sell stuff here, for obvious reasons. Right now, I may withdraw my stuff and sell it at the GCARA hamfest in September. I'll still consider fair offers, but I guess I really don't need to sell it that fast, or at all.

Thanks again and 73's,

Jim

Nice radio, Works great, Display comes on and goes off, and needs to re replaced. They want 225.00 from Icom to fix it. Radio is clean, and a non-smoker, but I replaced with a Kenwood TS-2000.

Will Trade for: Icom IC-706MKIIG, or sell for 800.00 Cash
If interested you can send me email at w7bo@qsl.net, or call 360-225-9888

No big deal if I get rid of it, but I am original owner, Have books and box, otherwise the display, it is a 9 out of 10.

John W7BO

Hello Everyone,

I would just like to tell you about my new Amateur Radio swap page and would like to invite you to visit. I still have some changes to make but everything seems to be up and running.

My new web site is called The Online Hamfest!(tm) and it's located at:
http://www.onlinehamfest.com

My web site is new and there's not much to look at yet but I've tried my best to make it look like a real live hamfest. There is a flea market area, free door prizes, a testing session and more goodies like a live chat frequency and games. Hopefully I have created, "The world's first live online hamfest!" :)

73
Dave

Does anyone have a Kenwood VFO-230 and or a AT230?

Please let me know condition and price if within reason.

Also send a pic if you can

n8iez@comcast.net

Thanks

Willing to pay for a service manual or copy of one. It's a Dictaphone model 9102.

Please email me if you have any info one one.

Rick

I have for sale the following antennas. This is for PICK UP ONLY from Beachwood, NJ.

Cushcraft A27010S 10dB Dual Band Yagi. 5 elements on each.
Check out http://www.cushcraft.com/amateur/details.asp?catid=182 for details on this antenna.

MFJ-1762 6m 3 element yagi.
Details: http://www.mfjenterprises.com/products.php?prodid=MFJ-1762

The MFJ is about 2 - 3 years old and the Cushcraft is about 1 - 2 years old.
Both are in working order and currently assembled. They were taken down when
I had my roof redone and I don't feel like putting them back up.

BEST OFFER. I also have a tripod, a couple of masts and a TV antenna rotator
from Radio Shack that I've used to rotate these antennas.

I did that almost 10 years ago,. still have the frg-7. been pleased with
it.

I really would want something a bit more than an old 10 meter rig for my troubles.

I have for sale a Yaesu FT-8100 that needs some work. It looks brand new and comes with the original box and manual, mic, power cord, etc.
It needs the band limits set. Currently it covers only 143 through 144 MHz and 430 and 440 MHz. Also I get no audio. The meter indicates signals are coming into the radio, but I don't hear anything. Price is $135. Also, I have a Yaesu FT-2400 2 Meter Transceiver for sale. It comes with the mic, mobile mount, and a copy of the manual. It needs some work including an internal battery. It loses memory and band limits when turned off.
I have the instructions on how to set the band limits. The transceiver has been opened up to cover 118 to 174 MHz. It also has a bad mic connection.
Price is $60. Thanks, Charlie Hugg, K5MBX

FS: TEST EQUIPMENT (etc) - Tektronix, HP, others:

I have LOTS of good, used TEST EQUIPMENT, etc,
for sale, VERY reasonably priced, at:

****

http://www.fullnet.com/u/tomg

****

I also have for sale the Gootee CURVE TRACER, and KITS to
build them yourself. It's a great little unit!

And I have many hard-to-find (PDF) SERVICE MANUALS for sale.

There is some extremely-useful FREE STUFF, on my site, too.

Please, have a look.

Thanks.

Tom Gootee

I have the following items for sale or trade:

1- Icom IC-R8500 (full coverage) in as new condition. Has been covered by a custom cover when not in use and has no dings nor scratches. Will sell for $950 (firm) or trade for a Drake R8B in as new condition.

2- Bencher BY-1 in very good condition ("Bencher" label has a small scratch). Will sell for $70 or trade for a quality straight key.

3- Yaesu AD-3 Duplexer in excellent condition. Will sell for $40 (I ship) or trade for ??

My eBay rating can be found under NPDXO.

Please contact me direct if interested.

I have the following items for sale or trade:

1- Icom IC-R8500 (full coverage) in as new condition. Has been covered =
```

by a custom cover when not in use and has no dings nor scratches. Will =
sell for $950 (firm) or trade for a Drake R8B in as new condition.

2- Bencher BY-1 in very good condition ("Bencher" label has a small =
scratch). Will sell for $70 or trade for a quality straight key.

3- Yaesu AD-3 Duplexer in excellent condition. Will sell for $40 (I =
ship) or trade for ??

My eBay rating can be found under NPDXO.

Please contact me direct if interested.

Why. You have to run the thing to catch it. I have the defaults
turned off, I use Agent as a news reader, and Firefox as a Browser..

You should see the code in some of these. They are adding Netscape as
well as Explorer.

Thats because its different trojaned machines that send them. Caused
by brain deads that constantly Open these things.

In original box. Has refurbished print head. Still works.

This is a tractor-feed printer.

Asking $35 + s/h. My zip code is 97006.

LarryC, N3CCW

Did you see the One Page Add by Icom in QST?

Please visit the Icom Website and download the videos.
http://www.icomamerica.com/amateur/video/

The first two videos gave a great overview of Dayton from an Icom Marketing perspective.

The third video was an great production demonstrated by two teenage amateurs Trevor and Sara.
I would like to suggest you put this video on a CD and send your kids to school with it and let them play it for there friends.
Play it at your next amateur radio event for others to see.

I would like to thank John Webb - W7NWH and Icom for producing these videos to help promote the hobby.
Wouldn't be great to get something like this on TechTV or get a corporate sponsor to use this to market our hobby as well as there product.

73's...

I have 2 Saber III UHF Securenet radios with DES-XL installed in them and working currently, the radios are 8/10. I also have the T3011 BX KVL

Keyloader for the DES-XL so you can change your Securenet "key". I have 2 smart chargers for the radios and a charger for the KVL. The KVL has a

new battery bought last year I think and the radios have several batteries bought over the past several years. I also have the instruction book for the KVL (something hard to find now days). The radios also have antennas with them. I will gladly program 10 channels in them for you for nothing. I am still currently using these but will be upgrading them soon to an APCO 25 SmartZone Astro XTS5000 III 800MHz so I am looking to sell these as a unit only and will not break the set. Please contact me off line for more information. Located in zip 35080. $2000.00 for the entire setup. Shipped only in the USA since there are DES-XL boards installed.

Well, maybe we can learn something here.

What do you see that's "strange" about the URL above ?

Looks like a subdomain of http://www.fcc.gov to me.....

Let's not start this again, let's argue about something important,
like Morse code. Ain't enuff of you Apple Suckers and Penguin Pluckers
to be worth arguing with.

We need a new O/S, just for ham radio. We could call it Macnix. The logo could be a roasted penguin with an apple in his mouth. And there wouldn't be any application software so nobody would ask questions about how to use it.....

73, Jim KH2D
Morse Code Sucks

Hi - I'm looking for a FT-736R with the 220Mhz and 1.2GHz modules. If you have one for sale, please email me.

I will consider any FT-736R regardless of what modules are in it, but I'm most interested in the ones that have the 1.2GHz option.

Thanks and 73,
David N2TEB

You are absolutely correct, but that wasn't the "strange URL" I meant. The
post
that started this thread is as follows (from June 12):

<quote>
The information about filing a FCC BPL comment on the ARRL web page was
outdated. There is a new case number that should be used. 04-37 is the
correct case number.

It only takes 5 minutes to file a comment with the FCC against BPL.

http://vambo.org/a/
<end quote>

Somebody else questioned it first, wondering why the FCC URL wasn't just
posted;
then somebody brought up paranoia. I seconded the paranoia and I stand by
it, at
least in principle.

vambo.org, searched on google, gave me no obvious ham radio links but a
little digging
identifies a Colorado ham associated with the site. (By "digging", I mean
google &
qrz.com; no hacker weapons here -- I'd probably shoot my eye out :-)

73,
John
KD6VKW

PS: While I was composing this, Norton Internet Security intercepted a
trojan attempt.
Who's paranoid? I am.

I have for sale an Amp Supply LK-500ZC HF amplifier in excellent electrical and cosmetic condition. It uses 2 Eimac 3-500Z's and a large Peter Dahl transformer to produce over 1500 watts on 160-10 meters. This amp has the QSK option installed, which works very, very well. It has a two speed fan (low speed is very quiet, high is what you would expect for something that moves that much air) and is very easy to tune. I usually run this amplifier with about 60 watts of drive from my Ten Tec Corsair. This generally produces about 1200 watts out. You can drive it with up to 120 watts for legal limit output. Includes manual. Asking $875 plus shipping.

I also have for sale a Heathkit SB-230 80-10m HF amplifier in excellent condition.   This amplifier uses a single 8873 triode to produce about 900 watts out. It has no fan and is conduction cooled with a huge heat sink on the back, which makes it completely silent during operation (except for the T-R relay). Asking $425 plus shipping.

Please contact me at jcamp2@cox.net.

Thanks,
Jeff

Hello everyone:

I have a near brand new 440 MHz repeater. This is the Motorola GR-1225 without duplexer. In addition I have the Motorola RSS version 3.2 used to program this units as well the M-1225 and the P-1225.

This is a Windows based software.

Repeater was used on my site and now I have replaced with a more expensive one.
Works great. I am giving this and the software for a Icom 706 MKIIG

If you are interested please email directly at:
wvantonelli@comcast.net

Or send your phone number and I will call you (Within the Continental US, Puerto Rico, US virgin island, Hawaii and Alaska only, please)

Thanks

Will, W7JM

"The limit for an unintentional emitter on HF is 30 uV/m at 30 meters from the source," he said. "If you take a dipole cut for 3.5 MHz and put it in a 30 uV/m field, you'll have a noise reading of S9 plus 16 dB at your transceiver."

The FCC has extended the comment period for BPL. If you value radio, this may be the last and only chance to have your voice heard to stop BPL from destroying your hobby. The FCC has extended the comment period for BPL

Simple instructions are at www.vambo.org/a

Also posted below.....

It is VERY simple to file a FCC comment. Click the link below and enter

04-37

in box #1 (proceeding number) and fill in the blanks. The simplest way to comment is to type your comment into the box on the bottom of the form. Sample comment below.

http://gullfoss2.fcc.gov/prod/ecfs/upload_v2.cgi

If you see fit, please post this to as many groups as possible
because numbers count! Please mention this in your nets!

More info at http://www.arrl.org/news/stories/2004/02/12/5/?nc=1

If you can't think of any thing to type or wish to make this as painless as possible, you can cut-n-paste the comment I typed below.

/******************************/

In Writing, I wish to persuade the FCC from allowing BPL to be implemented. The destruction or at the least, deterioration of the shortwave bands is not only a violation of ITU laws that protect international broadcasters from interference and jamming, it will be destroying many people's life hobby. Amateur radio will be reduced to users with high-power amplifiers and large antennas. Emergency communications will be hindered to levels directly responsible for the loss of life. Also, this will hinder military HF comms reducing national security

There are many technologies that make BPL unnecessary. BPL will never be able to carry the high bandwidth demands for mass distribution of video much less the up-and-coming HDTV.

Thank You!

I have up for trade an Icom 746 Pro. I would like to trade it for a Yaesu 736R which has the 50 mhz and 220 mhz band modules added in. Or I would consider a stock 736R plus some $$. Please email me and let me know what you have!
73,
Renee NZ9T

I am chasing up some accessories for a Kenwood TM-741a, I'm after the DTMF Microphone (MC-45DM) and the 6m Module (UT-50S), the 6m module is also used in other multiband models. I am happy to buy accessories that may need a bit of repair....

Thanks to all that have helped me recently in my hunt for parts :-)

Regards - Tony Eagling Vk7YBG

I have for sale an Amp Supply LK-500ZC HF amplifier in excellent electrical and cosmetic condition. It uses 2 Eimac 3-500Z's and a large Peter Dahl transformer to produce over 1500 watts on 160-10 meters. This amp has the QSK option installed, which works very, very well. It has a two speed fan (low speed is very quiet, high is what you would expect for something that moves that much air) and is very easy to tune. I usually run this amplifier with about 60 watts of drive from my Ten Tec Corsair. This generally produces about 1200 watts out. You can drive it with up to 120 watts for legal limit output. Includes manual. Asking $875 plus shipping.

I also have for sale a Heathkit SB-230 80-10m HF amplifier in excellent condition.   This amplifier uses a single 8873 triode to produce about 900 watts out. It has no fan and is conduction cooled with a huge heat sink on the back, which makes it completely silent during operation (except for the T-R relay). Asking $425 plus shipping.

Please contact me at jcamp2@cox.net.

Thanks,
Jeff

Yo hams!

Would anyone volunteer what happened to the San Jose company during these pre-field day hours?

Looks like several model 312s have gone thru here over the years. That being a xtal-controlled commercial (read marine?) SSB xcvr.

But I've a pre-set selected remote antenna matcher called the SBA-365... that might be an accessory for the 312.

Does anyone in the wild blue have SBA manuals?

Tnx & happy FD fm 3A-bat. W4RRW

Marty AA4RM

I have for sale a Ten Tec 238 tuner. Cosmetically it is a 6.5/10 and works
good. Some scratches on the top cover. It has a turns counter on the
inductor because the string always breaks on these units. $250 and I will
split the shipping to lower 48 states. Contact me at wb4ham@arrl.net
Thanks.

I have 5 12 channel DGPS boards that would make great trackers.

$25 each + shipping with full documentation or trade ALL 5 for a good
handheld GPS with power/data cable. I'd like to trade more than sell
then separate but either way.

They are almost the same size as a tinytrack 3. Female SMB connector.

Please reply OFF LIST direct to k4rjj@"nospam"comcast.net Remove
the "nospam" with offers all 5 will fit in a USPS priority mail box
with an antistatic bag and packing.

For Sale: Two HAMSTICKS. One for 10 meters and one for 15 meters. Traded in my Pontiac Montana for a Ford Focus because of high gas prices. But I can't fit the rig in the Focus. So selling the antennas. Still plenty of action on 15 meters, especially this coming fall/winter. And E-skip daily on 10 meters which is perfect for mobiles. ONLY $14.95 for BOTH! (Plus $9.95 Priority Mail shipping and insurance.) First e-mail gets them! wa8mea@hotmail.com - 73 from Bill, WA8MEA - REALLY NEAT STUFF at - http://qth.com/dwm

Hi all--While this may be a bit OT for this group, I have a virtually new IBM Thinkpad T42 (Type 2374-FS3)laptop for sale which would be perfect for those DXpeditions or to run the latest radio control and/or software based signals analysis software.

Here are the specifics of the laptop:

Intel Pentium Mobile 1.70GHz CPU (IBM's top of the line)
512MB RAM (expandable up to 1.5GB)
60GB Harddrive
DVD Rom/CD-RW combo drive builtin
802.11a/b/g wireless LAN card builtin
10/100/1000MHz Wired LAN card builtin
56k v.90 modem built in
2 PCMCIA card slots free
15" Active matrix XVGA display (1200x 1600 max res)
64MB Radeon 9600 Video card
Windows XP Pro installed (includes OS)
Microsoft Office 2003 installed
Norton Antivirus installed
IBM laptop connectivity and utility package installed
2 USB ports, 1 parallel port, 1 serial port, external monitor port
Integrated sound card w/Mic and headphone ports
Power supply charger

Brand new IBM battery
IBM Executive Nylon carry case

In other words, this machine is loaded. I paid over $2300 less than a month ago, but I am asking $1650 plus $25 shipping to the lower 48 states. Am willing to ship overseas but price will be determined by your location and preferred method of shipment.

Please see the CNET reviews of this PC at

http://reviews.cnet.com/IBM_ThinkPad_T42/4505-3121_7-30871787.html

Please reply to me at wampus@nc.rr.com .

Thanks!
Chuck

For sale is one UHF base antenna, model number UH-2401 from www.buxcomm.com. I bought this antenna last fall intending to use it with a GMRS base radio, but I do not have the radio anymore, so the antenna is surplus. You can find out more about this antenna at http://www.buxcommco.com/page10/ants.htm. Frequency range is 430 - 490 mhz, tunable. A few of the screws for the u-bolts are a little rusty, but they can be easily replaced for pennies at a local hardware store.

This is PICK UP only from Beachwood, NJ. I will not ship it as I don't have the original packaging anymore and don't want to pay Mailboxes Etc to pack it up for me. Asking $40 OBO.

I have for sale 2 cables from Buxcomm, never used, still in the original
packaging. I bought these for projects that I never did. I have the
following cables: (5DI8MX) TNC with 5 pin DIN plug to Icom 8 pin Mic and ext
speaker jacks (KVI8MX) Kantronics 9 pin radio port (plug is a 9 pin male
serial plug) to Icom 8 pin Mic and ext speaker jacks. Best offer.

For sale is one UHF base antenna, model number UH-2401 from www.buxcomm.com.
I bought this antenna last fall intending to use it with a GMRS base radio,
but I do not have the radio anymore, so the antenna is surplus. You can find
out more about this antenna at http://www.buxcommco.com/page10/ants.htm.
Frequency range is 430 - 490 mhz, tunable. A few of the screws for the
u-bolts are a little rusty, but they can be easily replaced for pennies at a

local hardware store.

This is PICK UP only from Beachwood, NJ. I will not ship it as I don't have
the original packaging anymore and don't want to pay Mailboxes Etc to pack
it up for me. Asking $40 OBO.

I have for sale 2 cables from Buxcomm, never used, still in the original
packaging. I bought these for projects that I never did. I have the
following cables: (5DI8MX) TNC with 5 pin DIN plug to Icom 8 pin Mic and ext
speaker jacks (KVI8MX) Kantronics 9 pin radio port (plug is a 9 pin male

serial plug) to Icom 8 pin Mic and ext speaker jacks. Best offer.

The Internet Fraud Complaint does nothing to help you if you are ripped
off.I filed a complaint over two months ago and nevre heard from them on any
results.They do nothing and you cannot contact them and talk to them about
the complaint.I was ripped off from Brian Kress
of Columbus Ohio.His call sign is KC8RCV.He promised to send me my money
back and now he won't answer his emails or telephone calls.I did place a
complaint on the Internet Fraud,Called the police department in Columbus
Ohio and went other steps.
So don't waste your time as you will get no results.

Watch out for ::::DEADBEAT CROOK To Make things worse a ham radio
operator!!!!!

So what do you think whining about it here and cross posting will
accomplish? Everyone who gets ripped off and whines about it in NGs only
make yourselves look like idiots and clutters NGs with bullshit arguments.
You've got all his information. Go to his house and kick his ass and quit
cross posting.

Well hoop dee do.I kind of figured that there are some others on this group
who may want to know.Sorry I hit your funny bone the wrong way.Another thing
is,if I want to cross post,it is none of your buisness to say who can and
who can't.Have a nice day.....

I agree,  It keeps others from dealing with this type of
internet slime!
Keep posting and good luck to you!!!!!!!
73
============================

And your whining about him whining is even worse. He let everyone out
there know that the guy is a crook and not to do business with him. I
know I have Brian Kress/KC8RCV on my watch list.

Hey, why don't you call the guy and see if he can sell you something.
Why are there always A-hole know it all jerks like yourself who always
have crap to put on these groups?? The guy only wanted to warn others of
another kind of jerk that took his money. If you ever got burned like
this you would be the first to post the guy who ripped you off and cry
like a baby.
Have a good day in junior high school and remember to eat PLENTY of fish
for lunch. It is good brain food and you need all the fish you can get.

Golly gee wiz, such bad language from you.  If your mommy knew you used
those bad words she would wash out your mouth with soap.  It's funny,
when a grown-up says something to you that you don't like you go into a
rage.  I bet you did a body slam to the floor and kicked and screamed
too.  OK little lad, be a good boy now and go learn something, for a
change.  Maybe you will grow up to be a fine person and not a bully,
not likely but you can try.  And don't forget to eat fish, it will help
your brain!! You should eat a whale, but oops, that is not a fish.  Bet
you did not know that!
And by the way  why are you're crying about this thread and cross
posting?  You do the same thing!   It started out by giving great info
to people that needed to be warned about a crook.  It is YOU who made it
grow with your crap.  Grow up will you??
Bye Bye, you're filtered out.
To the group, I'm sorry for taking up space here with this child but
sometimes a moron needs a helping hand so he can
grow.
Anyone care to comment on this child??  Nah, don't waste your time, the
lad is not worth it.
73, Larry

Was going to mention the same thing, bought one new, with everything
including the cable, for 162.99 plus tax.

john

The mailing of these will cost the buyer $3.00 total for the entire lot of books
shipped at the same time.
I will sell to anyone, anywhere: but I will only mail to the USA.
I can accept payment in Checks, Money Orders, PayPal, and VISA/MC (through
my secure Web Site). No checks from out of USA. International Postal Money
Orders are OK.

There will be a series of email postings of similar items for sale.
PLEASE! When ordering tell me what box number goes with each item.

Each in good condition unless described otherwise.

THESE ARE FROM BOX NUMBER 1

Radio Amateur Callbook 1983 Foreign Listings. $5.00

KK9G is a fucking coward. Refer to http://www.donkboy.com/kk9g

He is a has been. A wannabe that really has no skills, just what he reads. He is NO hacker. He is a coward. He picks on people when they dont bow down and kiss his ass.

Dan Dews, KK9G, is good friends with W4AMP, W4SEX, AB8MQ, in fact, others report that Dan was seen in Glendale, WV at the home of Woger Wiseman attending the monthly lavender lads meeting. Dan is running for VP next term.

Sources also report Dan has been involved in NUMEROUS illegal activities including, but not limited to, ATM knockoffs, theft, credit card fraud, international wireline fraud, and many other crimes. He also broadcasts a pirate radio station on Russian military freq's at odd hours, and has been linked to the numbers stations comming from Iraq. That 20WPM CW really does come in handy doesnt it???

Is the end coming near for Amateur Radio Station KK9G? Will Dan be in prison soon? Will the FCC get him before the FBI, CIA, FTC, DEA, STD, KKK etc etc???

Find out in our next report coming your way to USENET very soon!

I have a nice ICOM IC-2800H. This is the Icom dual band(2/440) with the
color display. Its in good condition. It has been in the mobile. Some minor
wear on the rf deck. The face is near perfect. The previous owner has
modified it for MARS/CAP. Comes with the box, manual, and mike. Asking
$350.00 OBO. Would trade for a Kenwood TM D700.

1. I have a Yaesu VR-500 scanner / wide band receiver with box, manual, belt clip, and antenna in as new condition. Covers from below BC band to 1.3 GHz. This radio doesn't seem to be blocked. I haven't found any frequency that it won't program. $200.

2. Icom W-32 A 2 meter/440 HT with 800 MHz receive. Has MAHA drop in charger, good battery, speaker mic, and box. (can't find the manual but it's available on line) This item was previously listed and sold but the buyer didn't follow through. $175.

Will trade either for a dual band mobile or perhaps a high power 2 meter rig such as a VX-8000. May trade both on an all mode 2 meter rig. (Please no 10+ year old rigs that parts aren't available for) All sales are plus shipping from 47130.

Pictures can be seen at http://www.angelfire.com/in4/jnk47130 .

Questions or offers to: K5DIE@insightbb.com . Do not auto reply.

Up for sale is a like new Kenwood TH-G71A. This radio was my first (bought brand new from AES in Orlando) and was used indoors 90% of the time. The TH-G71A is a 2m and 70cm dual band handie talkie built to MIL-STD 810E. It features an illuminated display and DTMF keypad, alphanumeric display, AM receive, extended receive, CTCSS tone encode/decode/scan, 10 (16-digit) DTMF autodial memory channels, 200 memory channels, multiple scanning modes, optional PC programming software (not included), and more. The radio comes in the original box with the supplied accessories including instruction manual, high performance rubber duck antenna, a rechargeable battery pack, plug-in wall charger, and a belt clip. Also included with this sale are the extra accessories itemized below! Be sure to look at all the pictures, as they show everything included in this auction in great detail. If you have any questions, please feel free to email me. Unit was working perfectly when the photos were taken (date of listing), however, as with all electronics: sold as is. 7-3, K4PCM!

Extra, all originally bought at retail accessories:

AS-30	Maldol 2M/440 15" Superflex	29.99
BC-19	Rapid Charger	52.61
PG-3J	Filtered Cigarette Lighter Cord	33.26
SC-45	Soft Case, two of these	28.72
SMC-32	Speaker Microphone	52.95
	Total cost of accessories	$197.53

Photos available at   : http://pcmike.net/photos/Random/TH-G71A/
Also listed on eBay at:
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3095160231

Only from Motorola. I have a HT1250 and am a ham and have been there, done that. If you get a HT 1550 and a programming battery you still have to have a dealer set up the key programming once. Got a new HT1550 coming from the local dealer tomorrow they say so I have been there too.
Motorola has stuff they do not advertise or have on the web site that you can get if you can find the number. That is how I got them to order the programming battery, I foung the number. They said they don't have an item like that until I told them the number of the battery i wanted, then they said OK!

All of this stuff is going on a "One Way Trip" to Dayton....
Most of it is from a couple of SK's in our area ... and I am
stuck moving it on for the Widows....

Flea Spaces at Dayton 1762-1768 .. thats close to the west end
food tent!... All that neat stuff thats not on my Diet!...

Mint Perfect Clipperton-L Dentron Amp... asking $400 yes it covers 160

Very nice Kenwood 520 w/ Kenwood MC-50 Mic $275

Kenwood AT-200 TUner $160

1 D-104 regular mic $25

1 D-104 Silver Eagle $45

Turner Super Sidekick Mic $100 ... has 4 pin plug on it for Kenwood

Old KDK-FM2030 ..2 mtr rig.... $20

Ham-4 Rotor ..was rebuilt 2 years ago by CATS $175

Kicker 500 Watt SWR mtr... $25

Drake TR4-C asking $250

Ameritron remote antenna switch RCS-4 $100

Yaesu FT-900 w/AT ... nice little 100 watt HF rig asking $750

Alpha 87a ... this one is mine... I have decided that I don't need two of them... I am the original purchaser of this amp... it works great.... complete with Eimac tubes... the originals... still work great... brand new ones are $6500 .. buy this one for $4500 ... It has had the Firmware Upgrade so that it actually does retune itself while your operating.... really neat $95 addition ... the new ones all have it..

MFJ Versa Tuner V (5) ... 3KW tuner with roller inductor $175

Yeasu FT-2500M ... nice 2 mtr mobile radio.. looks almost like a new one.. $135

Diawa CN-103 Cross Needle Wattmeter/SWR etc... model is CSS-1 $80

Kenwood PS-50 power supply ... $90

Hallicrafters SX-122 ... this one is mine... it is MINT... and 100% Restored... works perfectly... Restored means that all the old capacitors.... all of them... have been replaced with new parts.. also any out of spec resistors ... and aligned using calibrated equipment... perfect radio ... $450 or else it goes to Flea Bay when I get back from Dayton...

2 ... Dunestar Auto Bandswitching Bandpass Filters model 600... new ones are $339 from Dunestar .... buy these for $175 each ... these are mine.... no longer contesting using 2 stations as Multi/Single category so don't need them... They auto-switch with my Icom EX-627 antenna switch and the 2nd station had a Top Ten Auto Antenna Switch on it... see next item...

Top Ten Devices Auto Antenna Switch .... currently setup for Icom radios ... it can be switched to operate on any of the radios that have auto switching info coming out of the radio.... $80

Nye Viking RFM-003 Peak reading Wattmeter 3 kw $375

Icom IC-17 ... this is the controller between your radio and your computer for band changing etc... works with all Icom radios $90

K1EA DVP card .... with cable for Icom radio... was wired to my IC-765 ... this is a "Memory Voice" Board runs with CT contesting software as well as I am told other types of contesting software and logging programs... $100

Whole bunch of our "Wooden Radios" .... Antiques .. restored to original factory specs ... Pre-WW2... Zeniths, Philcos, RCA's etc!

See our Website for our Radios we restore etc...

www.JohnJeanAntiqueRadio.com

Several of my buddies are bringing some nice Collins, Drake, Hammarlund radios etc... Flea Spaces 1762-1768

Available for pickup only in Fort Wayne....Well...actually Leo, IN .... close to Ft Wayne...

Rohn HDBX 48 foot tower.. this thing is perfect condition..about 4 years old... has tilt base with it and thrust bearing Asking $300

Mosley TA-33-M Tribander.. this is 2 years old... $100

HyGain TH-6DXX ... Antenna is in good condition... had the stainless steel hardware kit installed on it about 10 years ago... only partially dis-assembled and all elements marked for quick re-assembly. Asking $200

Another HDBX ... this one a 64 footer ... tower is in need of a paint job ... and all the bolts should be replaced... couple of the rivets in the top section are broken... $75

Watch it on the AutoReply E-Mail ... correct e-mail is
k9uwa   at   arrl   dot net

73.. and see U in Dayton

A very nice Kenwood TS-440S with built in antenna tuner.  This rig looks
excellent and works perfectly.  Has VS-1 Voice Synthesizer unit, mic,
manual, and power cable.  Serial number is 90xxxxx.  Does 160-10 meters
including the WARP Bands with full out put.  I don't think you will find one
nicer.  I have a TS-2000 and do not need the TS-440S.  Digital pictures
available.  Will ship for 475.00.  Thanks

rec.radio.amateur.equipment:533

I'm looking for a lapel speaker - not a speaker/mic - with a belt
clip. Looks like a speaker/mic except that it has only one 1/8"
mono plug at the end of the cable.

Radio Shack used to have one but it has been discontinued.

Reply to my call sign at arrl dot net.

If you don't find one I have a Motorola MT-1000 spk/mic with no cord.  I
used the cord/connector for a packet/programming cable.  The mic and speaker
worked great but the cable had nicks in it so it was the perfect thing.  I
left slack on the leads coming out.  Make offer.

Before I lug all these to the Atlanta Hamfest would someone be interested in about 40 (maybe more)various (mostly 12vdc and 9vdc) wall transformers with cables and barrel connectors?   I can sell or trade them as a lot or individual. Would love to trade for QRP type kit stuff. Got any unbuilt Ramsey stuff?

Email off list. If you are in the Atlanta area or will be at the Knoxville Hamfest I can deliver.

K4RJJ Ronny

Looking for a great deal on one or two narrow band, UHF (450-470) walkie(s) with a key pad and LCD readout.

Types I've seen that work work are certain Motorola P1225's ..CP200's & Kenwood TK-380's. There's a bunch of others that would do the job as well.

I'm ready to buy ..please email if you have something. Thanks, Ray

I need a GE master II test set to help work on my repeater.  If you would
like to rid yourself of one of these email me.
ka5eta@arrl.net
        I don't look at the list very often.

Phil, If you don't find one still let me know off list. putting a straight cable on here is about a 15-30 min job and I have the stuff. I had already thought of wiring it up like a cell phone headset so it can work through one of the many RS PTT/VOX adaptors that were closed out for $2.00. You may have seen them. They are the ones with the Icom plug that as a bare item costs $9.00 or more from parts stores.

K4RJJ Ronny

3 Rules (2 taken from Steve Martin)
1 Lord loves a workin man
2 See a doctor and get rid of it
3 check Radio Shack for ridiculous closeouts on parts. Buy em all and let the hamfest sort em out.

Looking for a great deal on one or two a narrow band, UHF (450-470)
walkie(s) with a DTMF key pad and LCD readout.

Types I've seen that fit the bill are certain Motorola P1225's ..CP200's  &
Kenwood TK-370's & 380's.  There's a bunch of others that would do the job
as well.

I'm ready to buy ..please email if you have something.  Thanks, Ray

Just returned from factory servicing.  Four finals replaced and bias
resistors balanced.   I got 500 watts out for about 20 watts in. Just to
make sure you know it- MAXIMUM input on this amp is about 25 watts. Most
folks try to pour the coal to it at 100 watts, and that will fry the
transistors everytime, so make sure you back your drive down before turning
the amp on.... the amp is rated for 500 watts out, so whatever drive it
takes to accomplish that, stop right there! On 10M and 12M, the highest you
may see will be 450 watts. No band switching.  Filter kit available or MFJ
LP filter also available.
Great little light amp with single muffin fan (really quiet.)

$575.00 Shipped
228 388 4814

Very rugged unit with massive heat sink,  Recently returned from servicing
where all four finals were replaced.  Input of 20-30 watts will produce
550-600 watts out on lower bands and 450-525 watts on higher bands.  Band
selection then no tune.  Comes with 20 foot heavy duty DC Power cable with
quick disconnect.
$750.00 shipped.

Hey there,

I'm doing some late spring cleaning.....and so I'm selling:
http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&category=66977&item=3819573055
Motorola UHF Saber 2 II 48ch
factory ID H44QXJ7139CN
- 48 channels capability
- Secure capable
- 440-470MHz MHz
- includes one (1) UHF rubber duck antenna
- One battery - (not tested to hold a charge)

Also for sale is a Speaker / Mic for the above radio.

Thanks

Adam N.

Got no takers. It's all going to the hamfest today and Saturday.

$1.00 each or 5 for $3.00 Choice.

If you will be around Atlanta on Saturday see you there!

http://www.atlantahamfest.com

I am looking to trade the following for a PRC-25 or BC-474A:
Signal Corps Test Unit I-236
Signal Corps Aircraft Transmitter BC-458-A
Loud Speaker LS-454/V
Military J-38
B&W frequency meter, this is an ex-navy unit
Will trade the above and the following for a PRC-47 or similar
GF-11 Aircraft Transmitter USN Model Made by Western Electric August
of 1943, and it was never used, in pristine condition with all
original parts and tubes and works. Alsso Me-61/GRC field strength
meter

I will consider all trades for equipment, so just email me any trade
or even call me. I just graduated High School and need something to
rebuild and use when I am not working

Email me with any questions or trades or even call me
Thank You,
Ian Riden

I have for sale a Yaesu FT-847 in excellent condition with original packaging, manual, and hand mic. Everything works as it should. This is a very nice radio, but I'm out of space and some stuff has to go. Asking $750 plus shipping.

I also have an Amp Supply LK-500ZC legal limit ++ HF amplifier. This one has the 10 meter and QSK options. Currently wired for 110 but can be changed to 220 by removing a jumper and putting a new end on the power cord. Includes a good copy of the manual and original sales order. Uses two Eimac 3-500Z's (full output). Asking $875 plus shipping.

You can contact me via email at jcamp2@cox.net.

Thanks and 73,
Jeff

Hello,

I recently purchased a used AEA PK-88 Packet Controller at a hamfest without the manual. I have looked for it online without much success. I was wondering if anyone could tell me where I could obtain it online. Alternatively, are there any hams with the manual willing to make a copy (or even just an electronic scan) for me for a small fee?

Responses via e-mail would be appreciated. :)

Thank you,
John L.

The information about filing a FCC BPL comment on the ARRL web page was outdated. There is a new case number that should be used. 04-37 is the correct case number.

It only takes 5 minutes to file a comment with the FCC against BPL.

Hello John, hope you find the manual, if not, i just might be able to get my hands on one. Did send email to friend that has a pk88, might be able to borrow and scan for you if so available.
Keep in touch ok, will let you know as soon as i get answer.
73 and gud luck.
de Jean-Guy/ve9buf

Sorry John, pk88 was sold, and cant find the gentleman that bought it. Did
try for you, otherwise, guess you will have to go to one of these folks that
sell them.
take care cul 73

This is obviously an amplifier intended for CBers, so I'd say the name
is an oxymoron. You can get type accepted amateur amplifiers for less
than this on the used market.

If the transistors have bad to be replaced, it has no doubt been
abused.

This looks FAKE, so you may want to go to the FCC site directly instead of
using his link.
Message-ID looks forged as well
Could be gathering addresses for spamming.

Can you say P A R A N O I D ????

The link on the guy's web site to file a comment IS the FCC's web
site:

http://gullfoss2.fcc.gov/prod/ecfs/upload_v2.cgi

The instructions on the ARRL web site to file a comment take you to
the exact same web site.

ARRL sez:

Goto http://www.fcc.gov/cgb/ecfs/

and click SUBMIT A FILING

which takes you to:

http://gullfoss2.fcc.gov/prod/ecfs/upload_v2.cgi

Turn in your badge, Dick Tracy, you are getting paranoid in your
old age. Anybody who wants to send HAM SPAM can get thousands
of email addresses from QRZ.com, no need to collect them one
at a time by having people fill out forms.

73, Jim KH2D

I'm looking for a 2 meter all mode like the kenwood 700 or 711a or Icom 251
or 221. What do you have? I want to send CW and talk SSB on 2 meters. Do you

have a radio in a closet gathering dust?

Gene

I'm looking for an AEA DSP-2232 or 1232 in good operating condition. If you have one you'd like to get rid of, please email me at jcamp2@cox.net. I can pay cash or also have lots of radio stuff to swap if you'd rather do that. I already have a manual, so I don't need another one.

Thanks and 73,
Jeff

Speaking as one who is fighting spyware on my computer, I vote WITH
the guy who's suspicious of a strange url that shows up in a newsgroup.
Use of strange urls is hardly confined to spammers.

You should look at Linux or Mac so you can regain the use of your computer. You should own your computer and not vis-versa!

;-)

Here is the webpage in plain ASCII text with a link to the FCC website. Please, making a comment will only take a few minutes.

/**/

The FCC has extended the comment period for BPL. If you value radio, this may be the last and only chance to have your voice heard to stop BPL from destroying your hobby. The FCC has extended the comment period for BPL.

It is VERY simple to file a FCC comment. Click the link below and enter

04-37

in box #1 (proceeding number) and fill in the blanks. The simplest way to comment is to type your comment into the box on the bottom of the form. Sample comment below.

http://gullfoss2.fcc.gov/prod/ecfs/upload_v2.cgi

If you see fit, please post this to as many portent groups as possible because numbers count!

More info at http://www.arrl.org/news/stories/2004/02/12/5/?nc=1

If you can't think of any thing to type or wish to make this as painless as possible, you can cut-n-paste the comment I typed below.

/******************************/

In Writing, I wish to persuade the FCC from allowing BPL to be implemented. The destruction or at the least, deterioration of the shortwave bands is not only a violation of ITU laws that protect international broadcasters from interference and jamming, it will be destroying many people's life hobby. Amateur radio will be reduced to users with high-power amplifiers and large antennas. Emergency communications will be hindered to levels directly responsible for the loss of life. Also, this will hinder military HF comms reducing national security

There are many technologies that make BPL unnecessary. BPL will never be able to carry the high bandwidth demands for mass distribution of video much less the up-and-coming HDTV.

Thank You!

Unbelievable a My story
Dear Sir,
Please I' need Help because Im in Ghetto.
After fortyone years my life, former ignorance nothing about own parentage, first time cognition for own parentage and this owing character and feature positive, neredity parentage one of most historical character of Serbia. Considering that myself come to improbable argument cognition abut project of extermination Serbia also off eighten sentury, I pleasure my story to divide with publicity to be entiled to they know who and what is done last 200 years, since today and they have pretence to know rightly truth, and how are turn historical character and how adversity done to myself and my parentage this country and this nation.

Decade secrecy this nation, only this and my, after 5. Ocotober 2000, as normal citizen, uncompromising with injustice, last discerning chance for realization principal right, who is all of my life refuse, and I am unlock gate of evil, my insatiable hunger of right, on bizarre mode relate myself to cognition parentage of Obrenovic Royal dinasty of Serbia, and only of this my pedigree.

Fact that I am never can to receive replay; who is my ancestral. Fact is, trought my life like sign opserve me number 13. My father is born 1.3.1925, I am born 13.5.1962, cadastral number placing in my ownership is 1305/45, number of my house is 13, that is place where I am living, throug is first in beginning street. In community registry houses numbers in my houses numbers is enrol name of nameless person.
Oddity which does heppen to myself, present in many bizzare randomness and yet variant abnormal and oddity feature, and particulary, that because anything of my reference competance institution rezult obscure respond which bring theirs in criminal act and same of this explicitly evidence this.Every

penal process who is I animate is pass in extremly unaccountble mode, and prosecutors ourself relate in, with explicitly data, on inquest like convictig. My family and myself brow of regional police court, Elektrodistribucija, Telekom and likevise. In unwonted mode with one letter with argument against organize criminal who is myself send (26.2.2003) late premier Dr. Zoran Djindjic, who is murder when my senior son is birthday, and after 100 years of murder last Obrenovic, 1.3.2003 myself do extrude smutty cash 20000 DM, organize criminal in Telekom what is showed on Beogradska hronika Belgrade cronicle - RTS, afterwards diector territory management Telekom Milan Zdavkovic is deprivation. I reference special prosecutor with own argument of mode how is murder premier, not reveive answer. Disregarding on my higt technical practice in sphere electronics (project), computer (program design and service), mobile phone etc., eminently approve patent crown "silver medal" with shape Nikola Tesla, and with participation in scientific programme RTS, existence my family and myself is continually control on reef hunger. Otherwise on my family and myself is in often perpetration experiment removal, but considering that I know how they observance removal, they further attempt is neutralize.

Every this unlikly doings relate myself to argument cognition that is Kremansko prorocanstvo sect project holocaust Serbia for interest dinasty Karadjordjevic, church and afterwards UDB-e, and to currents days in every phase generation war. Because myself, my parentage who is decade edit on untruth mode and because nation, I must and sedire afore public expose true and identification, recognize, primary reason every badly feature who is doings this country.
Dear sir, considering that I own culultive material, and for fact that myself afore competent institution infirm, what demonstrative myself report ministry of repulica Serbia, special anpublic prosecutor V municipal court, becouse is eminently political specimen identified by myself, member of conspiracy I request to urgency for interview of detal amount rightly historical truth about Serbia in organ whom, if interested.
Dear, Sir, this story myself possibly warrant, unhoped interest for yourself organ, interest is above all is after 200 years raise onside truth, I hope yourself invite myself on interview and let my to expose irrefutable fact and argument on 300 strike page.
E.G. Argument how Elektrodistribucija (head electric hose in Serbia) perfidy steal nation in enormity mode, how Telekom (haed Communication house in Serbia) wash smutty money, how is individual, parapsiholoski operate raven safe community etc.

Nahhh, let 'em all feel superior due to their "installed user base".
While the whole time they spend more and more of their efforts and
energy fighting off their inferior OS's security holes, we that use the
"non-standard" systems can simply do our work and play.

- Mike -

Note: Square wave mode only above 50 MHz. $200

General Radio 758-A 55-400 MHz Wavemeter. Dial in need of severe polishing but, insides are clean. $20

Heathkit IM-4180 FM Deviation meter. $100

Heathkit QM-1 Q-Meter. Includes "standard" coil and operation manual. $75

Hewlett Packard 141T Spectrum Analyzer system including mainframe, 8552B
IF section, 8553B, and 8555A RF sections plus 8443A Tracking generator.
All original knobs, terminators,etc. clean and working fine.
With manuals (or copies thereof...) for all units. $2200

Hewlett Packard 427A (transistorized) volt-ohmmeter with nice 4" mirrored
scale. Reads as low as 10 mV full scale on AC and up to 1000V AC or DC.
A spare battery and an original HP manual are included -- $75

Hewlett Packard Strobline Demonstrator. A rare sales tool from the late
1960's for dot matrix readouts built in a 5"x3"x11" deep series 1 HP cabinet. Complete your HP collection now! Working! $100

Harrison (later HP) 865B 40V .5A Max. Constant Voltage-Constant Current Laboratory Power Supply -- $25

McMurdo Silver model 903 Wavemeter coils: #100, 102, 103, 104 ,105 & 106 in original boxes. I also have the empty box from coil #101 and the instruction sheet for the Wavemeter.... and no, I do NOT have the meter itself. $20 all

Kepco Dual PCX 15-1.5 MAT 15 volt 1.5 amp max lab power supply in Kepco PC-4 cabinet. Individual voltage & current meters (4 total). Ten turn voltage adjusts -- $50

Polarad 1207A Microwave Signal Generator 3.7-8.4 GHz. $50

Olson model CB-067 SWR & Field Strength meter. In half of original box with instructions & short UHF-UHF cable. Screw in whip antenna is missing. Rated 1KW. UHF connectors. Little used, late 1970's vintage. $15

Sierra Electronics model 164B Bi-Directional Power / SWR meter (looks just like a URM-120) with 181-A-1000 element -- covers 200-1000 MHz with four power ranges: 10W, 50W, 100W & 500W full scale. Case is in good condition finished in "Howard Hughes" green -- leather carrying strap is in very good condition. N connectors (M&F) -- $50

Tektronix DD501 Digital Delay module for TM500 series mainframe. 1-99999 counts up to 65 MHz. $150

Tektronix PS502 Triple Power Supply for TM500 series mainframe. 5V @ 1A plus, dual adjustable tracking 10-20 volt @ 400mA. $125

Tektronix SW503 1-400 MHz Sweep Generator for TM500 series mainframe w/manual. $600

TEI model 28-200 relative power / SWR / Field strength meter -- screw in whip antenna is missing. UHF connectors. $7

*** RF Attenuators ***

Heavily built RF Attenuator, adjustable between 0-50dB in 10dB steps. 8" flying leads w/one terminated in a BNC Bulkhead female and the other with an N Male connector.   Looks like it should be good to at least 1 GHz. 3 1/2" diameter by 4" deep overall and weighs about 4 pounds. Tapped holes in the front frame for panel mounting. No manufacturer indicated. A 3/8" shaft adjusts by pulling (with a spring return) and turning so there is no chance of inadvertent resetting. No knob nor dial is included. $25

Adjustable RF Attenuator 0-10 dB -- Telonic TB-50A. 0-10dB (1dB steps) 50 ohm RF attenuator-- 3" diameter by 3" deep w/ side mounted BNC connectors. $15

6 dB low power pads with N connectors, male on one end, female on the other. Approx. 1"x1"x3" overall. 2 left. $10 ea.

All of the above plus shipping, if necessary, naturally.

**** Simpson Meters ****

NEW in box -- $20 ea
Model 1227 -- approx 2�" square front, 2�" mounting hole
5 volts
50 mA
250 mA
500 mA

Model 1247 -- approx 2�" square front, 2�" mounting hole
50 volts AC

Model 1257-- approx 2�" square front, 2�" mounting hole
10 volts AC

Used -- $10 ea
Model 1227 -- approx 2�" square front, 2�" mounting hole
5 volts
10 volts
50 volts scale (10mA movement) also marked Kepco Labs on the scale
500 volts

10 Amperes

**** Weston Meters ****

NEW in box 2�" x 2-3/8" rectangular front -- $20 ea

Model 7521
150 volts DC

Model 7522
300 volts AC

Used. $5
Model 301 3" square 3A RF Ammeter (requires external thermocouple that I don't have). 60 mA movement.

--- Meters, used $10 ea ---

GE DO-53 pair of 3�" meters 2A/1V FS One is a 2A scale and movement &
The second is a 1 volt meter with a triple scale -- 25 mA, 250 mA, 500 mA

for use with external shunts. There is a small crack in the right side of the bakelite front of this second meter which could be filled in with black filler. The glass is fine. $20 for the pair.

Triplett 220G 50 Volts DC 2-3/4" rectangular

Triplett 327T 100-0-100 uA DC 3" Square meter -- Slight damage to the rear of the case, two of the mounting studs are broken off, front is fine. Used. Two units available.

Westinghouse 300 mA 3" Square RX-35 series meter

Westinghouse 20VAC 3" Square RX-35 series meter

Westinghouse 50uA 3" Square RX-35 series meter. Also marked with Motorola pn 52-B-86645 on scale.

--- Meters, new $15 ea ---

GE 10V edgewise meter -- GE part number 50-283013MTMT1 3" thin edgewise panel meter 10V scale. NOS in an old box

Hewlett Packard DBM meter HP part number 1120-0037. This unit was actually made by Simpson -- -6 to +3 scale, 2�" round. NOS.

--- Meters $20 ea ---

Alps Keiki SU-55 series 3.4" x 2.4" rectangular NIB
  100uA DC   15V DC   3A DC

Lambda (made by Honeywell) 10 A scale 1.75" square new

Westinghouse 3" round 50mA RF Ammeter w/ internal thermocouple. Used.

--- A few more meters ---

Japanese meters -- unknown mfgrs
  50uA DC 2.3 x 2.6 rectangular NIB -- $15 ea (2 available)
  MRA-38 500uA DC 1.7" square used -- $6 ea (2 available)
  MRA-38 500uA DC 1.7" square new -- $10 ea (2 available)
  407-160 Red/Green half & half scale (100uA movement) less than 1" not square NIB -- $5

KEW Electric dual scale 32V / 1.5A meter (1mA movement) 1.9 x 1.6 rectangular -- Used $5

Simpson model 26, 20ua 3�" round meter, used very good condition, $40

All of the above plus shipping, if necessary, naturally.

**** Transistors *****

Motorola TIP34A 10A 60V TO-218 PNP Power Transistors. NOS 2/$1

*** 50 Watt Zener Diodes; All checked on a TEK curve tracer $10 each ***

House numbered TO-3 -- 5V (measured @ 2A) (one)
1N2804A   6.8V 10% NOS
1N3336B   68V 5% NOS (4 left)
1N2840B   110V 5% Pulls (2 left)

*** More diodes ***

1N1733M 3KV 350mA rectifiers two for $4

GE 1N2155 rectifiers, 25A, 100PIV, Used. Four for $5.

GE 1N3289 rectifiers, 100A, 200PIV, DO-8 large stud package. These look like NOS --(It doesn't appear that the anode leads have ever been bolted to anything.) Four for $20.

GE A70B, 100A, 200PIV, DO-8 large stud package. Used. Four for $15.

GE C156D, 110A, 400V Inverter SCR's, used. $10ea.

International Rectifier D-1047 467106-1 Glass cartridge rectifiers. 3 pieces for $15

Motorola rectifiers, 50A, 100PIV, plate mounted. 2ea MR1201FL & MR1201FLR (a bridge worth)-- NOS $10 all four

Motorola MR1215SL, 100A, 300V stud mount rectifier. $5

Motorola 48-869601 transistor. NIB $1

Sarkes-Tarzian Model 78D center-tapped Selenium Rectifiers. NOS! $5ea

Sarkes-Tarzian M150 cartridge rectifiers -- 6 for $10

Sarkes-Tarzian cartridge rectifiers, $2 ea:
20LA   10LF/1N1089   30L   30LF   40LF   10M/1N1081
20M/1N1082

Westinghouse 80A, 1000V house-numbered SCR's. NOS $10ea.

Westinghouse 20A (maybe more), 600V, DO-5 package house-numbered Rectifiers. NOS $3ea.

Westinghouse 6-1-1B/1N1188 3 Phase, 400V, 35 Amp rectifier assembly including heatsink. Unused but, the heatsink is a mite tarnished from long storage. $10

Unknown Mfgr. hermetically sealed rectifier assemblies: V-122 & BU1017 $2 ea

HV diodes -- House numbered parts (about 1/4" square by 2" long) probably rated at least 30 KV PIV (and perhaps 50mA) as they exhibit a 28V forward frop @ 10 mA. Asking $5 ea.

All of the above plus shipping, if necessary, naturally.

****** TUBES ******

--- Planar Tubes (used)--- Take the last 7 for $25 or... $ 5ea

322 7698(pair) Y602B Y2177(pair) EE144

---- Lighthouse tubes ----
2C46 pull $3

---- Pencil tubes ------
6442 pull $5 ea
7554 pull $5

*** 75 or so Nuvistors -- $50 for all ***

Most look like pulls, some are in boxes and some may be new.
The collection includes: 6CW4 6DS4 6DV4 7586 7595 8393

****

These are all old RCA, Sylvania, GE, etc.   No "Realistic", or modern imports in the group.

5654/6AK5W GE NIB 5 for $15
5654 pulls four for $7

6AL5 RCA NIB 5 for $15

6ER5 RCA NIB $5

5879, 7056, 7551 NIB $5 ea

5879 pulls four for $10

*** Lot of tubes for Collins Radios -- $30 ***
6146A RCA NIB   6BN8 (4)   6U8A (6)   6EA8 (2)   and 12AT7 (2)   The little ones are all in boxes -- some are new, some are pulls.

*** More tubes ***

15E Eimac NIB $20
6DQ6B RCA likely NIB + GE 6DQ6B pull -- $10 both
4637 (RCA) pull $30
6481 new $50

6883B/8032A/8552 GE NIB $15 ea.

12AU7A matched pairs NOS -- Tektronix part number 157-0049-00. Each dual compartment box contains a matched and serial numbered pair of new old stock RCA 12AU7A's. $20 pair; 3 sets available

***** TUBE SOCKETS and ACCESSORIES *****

Birnbach 434 "50 watt" socket. Base is cracked clean through adjacent to contacts, not noticeable from the top. Still quite useable as-is, or glue it. $8

Eimac HR-8 plate disspator used, a mite tarnished $10

Eimac HR-6 plate disspator used, a mite tarnished $6

Eimac HR-6 plate dissipators, NOS pair $20.

Eimac HR-3 plate disspators (.072 hole) $2ea
Larger fin version of above (by Bud?) $3ea

Erie Chemflex SO-427-3 Teflon insulated 7 pin miniature tube sockets including saddle w/ lugs, NOS -- $5 ea

Johnson 122-248 socket, with base ring & ceramic spring retained (parallel) plate bar. Used, good condition. $10

All of the above plus shipping, if necessary, naturally.

****# Power R's *****

Four 37.5K 78W power resistors, used w/mounting clips -- $8

Two 200W (or so -- 10" long) 1.5K ohm 10 tap (every 150 ohms) power
resistors, used. $12 pair

Dale 1.5K, 225 Watt power resistors, used. 3 pieces -- $12all

Ohmite 2K, 225 Watt power resistors used w/mounting clips -- $5 ea (10
available)

Ohmite 3K, 225 Watt power resistors used w/mounting clips -- $5 ea (8
available)

***** Carborundum type SP resistors $10 each *****

30 watt parts (2.5" long)   1 ohm   65 ohms

100 watt parts (6" long)   1 ohm   30 ohms   240 ohms   270 ohms

125 watt parts (8" long)   35 ohms   200 ohms   220 ohms (I've about
10
of these)   250 ohms

The numbers have partially worn off some of these units so, some of
the
above numbers are measured values.

***** Roller Coil ******

La Pointe L-0201 406-1 (identical to a Johnson 229-201) 10 uH. used
good,
$30

New! GE Ceramic end plates, part no. 7463338, for a GE roller coil. I believe these fit the GE coil that was used in the BC-375. $10 pair

***** B&W Air Dux coils *****

These are NOS, 10" lengths, unless noted otherwise

#1208T 1.5" dia, 8TPI, #16 wire, slight tarnish $20
#1216T 1.5" dia, 16TPI, #20 wire, somewhat tarnished $20
#1006T 1.25" dia, 6TPI, #14 wire, somewhat tarnished $15

plus a NOS partial length

#1008T   1.25" dia, 8 TPI, #16 wire, 8" long -- $12

--- some other partial lengths

#2408T   3" dia, 8 TPI, #14 wire, 4" long shiny -- $15
#2410T   3" dia, 10 TPI, #14 wire, 2.5" slightly tarnished -- $10

#3030   2.5"" dia, 8 TPI, #14 wire, 4" tarnished -- $10
#3031   2.5"" dia, 10 TPI, #16 wire, 3" long somewhat tarnished -- $10
#3031   2.5"" dia, 10 TPI, #16 wire, 1.75" long somewhat tarnished -- $5

---a couple of Illumintronic Engineering parts

375 7367-P1 -- 1.5" dia.x 5.75" winding w/ indented turns, 14 TPI, #17, 7" overall including plastic center support, un-used somewhat tarnished $25

980-0121-000 -- 2.5" dia. x 7.5" winding w/ indented turns, 8 TPI, #14, 9.5" overall including plastic center support, used somewhat tarnished but, no turns soldered $30

--- some other coils:

6.5 turns, 2" diameter 2" long silver plated .185" diameter copper tubing -- currently tarnished but, should clean up nice -- $15

6 turns, 2.5" diameter 2" long silver plated .25" diameter copper tubing -- lightly tarished. Ends are flatteded to one inch long tabs with a hole for say a #10 screw. There is a crack in the tubing near one termination which may be easily repaired with silver solder. -- $20

A large RF choke -- #22 enameled wire space wound 24 TPI for 2.75 on a 1" diameter grooved fiberglass form 5" overall -- $5

Miller 62A024 series (.173-.272uH I think!?) coils, 1/4" diameter wound with a 5 turn coil. Blue (carbonyl SF 40-300 MHz) core. 4 terminals, 2 currently unused. NOS. 2/$1

Toroidal Tank coil -- The core is fiberglass & resin encased. It is currently wound with 20 turns of #12 wire. There are notches in the form for up to 40 turns. It is a bit over 4 inches in diameter and about 1-3/4" thick. This was made by Bob, W6YUY. See his article in August 1985 Ham Radio magazine "Design a Toroidal Tank Circuit for you Vacuum Tube Amplifier". $50

***** VACUUM CAPACITORS & other Vacuum things *****

Jennings Vacuum Variables -- all used (or at least aged)

UCS-300-15S	300pF	15KV	$200	with standard puller, later manufacture(blue)
UCSL-750	750pF	3KV	$125	with standard puller
UCSL-1000	1000pF	3KV	$125	with standard puller

CVCD-1000 1000pF 20KV $200 with standard puller (My Hipot only goes to 15KV so that all I could test this one)

R1G SPST 20KV 20Amp Vacuum Switch; no solenoid $30

Collins 622-0193-001 motor drive assembly for a Jennings CMV1-4000 vacuum cap. $40

Jennings mounting flanges, used. FM2 FM2B FM2S $30 ea

---Fixed vacuum caps--

Jennings	VC-12	12pF	20KV	$20
Jennings		50pF	86KV	$86

Western Elec	50pF	5KV	$15

--- Vacuum Relays --

Struthers Dunn Type 78CCA109 "Keying Relay" which consists of a vacuum relay mounted on top of a small (2"x3"x4") metal enclosure. There is a 15 pin Jones connector on the side of the box. I believe that there are some auxiliary contacts in the box in addition to the vacuum relay. 28VDC. $15

***** Air Variable Capacitors *****

Cardwell XR-1000PS 1000pF About 4.5" x 4" x 3.5" overall including plate travel. .025 air gap. Used, Good condition. $20 ea.

Cardwell XR-1000HS (about 950pF max measured) These have slightly contoured plates for improved tuning resolution at minimum C. .025 air gap. About 4.5" x 4" x 3.5" overall including plate travel. Used, Good condition. $20 ea.

Cardwell 30-900pF (measured) (XR-900PS? -- 4 fewer plates than the above units) .025 air gap. About 4.5" x 4" x 3.5" overall including plate travel and mounting ears. used, Good condition. $20

Hammarlund SM-50-X, 7.5-50pF, .064 air gap, Just under 2" x 2" x 2" overall not including 1/4" shaft. Good condition. $10.

Johnson T9-5 miniature vertical PC mount trimmers 1.9-15.7 pF, Silver Plated machined plates -- NOS 2/$1

Johnson 154-1, 12-244pF, .05" air gap, about 3" x 3" x 3" overall. Rear shaft has been cut flush with bushing and the rear mounting tab has been shortened a mite. Otherwise, excellent condition, $25.

Johnson 154-34-3, 20-400pF, looks like .03" air gap, about 3" x 3" x 3" overall not including 1/4" shaft which is about 2-1/2" long. Excellent condition, $25.

Johnson 500E20 (modern equivalent 154-3), 500pF/2KV, looks like .05" air gap, about 3" x 3" x 4.5" overall not including 1/4" shaft which is about 1-1/2" long. Good condition except the rear mounting tab has been removed and it looks like a couple of the plates arced at one time and were subsequently filed down a mite. $25.

Similar to the part above but, NOT a Johnson, another 500pF/2KV, looks like .05" air gap, about 3" x 3" x 4.5" overall not including 1/4" shaft which is about 1-1/2" long. Good condition except the front mounting tab has been removed. $25.

National Type DX 500pF variable capacitor, approx. 3" X 3" x 3" overall fairly good condition. Last one, $10

```
Remler "scissors" variables.  Type 630  350pF  $25
                              Type 631  500pF  $25

4 Section capacitor 20-550 pF per section large receiving style
capacitor,
$25

**** Ceramic Doorknob & Disk caps ***

  These are used Centralab or similar -- $5 ea or 5/$20

   68pF   5KV   850 series

  These are NOS disks by KD & Erie  $3ea or 4/$10

  1500pF 7.5KV
  .01uF    4KV

  NOS Silver Mica caps

  2200 pF  500V  CM06 $1 ea
  5100 pF  500V  CM07 (high current rating)  $2 ea

All of the above plus shipping, if necessary, naturally.

*** SWITCHES ***

General Electric WW2 vintage (has that BC-375 look) 6 position RF style switch. Very solid detents! Used. $10

Centralab rotary switches & parts
Type AD 1 pole 6 pos. wafer NIB $4 (1 only)
Type DD 3 pole 3 pos. wafer NIB $4 ea

PA4001 Single pole 2-23 Position rotary switch NOS $10 ea

PA-1000 series parts NIB

PA-301 Switch frames	$4 ea
PA-2 2 pole 6 pos. wafer	$3 ea
PA-33 2 pole 5 pos. wafer	$2 ea

PS-100 series wafers NIB -- $3 ea
PS-21 1 pole 11 pos.
PS-23 2 pole 5 pos.

Dialight 570-31 3PDT miniature toggle switch with 5/8" long handle -- 5A 125 VAC NOS $3 ea

Grayhill 46YY2159 Sealed Pushbutton switches, RFE -- These were SPDT but, the NC lead has been cut off flush with housing. The NO & COM terminals are cut short like they were removed from a PCB. Nice metal shaft has about .2" travel. No button nor hardware, 1/4" mounting thread. And there are a bunch of them -- 10/$1

Mallory rotary switches
13124L 2 pole 12 pos. NOS -- $10

Switchcraft lever switches -- 10 pieces. all have black round knobs unless noted -- $15 all

8PDT (#60024L) New in box

Three pos. 2 form B momentary (#3035) New (2 pieces)
Three pos., 2 form F momentary (3000 series) used (2 pieces)

Three pos., 3 form A momentary each side (3000 series) New, white rect. knob

Three pos., 2 form C momentary (#130312) New
Three pos., 2 form C (#130312L) New
Three pos., 3 form A momentary each side (13000 series) New, red rect. knob
Three pos., 2 fom C (DPDT) each side (#160312) New

*** MISCELLANEOUS ***

Waters Universal Hybrid Coupler II, Model 3002 w/compressor. A fancy phone patch styled to match the Collins S-line. This one is like new in the original box w/ original manual. There are just a couple of hairline scratches on the sides, the front is unblemished. The 1968 price was $72.50, now asking $150 in highly depreciated money! :-)

Mini Typewriter style 35 key Keyboard 8" x 2.5" x 1/4" thick. Raised keys have nice click action. Only 3 rows of keys; Numbers & punctuation are all shifts. 15 pin flex cable interface. No documentation. NOS. $2

4" Silicon etched wafers, low yield rejects or they wouldn't be here but, pretty -- $10 ea.

Antique boxes
- DM-36-D Dynamotor spare brush box -- $2
- Bliley BC3 Crystal, includes data sheet. Top rough. -- $5
- Continental Carbomite Resistors -- $5

Sperry (Burroughs) SP-334 2� Digit 7 Segment Gas Discharge Readouts. NOS
$10 ea. 3 for $25

NOS coily cable for a Yaesu MH-27 mike (may fit others). Later version with the RJ connector at the radio end. $10.

Motorola Mobile Mike Cable part number 0180700T14, 4-wire coily cord mike cable with a Motorola 4-pin Microphone connector (similar to Amphenol MC4M) on one end and a spring strain relief on the other. There are some flat pins on the free wire ends -- New in Motorola plastic bag. $10.

NOS fan that fits some Japanese radio...marked: 57 10.01 100V

The wires from the motor are about 4' long and are terminated in a 2 pin JST connector. The impeller has 8 blades and is 7 cm in diameter.

It is mounted to a U shaped metal frame with four mounting holes spaced 5cm by 9cm $10

AEG Stepper Relay: 3 pole, 12 position, with a 48VDC coil. New in packing. $10

Amphenol MS connectors -- 3 pairs MS20-1 14 pin military style connectors
3 male panel connectors + 3 female cable connectors with shells (two straight, one 90 degree); some new, some used but clean. $10 all

Large (uncased) display unit. 256, T-1 3/4, red LED's arranged in a 16 x 16 pattern that is about 5" square. There is a 6" x 6" mother board plus 16 daughter boards holding the LED's. The LED's are driven by latches so any/all of them can be lit. There is a 14 pin DIP interface connector -- pin out provided. $65.

DPDT Crystal Can relays with 600ohm 28V coils and 2A 28V contacts made by Leach, Datron and other manufacturers. They have small solder hook pins for connection and a pair of ears on the sides to mount the relay.
These are old but, as they are hermetically sealed, they should be like new inside! NOS $3 ea (a dozen or so available)

Carter Radio 500K ohm rheostat with 2" diameter skirted knob, calibrated 0-100 over 270 degrees -- $10

Motorola TLN6824A Vibrasender -- Freq. 1B, 107.2 Hz $2

Motorola TLN1361A Timeout Timer $2

***** Transformers *****

ICOM BC-25U wall warts 12V 50mA -- $5ea (2 available)

Powerstat
 10B 120V 2.25 A variable transformer (variac) used, with dial & knob -- $20
 10B 120V 2.25 A variable transformer (variac) NOS, with dial & knob -- $25

GE 9T91A1 120V 2.5 A variable transformer (variac) used, no dial nor knob-- $20

Microtran T1104 600ohm-600ohm, +7dBm, audio transformers, pc mount, NOS-- $1ea

Atlantic Transformer #8629-2 300/600ohm - 2500 ohms +15dBm sealed round metal case 250-3.5KC -- used $15

General Transformer FT-2391 600ohm - 10000 ohms 0dBm 300-3.5KC sealed round metal case -- used $15

10V 10A Filament transformer -- Vertical enclosed style 3.5"x3"x4" hi, used -- $25

Stancor (Chicago Standard) Transformers

F106 115/230 Pri -- 10VCT @ 6.5A S case Used $20

AMS-6 4800/7600ohm - 4/8/16 ohms 2 watts 200-10KC, sealed square metal case -- used $25

Triad Transformers -- all 115V 60CPS Pri

F21A 6.3VCT @ 10A Used $20

R2C 135V @. 015A -- 6.3V @ .9A NIB $10

R5A 600VCT @. 065A -- 6.3VCT @2 .7A Used $15

R7A 600VCT @. 05A -- 6.3VCT @ 2A -- 5V @ 2A Used $15

Triad HS-331 Choke 4Hy 40mA DC 375 Ohms NIB -- $10

***** Carborundum type SP resistors $10 each *****

30 watt parts (2.5" long)   1 ohm   65 ohms

100 watt parts (6" long)   1 ohm   30 ohms   240 ohms   270 ohms

125 watt parts (8" long)   35 ohms   200 ohms   220 ohms (I've about 10 of these)   250 ohms

The numbers have partially worn off some of these units so, some of the above numbers are measured values.

*** Incandescent Lamps ***

44   6.3V .25A   T3-1/4 Bayonent mostly NOS (may be a few pulls mixed in) -- 5/$1

307 28V .66A   T-8 Large Bayonent NOS (in a dusty GE box) -- Box of 10, $10

327 28V .04A T1-3/4 Midget Flange mostly NOS (may be a few pulls mixed in) -- 3/$1

328 6V .2A T1-3/4 Midget Flange mostly NOS (may be a few pulls mixed in) -- 3/$1

330 14V .08A T1-3/4 Midget Flange mostly NOS (may be a few pulls mixed in) -- 3/$1

363 14V .2A G3-1/2 Threaded, NIB, box of 5 -- $3

387 28V .04A T1-3/4 Midget Flange mostly NOS (may be a few pulls mixed in) -- 3/$1

502 5V .150A G4-1/2 Threaded, NIB, box of 10 -- $5

1768 14V .2A T1-3/4 Midget Flange, NIB, box of 6 -- $4

7371 12V 40 mA T1-3/4 Bi-Pin Chicago Miniature, NIB, Bag of 10 -- $3

Type CHD projection lamp NIOB (New in old box) $10

Type DLD/DFZ projection lamp NIOB $10

**** VHF Amplifier ****

Late '70's vintage likely Military, probably airborne, VHF power amplifier assembly. It consists of 7 almost identical amplifier assemblies clustered around a central housing that has splitter combiner networks which are plugged onto each end with a bunch of SMB connectors. There are TNC's for the main in's & outs. I think it was originally configured as one amp, driving two, driving four boards. The complete assembly measures 7.5" x 5" x 3.5" overall -- the individual RF amp boards are 4.5" by 2". The outer covers are mostly missing. Each amplifier is a push pull design -- they appear to be 50 ohm in & out impedance with either PT6747 or PT6702 TRW transistors. I would guess this unit operates on 28VDC. I don't know what frequency range it covers nor the power level though, just guessing, it probably puts out at least 100W. And there is no manufacturer name -- probably went with the outer cover. Six of the modules are marked OK and one, the input stage I think, is marked NO Good. The individual amps have integral heat sink plates so, they could be removed from the assembly and used separately. Think of it as 7 amplifier boards @ $10 ea -- Bare PCB's would cost as much! -- $70

All of the above plus shipping, if necessary, naturally.

***** Power Supplies, Inverter, UPS *****

Open (L-shaped) frame linear power supplies 6" x 3" x 2" with attached
2
wire polarized line cord, 120V 60 Hz AC input; internal 1A line fuse.
There is a relay that switches the 3 voltage outputs. Six-pin SIL
output
connector with a matching cable to pigtails.
The wires are: GND, +5V switched, -5V switched, relay (gnd to
operate),
+12 switched, and +12 constant (for the relay). Just guessing from
the
780X series regulators, I would think that the +12 and +5 outputs are
good for about an amp. and the -5, which regulator is unheatsinked,
perhaps a couple hundred mA.
$12 ea. (5 units available)

Lambda LM B0-60 -- 0-60V, .45A Linear Power supply with remote sense terminals, screwdriver voltage adjust, 5"x3"x7" -- used $20

Power General
    Model 1035-2 -- 12V, 3A, Switching Power supply, uncased PCB 5"x3"x2" -- NOS $15

    Model 3050-1 -- 5V@6A , 12V@1A & -12V@1A, Switching Power supply, uncased PCB 5"x4"x2" -- NOS -- $15 ea (4 available)

    Model 3056-6 -- 5V@6A & 12V@3A, Switching Power supply, uncased PCB
5"x4"x1.5" -- NOS $20

Sierracin 5C12A -- 12V (5 Amp?) Switching Power supply with remote sense terminals -- open frame 5"x8.5" x2" -- used $15 ea (2 available)

NPC Model 12-115.   12VDC - 115 VAC 200W Square Wave inverter.   Black case w/ gold anodized front panel measures 7"x7"x5" high. 10 lbs. shipping wgt. $20

International Instrumentation Model PUP-200.   200W computer style UPS.
Off white case measures 15"x8"x6" high. Requires 24V worth of lead acid
batteries, not included. 18 lbs. shipping wgt. $25

***** Mechanical Things & tools *****

Sperry Gyroscope bearings? part no. 165899. 10 pieces packed in oil in a glass bottle sealed with black glop in June 1944. $10

IBM Model 75 Selectric typewriter -- Rare transistional electronic 96 character model, circa 1980, in IBM blue with mechanical keyboard (feels
like a Selectric II) and electronic 7500 character (26 documents + 99 phrases) memory. Good condition, types, but needs a bit of TLC (new ribbons, oil?) as it has been stored (indoors, clean & dry) for the last
15 years. $200

Craftsman (Atlas) lathe screw for a 54" bed (36" work space) lathe.
Used, good condition. $100

Trav-A-Dial bidirectional electronic counter -- I think this was originally for use with a mill or lathe in conjunction with a 200 count/rev quadrature encoder (which I DON'T have but are available from
many sources) to read displacement in .0005" increments up to 200 inches.
These use Hewlett Packard dot matrix decimal readouts for a very

pretty display. Switches for direction control and reset. Nice cast metal case, requires 5 volts power, 6 pin female Jones connector interface w/ pinout provided. $75

Used, tested HP 5082-7300 RHDP decimal readouts -- $5 ea
Used, tested HP 5082-7304 +/-1 decimal readouts -- $3 ea

NOS 5082-7302 LHDP decimal readouts, still in HP packaging, $10 ea.

Commercially made airflow switch assembly consisting of a V4-16 (is that a Cherry number?) microswitch (250VAC 5A contact rating) with a 1-3/8" x 1-3/4" sheet metal vane soldered to the switch arm. The switch is mounted in a U shaped anodized aluminum frame about 2.5" deep with mounting ears. Marked S-101 and part no. 467-115 if anyone knows where that's from! NOS $10

Listed below are serious squirrel cage type fans:

ILG Electric Ventilation 17-18-022A encased motor with 181-009-EA fan 115/230 VAC 1.6A/.8A 50/60Hz 3000 RPM 4+" round intake, 3+" x 4-3/4" rectangular output flange, weighs 25 lbs. used -- $30

Kooltronic Model DF1F016N Dual fan style 230 VAC 1.2A 60Hz 3000 RPM 3+" round intakes, 2.5" x 5" rectangular output flanges, 16" long by about 7" diameter overall, weigh 15 lbs.   These look like NOS but, they are a mite dusty from storage -- $25 ea (3 available)

******* MICROWAVE *******

Hughes M-band balanced mixer assemblies which have WR-75 flanges on the RF & Oscillator inputs and wire terminals on the IF outputs. $25 ea

IMPATT Diodes -- NOS individually packaged with test data
NEC ND8P15-5H-C 1W @ 14.8 GHz $15 ea
NEC ND8V12TU 2.5W @ 12.6 GHz $30 (one only)
Loral GC-5831E 300mw @ 12.5 Ghz $10 ea

Microwave Mixer Diodes (I think!) -- NOS in original capsule packaging
Sylvania D5163. 4 pcs $10 all

Avantek GaAs Fet Preamp.
Avantek SD7-0738N.   3.7-4.2 Ghz WR-229 input flange.
N output connector. 4 pin AN type power connector -- pin assignments noted on label. Presumeably functional. $25

Rantec FU-301 Microwave device

This is some kind of filter or delay line?? at some GHz ...I don't know. N connectors -- 7 3/4" x 3 3/4" x 1" overall. $7

All of the above plus shipping, if necessary, naturally.

I have listed 3 UHF Motorola HT-1000s in seperate auctions on eBay.com.

Click on this link to see all three listings.
http://search.ebay.com/ht-1000-see-
text_W0QQhtZ1QQsatitleZhtQ2d1000Q20Q28seeQ20textQ29QQsosortpropertyZ1

If the link does not work, go to http://ebay.com and do a search for:
"ht-1000 see text"   Quotation marks are not needed for the search.

Thanks,

Bill

```

Radios are EVIL, they're the work of the devil, made to collect your
souls and to turn you into brainless slaves of hell.

If you use radios, you will lose your soul to be damned
for eternal torment in hell.Demons and devils will feast on your soul
for all eternity.

So stop using radios now to save your soul.

Or the holy inquisition will come for you and burn your flesh to save
your soul, because the devil must not collect more souls or nobody can
prevent Armageddon.

Radios are EVIL, using them is BLASPHEMY , only heretics and
witches use radios.And heretics and witches shall BURN !

What? You didn't get a picture of those Antenna girls inside the loop
area wearing the corset top and the mini skirt?!?!  Nice pictures
otherwise, thanks!!

Thanks for posting the pix...

Hopefully, Hamdom will be enough sense to move theNational Convention to a
warmer...and drier convention locale...like Vegas!

Lou

     I got some pictures of people taking pictures OF them. Does that count?

     I heard that you could get your picture taken with them foe 10 dollars.

Hey all,

Maybe this belongs in Boatanchors but here goes...

Got this nice heavy radio. (Presently I am off the air).

It receives (poorly) and the plate voltage is low... Also some of the
dipped caps are without their coating.

Need the service manual for this radio. Can anyone help me out?

Let me know what your need to get for it plus shipping to 05459.

Copies are ok too.

Thanks es 73...

    Hello Group,

I am looking for an operations manual or quick explanation of the operation
of a Yaesu Ft76 or 26 (2 meter version).

Any help or leads would be appreciated.
73,

Russ W8RHJ

I have 3 boxes of precision resistors (leaded), IC's, Caps and inductors. Some in bags some on reels. Follow the links below for the lists. They are in Adobe pdf and Microsoft word. I will accept best offers for all (would like to sell entire lot) More photos or info upon request. These are all new and unused parts

Will trade Drake TR-4 with speaker/power supply and MN-4 matching network (with VSWR and 300 watt forward power meter) for a Yaseu FT 817. The TR-4 is a complete system in that all components match. Also included: 12 volt power supply and three spare 6BJ6A tubes. Depending upon age AND available accessories for the 817 I might throw in a Kenwood TM 261. For additional details call 803-649-1184 day or 803-649-1183 night. David Vine WA1EAW. Other items for possible deal include Kyocera Smartphone (SprintPCS) for mobile Internet access and/or Palm Symbol (Palm Pilot with built-in Barcode reader. See all at eham.com

Looking for a cabinet for a Lafayette HE-30 receiver ( I believe that the
cabinet for the Lafayette KT-320 or Trio 9R-59 works also) or a complete
"parts" unit.

Also looking for the matching HE-30 speaker.

Thanks

John

I have a transmitter that I want to trade for a receiver. It needs a
low voltage transformer. I'm in northeast GA. The transmitter is for
pickup only. I want to trade for a good Amateur radio receiver with a
good S-meter. HQ 110 or HQ 170. The transmitter is in fare shape. I
have the manual and a can of gray paint to repaint the case.Send me a
email. Thanks for reading and 73
Snoopydawg.

While I think (hope) his intentions are honorable
I for one will be hesitant to donate any gear to any
so called 'ham' charity for a tax write off.

A ham club I was a member of once did this
"tax write off donation" thing a year or two
ago and only one-quarter of the donated radio
gear (from 3 estates) were kept for the club.

The rest of the gear was pared-off between
Club Officers and Directors, who then mostly sold
it on e-Bay and a significant personal profit or
quietly kept it for their home/personal use.

Moral of the story: Tell the XYL that your ham gear
is not to be donated to a club after you go SK.
The many vultures will likely try and grab and
profit from it. Have a trusted ham sell it for fair
profit to the estate, or box it up in taped-up sealed
non-descript cardboard boxes and put em outside on the curb
the morning of trash day so the bastards won't scavenge
it either. (I've seen some bastard hams actually drive by
homes of recent SK's on successive trash nights hoping
the XYL would put the radios out on the curb)

When they knock on the door askin if they would like to
"part with" that old "radio junk", tell em the trash man
took it last week and it sounded and felt REAL NICE
when the hydraulic jaws of that trash truck crushed and
smashed that Yaesu and Henry to SCRAP IRON out
in the street a little earlier.....(trust me, I did this once
to a ham vulture whom I knew would knock on the
door of the XYL of some SK ham I knew. The look on their
face of the guy was ***absolutly priceless**** when
she told them, as I coached her to do, that the big amplifier
he wanted for $50 was crunched in the back of the
trash truck a few hours earlier....)

Hello Paul,

Sorry to hear you had so much trouble with prior donations to other groups.
I too have seen the SK feeding frenzy you describe.

My ARES/RACES/Skywarn crew are not vultures.

Anything donated that works will go into the motorhome or if not practical
will be used to build up battery powered field units or if AC only used in
our Net Control Radio room.

Anything that is totally not useable by my group will be offered to
surrounding ARES groups.

Like so many other public service amateur radio groups we lack significant
corporate or government financial sponsorship.

I'm trying to pull the group out of the 1980's and at least into the late
1990's.

If not practical to donate to my group please consider looking around your
immediate area for a worthy group.

Thanks,
Steve
N2UBP

Surrrrrrrrrrrrrre, and we all all believe the Easter bunny is about to
arrive too!   As one poster noted, I've seen more of these "so called"
charity donations end up in the private shacks of the guys running
the "so called" charity drive and/or being sold for cash.
Go sling your *bullshit* some place where people will be stupid
enough to believe it.

Kenny Joe

```

I have a nice looking radio that works great with mike manual,bracket and power cord.I am asking $140.00 shipped to your door in the USA.I do not have original box for it.

I am also open to trades.Let me know what you got.

Want to buy: 3 kw + roller inductor with non-wire coil,
prefer copper ribbon, with enough coil to cover 75 meters.

tnx john

You poor Texas guys sure are bitter.

As for me, after I'm dead I plan not to worry too much about
old ham gear. If I wanted to "invest" for my wife and
children then using ham gear to do it would be a very
stupid choice. That's not to say that I want my widow to
be cheated. But I don't plan on burdening her with
the crown jewels of ham radio. And if I did, I would plan
a way to have it managed without additional stress.

Anything I've left can be given away to someone who is interested
in using it... or selling it, if they are kind to my family
and considerate when they come and get it.

So if a ham says, "give it to the club" why do you care?

Curve Tracer: UPDATE

My CURVE TRACER webpage has been updated:

For details, cool photos, etc., see:

http://www.fullnet.com/u/tomg/gooteect.htm

With the kit version, I now (again) supply ready-to-use printed circuit boards (PCB's), etched and drilled, and "silk-screened" on the component sides. (And I still offer the lower-cost version of the kit, with the "do-it-yourself" PCBs and *everything* needed to easily make them.)

The Curve Tracer now also includes a complete set of circuit SCHEMATICS (along with the component-layout and wiring diagrams, parts lists, instructions, etc, which were always included).

Also included, now, are diagrams with TEST-POINTS' waveforms, DC voltages, and resistances.

A complete "Operator's and Service Manual" is also being created (which will automatically be supplied to all past purchasers). My goal is to make the manual as good as the older Tektronix ops/service manuals! It will be produced in both bound, paper form and in electronic form.

I now also offer a "fully-assembled and tested" version of the Curve Tracer!

I have been getting some wonderful feedback from Gootee Curve Tracer users. So check it out, at:

http://www.fullnet.com/u/tomg/gooteect.htm

Thanks!

Regards,

Tom Gootee

For sale is one UHF base antenna, model number UH-2401 from www.buxcomm.com. I bought this antenna last fall intending to use it with a GMRS base radio, but I do not have the radio anymore, so the antenna is surplus. You can find out more about this antenna at http://www.buxcommco.com/page10/ants.htm. Frequency range is 430 - 490 mhz, tunable. A few of the screws for the u-bolts are a little rusty, but they can be easily replaced for pennies at a local hardware store.

This is PICK UP only from Beachwood, NJ. I will not ship it as I don't have the original packaging anymore and don't want to pay Mailboxes Etc to pack it up for me. Asking $40 OBO.

Looking for the manual listed in the subject line - in really good
condition, no "beaters," please.

Will pay reasonable price for original or reasonable copying costs.

Thanks for any info.

73,
Carl - wk3c

  In case you missed it, there's a guy on EBay selling this on CD's, pretty
cheap.

You can download a similar manual from the army site
https://www.logsa.army.mil/etms/data/A/060577.pdf
This is an old link so here's the number.

TM-9-4935-601-14-7&P

May just have to search for 8640 on the site.

For sale is one UHF base antenna, model number UH-2401 from www.buxcomm.com. I bought this antenna last fall intending to use it with a GMRS base radio, but I do not have the radio anymore, so the antenna is surplus. You can find out more about this antenna at http://www.buxcommco.com/page10/ants.htm. Frequency range is 430 - 490 mhz, tunable. A few of the screws for the u-bolts are a little rusty, but they can be easily replaced for pennies at a local hardware store.

This is PICK UP only from Beachwood, NJ. I will not ship it as I don't have the original packaging anymore and don't want to pay Mailboxes Etc to pack it up for me. Asking $40 OBO.

For Sale: Peanut Whistle Two 40 meter QRP transmitter. VERY similar in
appearance to photo at DWM Communications website at:
http://qth.com/dwm ----- Assembled transmitter, code key and 7.040 mhz
crystal all for just $39.95 and I will pay for shipping and insurance.
You can run this with any portable receiver like the Sangean 909,
Grundig YB-400, Sony 7600 for a FUN little QRP station. Use a coax
switch for a manual TR switch for your dipole. First e-mail gets it!

```

Hi all, I have a Kenwood TH-31AT. This is a 220MHz small handi talkie
dating back to around 1985.
The PL in this radio does not have dip switches on the front panel like
the newer version "TH-31BT"
The PL is inside the radio and the PL is selected by soldering /
unsoldering the pads on the chip.
Does anyone out there have the information that tells which pads to
solder / unsolder for the different PL frequencies??
I have about given up looking for it on the internet.
The PL board inside the TH-21AT (2 meters) and the TH -41AT (440) is the
same as the TH-31AT.
If you have this info and it's not to much trouble can you send it to:
lafayetteRadio@optonline.net
THANKS for your help!!!
73

I have an EXCELLENT condition ASTATIC NIGHT EAGLE amplified microphone for sale. Works great with new rigs. Nice punchy audio.   It is presently wired for 8 pin ICOM use. I can wire for other radios if requested. Works and looks like new- no scratches. Schematic is in base. Here is a link to see it.

We have been down this road before.

U.S. troops sent to war half a world away. American foreign policy
controlled by an arrogant elite, bent on projecting military power

around the globe. A public misled into supporting an unconstitutional war founded on deceit and fabrications.

As the death toll mounts, we hear claims that the war is nearly won, that victory is just around the corner. But victory never arrives.

As the public loses confidence in the government, the government questions the patriotism of any who express doubt about the war.

When a presidential election arrives, both the Democrat and Republican nominees embrace the policy of continued war.

The military draft comes to dominate the lives of America's young, and vast numbers who believe the war to be a senseless blunder are faced with fighting a war they do not believe in, or facing exile or prison.

The year was 1968. Because voters had no choice that November, the Vietnam War continued for another six years. Hundreds of thousands of Americans like you died, were maimed, or suffered from diseases like malaria. A far greater number of Vietnamese died.

Today, the war is in the quicksands and alleys of Iraq. Once again, under the pressure of a determined resistance, we see an American war policy being slowly torn apart at the seams, while the candidates urge us to "stay the course" in this tragic misadventure. Today's Presidential candidates are not Nixon and Humphrey, they are now Bush and Kerry.

Once again, there is one overriding truth: If war is the only choice in this election, then war we will have.

Today enlistments in the Reserves and National Guard are declining. The Pentagon is quietly recruiting new members to fill local draft boards, as the machinery for drafting a new generation of young Americans is being quietly put into place.

Young Americans need to know that a train is coming, and it could run over their generation in the same way that the Vietnam War devastated the lives of those who came of age in the sixties.

I am running for President, and have been against this war from the beginning. We must not waste lives in order to control and waste more oil. Stand with us and we may yet salvage your future and Americas' future from this looming disaster.

Sincerely,
Ralph Nader

--
Front (IAF)-an Islamist party affiliated with the
Muslim Brotherhood and Hamas.

Abdeen Jabara also works closely with another IFCO project called the Coalition Against the "Counter Terror" Act. He distributes its flyers and has appeared in a video for the group, which may be purchased for $15 a copy - from IFCO.

Apparently someone is buying. According to a New York Post report, "the most recent IRS records available for IFCO, from the year 2000, show that the foundation took in $1,119,564 in contributions. A Not In Our Name statement report that they have taken in more than $400,000 in recent months for the purpose of publishing their statement."

NION and Narco-terrorism

As disturbing as NION's relationships with IFCO and Muslim organizations are, just as disturbing is its relationship to the Revolutionary Communist Party (RCP). Not In Our Name's administration cadre comes from the Revolutionary Communist Party (RCP), through such luminaries as C. Clark Kissinger and Mary Lou Greenberg, both of whom are Directors of NION and members of the Revolutionary Communist Party (RCP). Clark Kissinger, co-director of NION and the RCP, was quoted as saying that when the RCP took over, "it would be necessary to shoot everyone who didn't agree with them."

The RCP is a Marxist-Leninist-Maoist group that practices Lenin's "vanguard" philosophy, which states that a vanguard of intellectuals is needed to lead the proletariat in establishing a worker's utopia. It fosters the worldwide revolution through its membership in the Revolutionary International Movement (RIM). It is through this affiliation that the RCP is related to two organizations listed by the State Department as terrorist organizations; the Communist Party of Peru (Shining Path/Sender Luminoso) and the Kurdish Workers Party (PKK) are are closely associated with RIM. (The PKK is no longer a formal member of RIM; however, it was on

Stolen from 100 Ironwood Drive in Las Vegas, Nevada sometime between
April 10 and April 11, 2004:

Two sections Rohn 25G Tower
One Rohn 25G Top section
One Rohn Roof/Eve Mount

One Hy-Gain TH7-DX 10/15/20 Triband HF Beam

One Ham-IV Rotor

Two homemade sloper antennas

One 440MHz business band Yagi

All of this equipment was formerly owned by Alan Foster, KB7UI and
disassembled and purchased by Jason Creager, KC0ERG, before Al moved
to Yuma, Arizona this weekend.

There are several items missing from the complete package, so if you hear of anything being "parted out" and think "That's odd. Why is THAT missing?" please contact me as I can identify all of the stolen items . If you know the whereabouts of this antenna, please contact me at:

StolenTower@cox.net

I'm really hoping that this was an honest mistake and that someone picked up the gear from the hiding spot at the house to keep it from being accidentally thrown away.

Please forward this message (in a nonannoying method :-) to any mail reflectors for ham organizations in the Western United States.

Thanks very much,
Jason

For sale is one UHF base antenna, model number UH-2401 from www.buxcomm.com.
I bought this antenna last fall intending to use it with a GMRS base radio,
but I do not have the radio anymore, so the antenna is surplus. You can find
out more about this antenna at http://www.buxcommco.com/page10/ants.htm.
Frequency range is 430 - 490 mhz, tunable. A few of the screws for the
u-bolts are a little rusty, but they can be easily replaced for pennies at a
local hardware store.

This is PICK UP only from Beachwood, NJ. I will not ship it as I don't have
the original packaging anymore and don't want to pay Mailboxes Etc to pack
it up for me. Asking $40 OBO.

Since this was xposted, I will ask all three (sorry for wasting
bandwidth).
Question - is it high or low impedance - will it work with the older
tube type stuff, or just the modern dynamic mic type impedances?

Use the usual techniques to reply via email.

Molon Labe!

I have a Yaesu AD-3 duplexer in GREAT condition.  I am looking to trade for
a MINT Bearcat Uniden BC-800XLT scanner with both antennas (will add cash if
necessary).

Thank you,
John, KB2COP

For sale is one UHF base antenna, model number UH-2401 from www.buxcomm.com. I bought this antenna last fall intending to use it with a GMRS base radio, but I do not have the radio anymore, so the antenna is surplus. You can find out more about this antenna at http://www.buxcommco.com/page10/ants.htm. Frequency range is 430 - 490 mhz, tunable. A few of the screws for the u-bolts are a little rusty, but they can be easily replaced for pennies at a local hardware store.

This is PICK UP only from Beachwood, NJ. I will not ship it as I don't have the original packaging anymore and don't want to pay Mailboxes Etc to pack it up for me. Asking $40 OBO.

```

I have a nice Icom IC-735 that is surplus to my needs. I just bought a new rig. It is clean, puts out full power, there is nothing missing, and the little door in the front is there. I have the manual and the original box it came in.

It does need some minor (I think) cleaning done to the little switches on the left side (SSB CW AM FM). Once in awhile it will stop working and you have to turn it off and back on. Doesn't do it often, but I wouldn't sell a radio without telling *all*. It is still a very nice rig. I will sell this rig for $300 (most of them sell for $350-374 range). Please, no flames. If someone wants it, fine. If not, it still makes a nice spare rig.

73

Jerry

I have a Johnson Valiant that needs a low voltage transformer.  I need
a good receiver for my AM station. I also have a Icom R 71 receiver
that I will throw in too it has real weak receive and I think that a
diode crapped out before the ATT RF amp and straight through circuit.
This is for pick up only because it would just be to coastly to ship.I
will travel 75 miles away from Athens GA. I have the manauls for both
units. I also have a HQ 110 that needs C 73 and a Halicrafters S-85
receiver that is a nice working SW receiver but has no s meter and
isn't worth a darn for ham radio.  I also have a realistic 1000
channel pro 2052 trunk tracking scanner. I also have a TR 7850 2 mtr
moblie that used for a packet station. It needs a mic.  Maybe we can
work something out. 73 and thanks for reading

For Sale - Texscan Sweep Generator model SG-677U $99.00 + shipping & handling.

Unit is mounted in a very sturdy military carrying case but can be removed for rack mounting. I have no way of testing other than making sure it turns on and the dials and gages looks like they are working, so I am offering on a money back guarantee (less return shipping cost). Pictures can be found at www.dentonmarket.com or contact me at mikelgiles@bfesystems.com

FS: Peanut Whistle 2. Have a demo "PW2" on my shelf. A photo is at my website. Click "Peanut Whistle" at left menu. Only difference between photo & actual xmtr is the use of RCA phono jacks for the 14v input & for the antenna feed. Also used crafted "hobby wood" to mount the xmtr/code key. Assembled xmtr, key and 7.040 mhz crystal ALL for just $39.95. I will pay for shipping/insurance. Use this xmtr with any portable rcvr,(ie: Sangean 909, Grundig YB-400, Sony 7600) for a FUN lil' QRP station! First e-mail gets it! 73, Bill, WA8MEA, wa8mea@hotmail.com, http://qth.com/dwm

Small ham club in the midwest is looking to buy a set of 2 meter duplexers. Prefer 4 or 6 cavity. MIN: 65 db rejection @ 600 kHz. No mobile duplexers please.

Please state price,condition and location.
THANKS,
...Charlie...

Charlie

I'd shoot for a bit more than -65 dB. A good Sinclair notch duplexer

```
can easily exceed -95 at 600 kHz spacing.  I wouldn't good for much
less than -85 dB on a two meter system.

Check out this K.W. E-Zee Match Antenna Tuning Unit. This tuner will
tune balanced line antennas from 3.5 to 30 Mhz and is getting quite
rare! No reserve! Thanks

I have a look-like new Sincalir REslock 4 cavity 500Khz spacing duplexer.
It have 1 year old.

It can be tuned to your frequency if you wish.

I have also some repeater part like controller whit autopatch, commercial
radio

Asking 500$

Hello all, I have 4 amplifiers. Station 550, it does between 200 250 watts dead key and swings to 550. This amp takes 2 watts to do this. A ameritron ALS 500 moblie amp with the 10 meter mod. 25 watts swinging to 70 will give you 200 swing to 500 with 80 amps of draw on the battery. You can run this amp more effectivly by running two 2200 uf 16 volt electrolitic caps in parallel with that battery and the amp.
I have a palamore three tube amp. 12BT6 driving two 6JS6Cs it needs tubes so I have no idea what it does. Then there is the VooDoo 300 B it is a base amp and puts out about 150 watts with 300 watts of swing. The power to drive this amp is 2 watts. The Station 550 and the voodoo 300 B are broad band amp so they will work anywhere between 80 and 10 meters. I have a Johnson Valaint II that needs a Low voltage transformer. Its for pick up only. To heavy to ship.
I have a Pro 2052 trunk tracking scanner as well as a 300 watt MFJ 949C antenna tunner and swr watt meter. Sycron 1000 watt meter as well as to rerceivers. I also Have a Pentium 233 complete dialup internet ready computer. Includes monitor keyboard video cammera vidio card and mouse.
I am looking for a good amp that I can drive with my RCI 2990. Some thing with 4 811s, or 2 or 4 CX 250s, or, 2 or 4 572bs, a single or pair of 3-500s all mounted vertcal of course

Hello all,

I have added to list of things to trade with. I have added 2 computers and 2 receivers.

I have 4 amplifiers. Station 550, it does between 200 250 watts dead key and swings to 550. This amp takes 2 watts to do this. A ameritron ALS 500 moblie amp with the 10 meter mod. 25 watts swinging to 70 will give you 200 swing to 500 with 80 amps of draw on the battery. You can run this amp more effectivly by running two 2200 uf 16 volt electrolitic caps in parallel with that battery and the amp. I have a palamore three tube amp. 12BT6 driving two 6JS6Cs it needs tubes so I have no idea what it does. Then there is the VooDoo 300 B it is a base amp and puts out about 150 watts with 300 watts of swing. The power to drive this amp is 2 watts. The Station 550 and the voodoo 300 B are broad band amp so they will work anywhere between 80 and 10 meters. I have a Johnson Valaint II that needs a Low voltage transformer. Hamarlund HQ 110 and a s-85 receiver. These are for pick up only. To heavy to ship. I'm in Northeast GA.
I have a Pro 2052 trunk tracking scanner as well as a 300 watt MFJ 949C antenna tunner and swr watt meter. Sycron 1000 watt meter as well as to rerceivers. I also Have a Pentium 233 complete dialup internet ready computer. Includes monitor keyboard video cammera vidio card and mouse. I have a 933 Pentium III box with a 8 gig hard drive and 200 meg of ram CD in a tower case with monitor keyboard and mouse. I would perfer not to ship a computer. I have a Pentium II 300 128 meg of ram and 10 gig hard drive monitor keyboard and mouse.

I am looking for a good amp that I can drive with my RCI 2990. Some thing with 4 811s, or 2 or 4 CX 250s, or, 2 or 4 572bs, a single or pair of 3-500s all mounted vertcal of course

Does anyone know where I can find replacement cables for the Hygain HG-52SS
Tower.
It is very similar to the Triex W-51, but the manufacturer of that tower
says there cables won't work.
If you have any ideas, please send email to K4KAL. Look me up on QRZ.com

Thanks,
Keith

Looking to TRADE - QMS b2-200 - Quick Universal Mount System with SG-230 and SG-303 .
You can see this item at http://www.sgcworld.com/products/qms/QMS.html
I have not used this equipment, it was in storage for about 2 years, but I was told it worked when it was put up. Guaranteed not DOA.

I am looking for a HF Rig and antenna, but I might trade for something else, what do you have? If you want to purchase, make offer.

email to georgiadiver@yahoo.com

Thanx,

Dan

KD4BNH

Hi,

I have listed 10 lots of Surplus 3/16 19-strand Antenna Wire on
eBay.com

Click on this link to see the pictures and listings:
http://search.ebay.com/search/search.dll?
query=surplus+antenna+wire&ht=1&sosortproperty=1&from=R10&BasicSearch=

If the link does not work for you, go to ebay.com and do a search for:
surplus antenna wire

Thanks,

Bill

Up for auction is a veritable treasure trove of Bird equipment,
including 2 Model 43 meters, lots of slugs, cases, a Bird Coaxwitch
Model 74 and other good "stuff"

Please check it out, and thanks for looking!

Orange County, NY ARES , a non profit 501(c)3 corporation is looking for
equipment donations for use in converting a donated motor home into
a mobile communications center. Anyone donating equipment will receive a receipt
for the value of the donation for tax purposes. We need mobile HF, VHF, and UHF
antennas, radios, 9600 BPS packet, GPS, ATV, battery power supplies, rechargers,
Pentium II class laptops or better, and whatever else you might think could be
useful
in a field environment.

Thank You,

Steve Fleckenstein

Any so called "tax write off" will be more than negated by the cost
of shipping crap to you idiot!   And give me one good reason why
anybody would want to support *you* when our own home
towns, counties, and states are more in meed?   What an idiot
to post a request like this.

Lloyd

Hello Lloyd,

 I'd be happy to eat the cost of shipping for a substantial donation.

Do you support your local ARES/RACES group ?

Thanks,

Steve

MAKE THOUSANDS!!!

I found this on a bulletin board and decided to try it: I don't care about the useless pre-fabricated crap this message usually says. All I say is, it works. Continue pre-fab crap.

WELL GUESS WHAT!!!

Within five days, I started getting money in the mail!! I was shocked!! I figured it would end soon, but the money just kept coming in. In my first week, I made about $63.00 By the end of the second week I had made a total of $1873.00!! In the third week I had made a total of $9,612.00 and more mail kept coming in!! This is now my fourth week and I have made a total of $35,165.00 and it's still coming rapidly. It's certainly worth $6.00 and six stamps, and I have spent more than that on the lottery without ever winning!!!

My mailman asked me what was with all the mail , and when i showed him this system he was amazed and got going at it . Everyday he thanks me , it feels good to know your helping make other pepole have more time and money to do the things they care about most .(Dont let this pass you buy , it so easy and it realy does work)

Let me tell you how this works and most important, why it works.........

also make sure you print this out NOW, so you can get the information off of it, as you will need it. I promise you that if you follow the directions exactly that you will start making more money than you thought possible by doing something so easy!!

Suggestion: Read this entire message carefully!! (Print it out or download it)

Follow the simple directions and watch the money come in!! It's easy. It's legal. And, your investment is only $6.00 (Plus postage) !!!

IMPORTANT:

This is not a rip-off, it is decent; it's legal; and it is virtually no risk - it really works!! If all the following instructions are adhered to, you will receive extraordinary dividends.

PLEASE NOTE:

Please follow the directions EXACTLY, and $50,000 or more can be yours in 20 to 60 days. This program remains successful because of the honesty and integrity of the participants. Please continue its success by carefully adhering to the instructions. You will now become apart of the Mail Order business. You are in the business of developing Mailing Lists. Many large corporations are happy to pay big bucks for quality lists. However, the money made from the mailing lists is secondary to income which is made from people like you and me asking to be included in that list. Here are the four easy steps to success.

STEP ONE:

Get six separate pieces of paper and write the following on each piece of paper "PLEASE PUT ME ON YOUR MAILING LIST." Now get 6 U.S. $1.00 bills and place ONE inside of EACH of the six pieces of paper so the bill will not be seen through the envelope (to prevent thievery). Next, place one paper in each of the six envelopes and seal them. You now should have six sealed envelopes, each with a piece of paper stating the above phrase, your name and address, and a $1.00 bill. What you are doing is creating a service.

THIS IS ABSOLUTELY LEGAL!!!!!

You are requesting a legitimate service and you are paying for it!! Like most of us I was a little skeptical and little worried about the legal aspects of it all. So I checked it out with the U.S. Post Office (1-800-238-5355) and they confirmed that it is indeed legal!!

Mail the six envelopes to the following addresses:

1) G. Burrows
1/264 Tor St
Toowoomba QLD
4350 Australia

2) J. Safian
6950 W. Forest Presrv. Dr., #115
Norridge, IL 60706-1324

3) R. Ansems
Gen. Foulkesstraat 5
4641 BW Ossendrecht
Netherlands

4) C. Milligan
6597 Herry Rd.
Vernon BC
Canada
V1B3T6

5) Foster
39 Poplar Avenue,
Hollins,
Oldham,
England

6) Jack Burke
220 Kingsbury Drive
Aptos,Ca. 95003-5003
U.S.A.

STEP TWO:Now take the #1 name off the list that you see above, move the other names up (six becomes 5, 5 becomes 4, and etc.) and add YOUR NAME as number 6 on the list.

STEP THREE:
Change anything you need to but try to keep this article as close to original as possible. Now post your amended article to at least 200 news groups. :
(I think there are close to 24,000 groups) All you need is 200, but remember, the more you post, the more money you make!! This is perfectly legal!! If you have any doubts, refer to Title 18 Sec. 1302 & 1341 of the Postal Lottery laws. Keep a copy of these steps for yourself and whenever you need money, you can use it again, and again. PLEASE REMEMBER that this program remains successful because of the

honesty and integrity of the participants and by their carefully adhering to directions. Look at it this way. If you were of integrity, the program will continue and the money that so many others have received will come your way.

NOTE: You may want to retain every name and address sent to you, either on a computer or hard copy and keep the notes people send you. This VERIFIES that you are truly providing a service. (Also, it might be a good idea to wrap the $1 bill in dark paper to reduce the risk of mail theft). So, as each post is downloaded and the directions carefully followed, all members will be reimbursed for their participation as a List Developer with one dollar each. Your name will move up the list geometrically so that when your name reaches the #1 position you will be receiving thousands of dollars in CASH!!! What an opportunity for only $6.00 ($1.00 for each of the first six people listed above) Send it now, add your own name to the list and you're in business!!!

*****DIRECTIONS FOR HOW TO POST TO NEWS GROUPS!!!*****

STEP ONE: You do not need to re-type this entire letter to do your own posting. Simply put your cursor at the beginning of this letter and drag your
cursor to the bottom of this document, and select 'copy' from the edit menu. This
will copy the entire letter into the computer's memory.

STEP TWO:
Open a blank 'notepad' file and place your cursor at the top
of the blank page. From the 'edit' menu select 'paste'. This will paste a copy
of the letter into the notepad so that you will add your name to the list.

STEP THREE:
Save your new notepad file as a text file. If you want to do your posting in different settings, you'll always have this file to go back to.

STEP FOUR:
You can use a program like "postXpert" to post to all the newsgroups at once.
You can find this program at <http://www.download.com>.

Use Netscape or Internet Explorer and try searching for various new groups (on- line forums, message boards, chat sites, discussions.)

STEP FIVE:
Visit message boards and post this article as a new message by highlighting the text of this letter and selecting paste from the edit menu. Fill in the subject, this will be the header that everyone sees as they scroll through the list of postings in a particular group,

click the post message button. You're done.

Congratulations!!!!!!

THAT'S IT!! All you have to do, and It Really works!!!

Best Wishes

MAKE THOUSANDS!!!

I found this on a bulletin board and decided to try it: I don't care
about the useless pre-fabricated crap this message usually says. All I
say is, it works. Continue pre-fab crap.

WELL GUESS WHAT!!!

Within five days, I started getting money in the mail!! I
was shocked!! I figured it would end soon, but the money just kept
coming in. In my first week, I made about $63.00 By the end of the
second week I had
made a total of $1873.00!! In the third week I had made a total of
$9,612.00 and more mail kept coming in!! This is now my fourth week and I
have made a total of $35,165.00 and it's still coming rapidly. It's
certainly worth $6.00 and six stamps, and I have spent more than that
on the lottery without ever winning!!!
My mailman asked me what was with all the mail , and when i showed him this
system he was amazed and got going at it . Everyday he thanks me , it feels
good to know your helping make other pepole have more time and money to do the
things they care about most .(Dont let this pass you buy , it so easy and it
realy does work)
Let me tell you how this works and most important, why it
works..........
also make sure you print this out NOW, so you can get the information
off of it, as you will need it. I promise you that if you follow the
directions exactly that you
will start making more money than you thought possible by doing
something so easy!!

Suggestion: Read this entire message carefully!! (Print it out or
download it)

Follow the simple directions and watch the money come in!! It's easy. It's legal. And, your investment is only $6.00 (Plus postage) !!!

IMPORTANT:

This is not a rip-off, it is decent; it's legal; and it is virtually no risk - it really works!! If all the following instructions are adhered to, you will receive extraordinary dividends.

PLEASE NOTE:

Please follow the directions EXACTLY, and $50,000 or more can be yours in 20 to 60 days. This program remains successful because of the honesty and integrity of the participants. Please continue its success by carefully adhering to the instructions. You will now become apart of the Mail Order business. You are in the business of developing Mailing Lists. Many large corporations are happy to pay big bucks for quality lists. However, the money made from the mailing lists is secondary to income which is made from people like you and me asking to be included in that list. Here are the four easy steps to success.

STEP ONE:

Get six separate pieces of paper and write the following on each piece of paper "PLEASE PUT ME ON YOUR MAILING LIST." Now get 6 U.S. $1.00 bills and place ONE inside of EACH of the six pieces of paper so the bill will not be seen through the envelope (to prevent thievery). Next, place one paper in each of the six envelopes and seal them. You now should have six sealed envelopes, each with a piece of paper stating the above phrase, your name and address, and a $1.00 bill. What you are doing is creating a service.

THIS IS ABSOLUTELY LEGAL!!!!!

You are requesting a legitimate service and you are paying for it!! Like most of us I was a little skeptical and little worried about the legal aspects of it all. So I checked it out with the U.S. Post Office (1-800-238-5355) and they confirmed that it is indeed legal!!

Mail the six envelopes to the following addresses:

1) G. Burrows
1/264 Tor St
Toowoomba QLD

4350 Australia

2) J. Safian
6950 W. Forest Presrv. Dr., #115
Norridge, IL 60706-1324

3) R. Ansems
Gen. Foulkesstraat 5
4641 BW Ossendrecht
Netherlands

4) C. Milligan
6597 Herry Rd.
Vernon BC
Canada
V1B3T6

5) Foster
39 Poplar Avenue,
Hollins,
Oldham,
England

6) Jack Burke
220 Kingsbury Drive
Aptos,Ca. 95003-5003
U.S.A.

STEP TWO:Now take the #1 name off the list that you see above, move the other names up (six becomes 5, 5 becomes 4, and etc.) and add YOUR NAME as number 6 on the list.

STEP THREE:
Change anything you need to but try to keep this article as close to original as possible. Now post your amended article to at least 200 news groups. :
(I think there are close to 24,000 groups) All you need is 200, but remember, the more you post, the more money you make!! This is perfectly legal!! If you have any doubts, refer to Title 18 Sec. 1302 & 1341 of the Postal Lottery laws. Keep a copy of these steps for yourself and whenever you need money, you can use it again, and again. PLEASE REMEMBER that this program remains successful because of the honesty and integrity of the participants and by their carefully adhering to directions. Look at it this way. If you were of integrity, the program will continue and the money that so many others have received will come your way.

NOTE: You may want to retain every name and address sent to you, either on a computer or hard copy and keep the notes people send you.

This VERIFIES that you are truly providing a service. (Also, it might be a good idea to wrap the $1 bill in dark paper to reduce the risk of mail theft). So, as each post is downloaded and the directions carefully followed, all members will be reimbursed for their participation as a List Developer with one dollar each. Your name will move up the list geometrically so that when your name reaches the #1 position you will be receiving thousands of dollars in CASH!!! What an opportunity for only $6.00 ($1.00 for each of the first six people listed above) Send it now, add your own name to the list and you're in business!!!

*****DIRECTIONS FOR HOW TO POST TO NEWS GROUPS!!!*****

STEP ONE: You do not need to re-type this entire letter to do your own posting. Simply put your cursor at the beginning of this letter and drag your
cursor to the bottom of this document, and select 'copy' from the edit menu. This
will copy the entire letter into the computer's memory.

STEP TWO:
Open a blank 'notepad' file and place your cursor at the top
of the blank page. From the 'edit' menu select 'paste'. This will paste a copy
of the letter into the notepad so that you will add your name to the list.

STEP THREE:
Save your new notepad file as a text file. If you want to do your posting in different settings, you'll always have this file to go back to.

STEP FOUR:
You can use a program like "postXpert" to post to all the newsgroups at once.
You can find this program at <http://www.download.com>.

Use Netscape or Internet Explorer and try searching for various new groups (on- line forums, message boards, chat sites, discussions.)

STEP FIVE:
Visit message boards and post this article as a new message by highlighting the text of this letter and selecting paste from the edit menu. Fill in the subject, this will be the header that everyone sees as they scroll through the list of postings in a particular group, click the post message button. You're done.

Congratulations!!!!!!

THAT'S IT!! All you have to do, and It Really works!!!

Best Wishes

For auction is a Realistic TRC-458 base CB. This is a very nice base station with lots of possibilities. It is physically a 7 out of 10. There are two switches on the back, which are broken and need to be replaced, but they are very cheap to replace. This radio was tested for tx/rx and works fine. Also included with the auction is a Turner Plus 3 base mic.

This auction is for a Comet CP-5 3/8 24 trunklip antenna mount. It comes with 16 1/2 feet of coax terminating in a PL-259 connector. It accepts antennas with a 3/8-24 base, such as a CB whip or a ham stick. Please visit http://www.natcommgroup.com/content.php?menu=42&page_id=92 for more details. The mount is in good shape. I don't need it anymore, so I'm getting rid of it.

Anyone know or have any problems buying from Brian Kress of Columbus ,Ohio?His call is KC8RCV.He advertized two Kenwoods dual banders for sale and I sent him a posyal money order for one on 2/25/04 and now called him and was told he was going to resend me and others back their money,as the radios got damaged in a water flood in his basement.He claims that he will send out money orders on Friday.
I just want to know if anyone had any dealings with him bad or good.Is he a man of his word?????
Anything can happen but.........

Here's what I found on the guy with a simple search engine:

http://w3.mivlmd.cablespeed.com/~ke3gk/kc8rcv.html - He ripped off WA2FAA in 2/2003 - MO sent for an FT-8900, radio never sent. He ripped off KD7K in 2/2002 - MO cashed, never sent radio. He ripped off AA9GL 3/2003 - MO sent for TM-261A, radio never sent.

Very glad to see someone taking on these scammers. Did you also talk to the post office? Considering the history on this guy, it looks like cronic fraud going on. I can't believe some law enforcement agencies would let this continue.

Ed

i received this from another newsgroup.......unfortunately the person you mentioned is in here................good luck!
here it is

Rev 5dec 15dec 19dec 10Jan 22Jan 02Feb 13feb*

I have compiled this list of persons that have been mentioned BY OTHERS, on various HAM sites as being not reliable. I have NOT verified these statements, and have NOT dealt with anyone on this list. I do delete entries if there has been an explanation satisfactory to both parties, of if for other reasons I don't think they belong here.

If you are on this list and want to be removed, just have the other party send me a note agreeing to this and I will be happy to remove you and to inform all the people who have requested the list.

Just be warned.

I sent him an email asking if the radio was still available and all he said
is that it's been sold... was curious to see if he would say otherwise..
doesn't mention anything about the radio being damaged and not available

anymore.

I have for sale 2 cables from Buxcomm, never used, still in the original packaging. I bought these for projects that I never did. I have the following cables: (5DI8MX) TNC with 5 pin DIN plug to Icom 8 pin Mic and ext speaker jacks (KVI8MX) Kantronics 9 pin radio port (plug is a 9 pin male serial plug) to Icom 8 pin Mic and ext speaker jacks. Best offer.

I still haven't figured out the concept of how eBay could be 'better'.
Maybe you could explain it to me.

Dick sent a money order to a ham (he knows who the guy is) and got scammed.

Why is sending money to pinkbunnyrabbit669@yahoo.com who is selling stuff on eBay any safer, when you have no clue who the seller is?

It seems to me that by making the seller anonymous, it increases the chances of getting ripped off ten fold.

Because the seller is not anonymous, you can get the full name, address, and phone number of any buyer or seller that you deal with just for the asking. This only applies after the auction has closed.

Also, unlike that fellow ham, ebay auctions do offer both buyer and seller protection, even if it does require jumping through a lot of hoops.. if you have spent less than $500, you will most likely get all, or nearly all, your money back.

You guys all know what can happen with people like this guy Brian.He is going to rip off someone that really don't care and he may be the one that will do like the other guy did to to kid in Fairhaven.He mailed him a mail bomb.These people like Brian Kress don't relize who he can be dealing with.There are a lot of crazy people out there that will hurt or maybe do something worse.Brian Kress will have to wonder now if someone is out there stalking him.I would not want to be in his shoes about now.

Think about it now,you make a complaint to the police,the internet fraud and whomever else to let them try and get this taken care of.Now they tell you we can not do to much at this time so now we take it into our own hands and do something.Now you are the bad guy and the crook is protected Until he goes to jail then he is someones B---- if you know what I mean.So all in all,as far as the police and fraud divisions,you mind as well talk to a brick wall.Like I told the police,grand larceny is grand larceny no matter where or who you are.They put you in jail for jay walking or traffic violations but to hell with the one that steal you blind.

Like I said before,If he does send me my money back,I will appoligize to him.But until then,He has stolen from me and from others that do work hard for their money.

My two cents worth.........

"Dick" <n1rsp@adelphia.net> wrote in message news:F_WdnUExzepho9rdRVn-gw@adelphia.com...

> Anyone know or have any problems buying from Brian Kress of Columbus ,Ohio?His call is KC8RCV.He advertized two Kenwoods dual banders for sale and I sent him a posyal money order for one on 2/25/04 and now called him and was told he was going to resend me and others back their money,as the radios got damaged in a water flood in his basement.He claims that he will send out money orders on Friday.

Young Lady your wrong. I paid ebay safe harbor the extra $20 for them to get my funds referenda and all they are is a negotiating group. They do nothing to get your funds returned. All ebay wants is your listing fees.
They will not remove the seller from their auction program or take any action against them.

Dick, Not all sellers are thieves as you know. In the many years (6) I
have bought and sold on ebay or these groups I have only been scammed
twice. Now that's not bad considering how many scammers are out there.
The large majority of sellers are honest people. I use a credit card, if
scammed I can always have my funds returned. That's my solution to the
scammer problem. Let the credit card company go after them while I get
my money returned.

I know that part is not true. I've seen plenty of Ebayers removed for shady practices.

I didn't use Safe Harbor.  Since I had already gone to the trouble of trying
to communicate with the seller, and been given a royal runaround (including
a cancelled refund of my money through PayPal), I filed a fraud complaint.
They were in the process of refunding me all my money, except their $25 fee
(yes, it's a gimmick), when the seller had a conscience pang and sent me a
money order for the full amount.

Icom AH-20 wideband flexible antenna for receiving only. New in package.

As used on the IC-2sra and IC-4sra handy talkies.

This item is no longer made, or offered from Icom or the dealers. Heres a final chance to get one new in package. $39.95 shipped conus.

Ken, wb9ycj

Greetings,

I am respectfully submitting this information to all Radio and Electronic enthusiasts, collectors, clock makers, tinkerers and dealers in this newsgroup. This may be of interest to anyone looking to obtain Old, B-7971 Burroughs Nixie Tubes.

Available while our supplies last are these Giant, Alphanumeric Burroughs B-7971 Nixie Tubes. These historical tubes of yesteryear were developed in 1952 and used throughout the 1970's as displays for everything from Early Computers, Aerospace, Submarines, and the display of stock prices on the NEW YORK STOCK EXCHANGE.

We pulled them from an old warehouse, Perfectly Preserved and wrapped in paper to protect them from the years of age. Many electronic/electrical tinkerers have been using them for new and interesting projects such as Nixie Tube Clocks.

We ship overseas and also have available the Original Sockets to accompany the tubes, which are necessary in many applications and are as equally Rare and tough to find. Our tubes are in working order and although we do not test them individually, 99% of the tubes sold to date have worked perfectly! All of them are still as we found them wrapped and boxed. NO Complaints with our service or quality to date, and we hope this will be a good resource for those interested in this type of old technology.

Any questions, please
Contact the Webmaster at webmaster@usmintquarters.com and we will be happy to answer them. Thank You.

The link for more information and prices on our tubes:
http://www.usmintquarters.com/nixietubes.htm

The link to our main website is:
http://www.usmintquarters.com/

Thank You.

Up for auction are a number of old ARRL Books about ham and tube
radios. Also up for auction is a Tektronix 321A Portable 6 MHz
Oscilloscope in good working order. Comes with power cord but no
testing leads.
Thanks
David

MUST SELL ASAP - Photo's available at http://www.seanradio.com/ham

NON-SMOKER � NON-ABUSED � EXCELLENT CONDITION - NO DENTS OR SCRATCHES

YAESU FT-840 HF RIG � SSB/AM/CW/FM � TX 1.8 TO 30 MHZ/ RX .1 � 30 MHZ

POWER SUPPLY DAIWA � RS-300 - Full Metering/ 0 - 15 VDC Variable/ 30 Amps Peak

YAESU Features:
Two direct digital synthesizers and rotary encoder
Die-cast RF power amp with thermally switched fan
IF shift, reverse CW, dual VFOs, 100 memories
Direct Digital Synthesis (DDS) for Super Low Noise Receive
IF Shift Control to vary receiver passband
100 Memory Channels (independent TX/RX per memory)
Twin Band Stacking VFO's
Adjustable CW Pitch Control
Bright LCD Display
CW Reverse Feature
Rugged Metal Case 9.5x3.7x7 inches
Built-in CTCSS Encode and 10 meter repeater offset,(FM unit already installed)
100 Watts of TX Power SSB/CW & FM (25 watts AM)
All Mode Squelch
Attenuator, noise blanker, meter, scan modes and speech processor.

+++
DAIWA � RS-300 Features:

This Daiwa RS300 supply is ideal for your main DC power supply. Use this supply to power ham transceivers as well as numerous radio accessory items you have around your shack. Also use this as a high-current variable DC bench supply. Continuously variable DC voltage from 0 to 15 VDC. A front panel meter displays the output voltage or current. Provides an output of 24 Amps continuous 30 Amps peak. This is more than enough for most transceivers plus some accessories. The RS300 Power Supply is an improved version of the popular PS-304 which was favourably reviewed by Lew McCoy (CQ Nov '92).
+++

This Radio & Power Supply has been pampered for years. It includes the standard Yaesu microphone MH-31B8, 2 DC power cords (one for the home and one for the car).

Asking price for the Radio & Power Supply $800 or best offer. Will also include a 3/8 x 24 Tri Magnet Mount & 80M,20M & 40M Ham Sticks.

** I'm located in Ottawa, Ontario Canada & I'm willing to deliver the product in person to ensure of its safe arrival. Max ~500 Mile Radius from Ottawa Ontario Canada. **

Photo's available at http://www.seanradio.com/ham

Lots of paint on it but in nice condition. Very heavy.
Pictures available. 19" wide x 10 1/2" hi x 14 1/2" deep
Sell for $60.00 plus shipping or a boatanchor trade.

Fits BC-779 (SP-210LX)
Thanks

For auction is a Yaesu FT-3000 2m mobile radio. This radio transmits on the 2m amateur band and has extended receive on 110-180 / 300-520 / 800-999 MHz (cell blocked).

I bought this radio for use in my work vehicle, but no longer need it. A nice feature of this radio is the ability to use memory banks. When I used this radio, I had all the public safety frequencies in one bank and the 2m frequencies in another. I was able to set the radio up so that it would scan only the public safety frequencies when I was working, plus I set it so the only buttons that would work is on/off, volume/squelch, manual channel selector. This prevented accidental changing of things such as PL tones, offset, etc.. and prevented other people using my vehicle from changing any settings. To access the setup, it was a simple procedure of hitting a few keys. When I wanted to use a 2m frequency, I just hit a couple buttons and I had access to the 2m bank. Of course, you don't have to set up the radio like that if it's being used in your own car or at home, but since I share my work vehicle with other employees, this was a nice feature for me.

Included with the radio is the handheld DTMF microphone, heavy duty power cord, mounting bracket, associated mounting hardware, original box, manual and assorted paperwork. The radio is in good condition and works perfectly.

After 17 reviews, this radio received a 4.5 out of 5 rating on eham.net http://www.eham.net/reviews/detail/609

Please visit http://www.rigpix.com/yaesu/ft3000.htm for complete specifications on this radio.

I have for sale a brand new Seiko desk top world clock. This is model QXG325BL. This clock was given to me as a gift and I have absolutely no place in the shack for it. The particulars are as follows:

- Solid wood case in mahogany piano (hi-gloss) finish
- World time dial with 25 time zones
- Sweep second hand has an airplane that sweeps over the world globe.

* Brass plaque suitable for engraving included
* 6 7/8" by 7" by 4" high
* Takes one AA battery and a fresh one is included.

This clock has never been removed from its box and is as it came from the factory. I am asking $55.00 shipped CONUS. You will not be dissapointed.

Why is it not OK to freeband on unused parts
of 11 and 10 meters?

Organized, long term freebanders are very aware
where they operate and take great measure to
ensure against talking on an amateur frequency
or one that isn't heavily used on the freeband.
If the non-U.S. stations can operate ssb there,
why shouldn't I, especially if I want to have a nice
DX contact with one of them?

Many of us LIKE the law as it is, it keeps "yes men"
off the freqs. Same analogy as the gun issue...
when guns are outlawed only outlaws will have
guns...no, you won't find many freebanders lobbying

for change to open the freqs because the law as
it reads, doesn't bug us.

No rationalization is even needed except to reply to
folks that repeatedly ask over and over, "Why?" It is
these folks that feel they need a reason why we do
what we do, not us.

You should. You're special. You should do anything you like because
you are better than everyone else. Because you are better than
everyone else, you should enjoy priveleges that no one else has.
Speed on the highway and cut-in at the exits. Help yourself to free
cable television. Commit insurance fraud. Do some insider trading,
and kidnap someone. Run for office.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3079706437

For auction is a Yaesu FT-3000 2m mobile radio. This radio transmits on the 2m amateur band and has extended receive on 110-180 / 300-520 / 800-999 MHz (cell blocked).

I bought this radio for use in my work vehicle, but no longer need it. A nice feature of this radio is the ability to use memory banks. When I used this radio, I had all the public safety frequencies in one bank and the 2m frequencies in another. I was able to set the radio up so that it would scan only the public safety frequencies when I was working, plus I set it so the only buttons that would work is on/off, volume/squelch, manual channel selector. This prevented accidental changing of things such as PL tones, offset, etc.. and prevented other people using my vehicle from changing any settings. To access the setup, it was a simple procedure of hitting a few keys. When I wanted to use a 2m frequency, I just hit a couple buttons and I had access to the 2m bank. Of course, you don't have to set up the radio like that if it's being used in your own car or at home, but since I share my work vehicle with other employees, this was a nice feature for me.

Included with the radio is the handheld DTMF microphone, heavy duty power cord, mounting bracket, associated mounting hardware, original box, manual and assorted paperwork. The radio is in good condition and works perfectly.

After 17 reviews, this radio received a 4.5 out of 5 rating on eham.net
http://www.eham.net/reviews/detail/609

Please visit http://www.rigpix.com/yaesu/ft3000.htm for complete specifications on this radio.

Thanks for reading my message. I have a good condition, everything works fine, Alinco DR-110T 2 meter Mobile (been using as base). Condition cosmetic I would rate it a 9.5. As I said I have talked on rig, received good reports. Mic however I don't care for, it works fine, however I don't like the way it keys the rig - again, the MIC WORKS, I just don't like it - mic does have keypad.

$135.00 Shipped CONUS

Email directly please db1@dbgeneralstore.com

For auction is a Yaesu FT-3000 2m mobile radio. This radio transmits on the 2m amateur band and has extended receive on 110-180 / 300-520 / 800-999 MHz (cell blocked).

I bought this radio for use in my work vehicle, but no longer need it. A nice feature of this radio is the ability to use memory banks. When I used this radio, I had all the public safety frequencies in one bank and the 2m frequencies in another. I was able to set the radio up so that it would scan only the public safety frequencies when I was working, plus I set it so the only buttons that would work is on/off, volume/squelch, manual channel selector. This prevented accidental changing of things such as PL tones, offset, etc.. and prevented other people using my vehicle from changing any settings. To access the setup, it was a simple procedure of hitting a few keys. When I wanted to use a 2m frequency, I just hit a couple buttons and I had access to the 2m bank. Of course, you don't have to set up the radio like that if it's being used in your own car or at home, but since I share my work vehicle with other employees, this was a nice feature for me.

Included with the radio is the handheld DTMF microphone, heavy duty power cord, mounting bracket, associated mounting hardware, original box, manual and assorted paperwork. The radio is in good condition and works perfectly.

After 17 reviews, this radio received a 4.5 out of 5 rating on eham.net
http://www.eham.net/reviews/detail/609

Please visit http://www.rigpix.com/yaesu/ft3000.htm for complete specifications on this radio.

That's enough reason NOT to mess with 10 Meters. LOL!

They got another company up in Maine AND wrote a letter to FedEx as well.

I know it's a troll, but it is still a good answer. <<snicker>>

J

Mr. Carl Leonard Ross
CLR Transport
1310 Ozone Drive
Saluda, NC 28773

SUBJECT: Warning Notice--Unlicensed Radio Operation

Dear Mr. Ross:

Information before the Commission indicates that your vehicle, US DOT # 11131374, bearing NC license LP-2598, on Interstate 85 between Gastonia and Kings Mountain, NC, was the source of unlicensed radio transmissions on the Ten Meter Amateur Radio band on July 14, 2003.

Please be advised that operation of radio transmitting equipment without a license is a violation of Section 301 of the Communications Act of 1934, as amended, 47 U.S.C. Section 301, and will subject the operator to fine or imprisonment, as well as an in rem seizure of any non-certified radio transmitting equipment, in cooperation with the United States Attorney for your jurisdiction. Monetary forfeitures normally range from $7,500 to $10,000.

You are requested to contact me at 717-338-2502 to discuss this matter.

```

Small chip out of the top of the bezel (paint). Has had the SO-239 replaced with an N-Connector. Very good performing radio, though sometimes you do have to use the attenuator on AMBCB.

Product details can be found at:

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3079706437

For auction is a Yaesu FT-3000 2m mobile radio. This radio transmits on the 2m amateur band and has extended receive on 110-180 / 300-520 / 800-999 MHz (cell blocked).

I bought this radio for use in my work vehicle, but no longer need it. A nice feature of this radio is the ability to use memory banks. When I used this radio, I had all the public safety frequencies in one bank and the 2m frequencies in another. I was able to set the radio up so that it would scan only the public safety frequencies when I was working, plus I set it so the only buttons that would work is on/off, volume/squelch, manual channel selector. This prevented accidental changing of things such as PL tones, offset, etc.. and prevented other people using my vehicle from changing any settings. To access the setup, it was a simple procedure of hitting a few keys. When I wanted to use a 2m frequency, I just hit a couple buttons and I had access to the 2m bank. Of course, you don't have to set up the radio like that if it's being used in your own car or at home, but since I share my work vehicle with other employees, this was a nice feature for me.

Included with the radio is the handheld DTMF microphone, heavy duty power cord, mounting bracket, associated mounting hardware, original box, manual and assorted paperwork. The radio is in good condition and works perfectly.

After 17 reviews, this radio received a 4.5 out of 5 rating on eham.net
http://www.eham.net/reviews/detail/609

Please visit http://www.rigpix.com/yaesu/ft3000.htm for complete specifications on this radio.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3079706437

For auction is a Yaesu FT-3000 2m mobile radio. This radio transmits on the 2m amateur band and has extended receive on 110-180 / 300-520 / 800-999 MHz (cell blocked).

I bought this radio for use in my work vehicle, but no longer need it. A nice feature of this radio is the ability to use memory banks. When I used this radio, I had all the public safety frequencies in one bank and the 2m frequencies in another. I was able to set the radio up so that it would scan only the public safety frequencies when I was working, plus I set it so the only buttons that would work is on/off, volume/squelch, manual channel selector. This prevented accidental changing of things such as PL tones, offset, etc.. and prevented other people using my vehicle from changing any settings. To access the setup, it was a simple procedure of hitting a few keys. When I wanted to use a 2m frequency, I just hit a couple buttons and I had access to the 2m bank. Of course, you don't have to set up the radio like that if it's being used in your own car or at home, but since I share my work vehicle with other employees, this was a nice feature for me.

Included with the radio is the handheld DTMF microphone, heavy duty power cord, mounting bracket, associated mounting hardware, original box, manual and assorted paperwork. The radio is in good condition and works perfectly.

After 17 reviews, this radio received a 4.5 out of 5 rating on eham.net
http://www.eham.net/reviews/detail/609

Please visit http://www.rigpix.com/yaesu/ft3000.htm for complete specifications on this radio.

I have the following and love a good trade.

* Icom IC-2000 2M mobile transceiver w/bracket
* Icom IC-V8000 2M mobile transceiver with control mic and bracket
* MFJ-949E VersaTuner II Antenna Tuner
* MFJ-962E VersaTuner III Antenna Tuner
* HTX-420 Dual-band Handheld with Charger
* Hustler Mobile HF Antenna
     Complete w/ Foldover & Shorty masts and Heavy Duty Spring
     Coils for 75, 40, 30, 20, 15 and 10 meters
* Diamond Model HV-7A HF/VHF/UHF Antenna (UHF mount)
     Covers 2M, 70cm, 6M, 10M and 20M
* Larsen Model PO-2/70 2M/70cm Mobile Antenna (UHF mount)
* Diawa MOdel DAX-3000 High Gain 2M/70cm Mobile Antenna (UHF mount)
* Icom MOdel AH-32 2M/70cm Mobilie Antenna (Uhf mount)
* Hamsticks for 75, 40, 20 and 15 meters
* Palomar Antenna Noise Bridge
* Autek Model RF-1 RF Antenns Analyzer
* Downeast Microwave MOdel DEM 50-28 6 meter Receiving Converter

I will not sell these items. What do you have to trade?

Hell, who follows the radio group charters anyway? Paul Schleck has let
all these groups fall apart.

Paul Schleck doesn't manage rec.radio.broadcasting, and I don't know much
about him except that he's e-mailed me a couple times about xposting between
rrb and rec.radio.info.

I moderate rrb, and while (like the original moderator) I try to be liberal
in what I accept, there are certain basic guidelines that you must follow or
I won't post your stuff.

For Sale: Ameritron AL-811.  EXCELLENT condition and seldom used.
Stock.(No ten meter modification)  No trades.  Selling cuz I've gotten
interested in vhf/uhf weak signal operation.  I'd include a photo, but
it looks just the one you've got in your AES catalog.  No dents, no
scratches, and I'm a non-smoker.  Manual, and I'm almost 99% sure I've
got the original box in the garage.
$450 double boxed, shipped and insured. First e-mail gets it.

MaxTrac Mobile Radio (Model:)D44MJA7JA5AK . Description: UHF, 32 Channels, 45 watts 449-470 Freq range . 5 button front with display 16 pin acc plug . Scan plus many more features.These are really nice radio's that are perfect for people that are on the road a lot, as in the Deliveries of goods & services, Utilities, etc. .

Radio w/Microphone only Prices:
1 @ $135.00 plus shipping
5 @ $110.00 plus shipping
10 @ $100.00 plus shipping

Radio w/Microphone, Plug and Bracket Prices:
1 @ $175.00 plus shipping
5 @ $150.00 each plus shipping
10 @ $135.00 each plus shipping

If you need a larger quantity, please email me & I will work out a price for you. You can also email your phone number if you would like for me to call you.

I accept Cashier's Checks, Postal Money Orders and PayPal.

These are really nice radios. I also sell them on eBay (for more $) and have had a lot of positive feedback on these radios (my name is "searchking"). A lot of the radios have a decal on them that lists the channels & identification. The decals come off easily (I use WD40). I just do not have the time to clean the radios , so that's why I offering them at these low prices.

Thank You for your time and I look forward to doing business with you!
John 904-631-1809 ucon@bellsouth.net For more info..

Hi,
Our local CB/Radio shop recently went out of business. There were several items they had which I wanted but I could only buy them in large 'wholesale' lots. So to get what I wanted I had to buy some items which I really didn't need. So I'm selling off the items I don't want.

The items listed below are all brand new, in original boxes. Included will be a receipt so you get the full factory warranty. All prices include shipping.

Take a look and if you have questions please email me at
scannerhead2002@yahoo.com

-- Scanners --
Uniden BC780 XLT -- $200.00
Uniden BC785 XLT -- $200.00
Uniden BC250D   -- $150.00
Digital Card   -- $150.00

Uniden BC296D Digital -- $375.00
Uniden BC796D Digital -- $375.00

-- Ham HF and VHF Rigs --

Alinco DR620T 2m/70cm Dual Band Mobile -- $225.00
Icom 2720H 2m/70cm Dual Band Mobile -- $225.00
Yeasu FT840 HF Base -- $425.00
Kenwood TS-50S HF Mobile -- $475.00

-- CB Radios --
Galaxy DX 2547 40 Channel CB Base -- $200.00
TEXAS RANGER 696F 40 Channel CB Base -- $200.00
COBRA 148NW-ST NIGHT WATCH AM/SSB -- $100.00 (I have several)
Galaxy DX959 11 Meter Mobile W/FreqCounter -- $100.00 (I have several)
Uniden President Grant LT -- $100.00
RANGER TR-296 Gold Faced AM/SSB Mobile -- $100.00

-- CB Amps --
BOOMER 300 Base Amplifier 300 Watts -- $200.00
(for more info: http://www.copper.com/cgi-bin/checkitout/checkitout.cgi?catalogSTORE:CKIE:prodW90-BOOMER300+)
KLV-550 Base Amplifier 550 Watts -- $230.00
(for more info: http://www.copper.com/cgi-bin/checkitout/checkitout.cgi?catalogSTORE:CKIE:prodW90-KLV550+)

Again all equipment is brand new in original boxes.
Thanks for looking
George

The subject line pretty much says it.

Need HP/Agilent 346A or 346B noise source with BNC connector
on bias end and N connector on output end.

Must be in good condition and fully functional - no burn-outs, please.

If you have one/know where I can find a reasonable deal on one,
please contact me by direct e-mail at wk3c@wk3c.com please.
(note, the e-mail address in the line above is on a different machine
than I use for usenet, please reply there for prompt attention)

73,
Carl - wk3c

Dan,

Your test set could be worth maybe up to $50 to the right person, but the rest of the parts are frequently seen in junk piles at hamfests - probably worth in the range of $1 - $20, if you can find someone who would take them all.

Also, are you sure that those are tubes in those boxes? They look like coils and controls to me, from your photo...

Am I missing something - what would make this worth $500? I'd say if you get a serious offer over $20 for the whole lot, go for it!

Good luck!

73, Leo

For Sale: EXCELLENT condition Yaesu FT-847 "Earth Station".  Stock
microphone, instructions, original box. This rig covers 160 up to 70
cm!  All mode.  DSP.  FANTASTIC receiver. Have had it about two years.
 But I'm going to an all VHF mode rig, and need to sell.  I've seen
prices ranging from $750 to $1000 for these.  I'll meet you in-between
at $895 and I'll pay for the shipping, double boxing and insurance. I
can take "plastic" through my ham/swl business account, if you prefer.
First e-mail gets it!

Got an older notebook computer with no CD R/W drive that you use for
packet, portable operation, etc.???

Tired of backing up to floppies? (do you even back it up?)

Here's an ideal solution - a parallel port tape drive that works PERFECTLY,
has been tested, and has had very little use.

Automatically recognized by Windows 98 and works with Windows' built-in
backup utility.

see the URL below ...

73,
Carl - wk3c

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=2782623707

Item has a $10 minimum bid - INCLUDING 10 (ten) freshly formatted
and verified tapes!

Excellent working condition radio. Runs on 12 Volts power. Covers from
below AM broadcast band to 30 MHz. AM FM SSB CW RTTY. Has CW filter and
voice synthesizer. Passband tuning, 32 memories, lots of other great
features. Full 100 Watts out, including 60 meters. Definitely a first rate
rig that is good enough for an advanced operator, but still very user

friendly. Has VOX on CW and 'phone. Frequency calibrator. Preamplifier on receive.

I don't have original box or microphone but can supply a hand microphone that works (except no UP/DOWN buttons). Recently replaced lithium memory battery. Have manual.

Asking $350 plus shipping from Los Angeles.

73, Bob K6DDX

I love fixing stuff. Am seeking radios or other gear to repair or to help repair other radios.

Let me know what you have, what's wrong with it, and how much you'd like to get for it.

This is not a profit making venture; it's just a facet of the hobby that I enjoy.

73, Bob K6DDX

I'm in the market for a HM 98S microphone, thought I'd try the used market
first.

My original was stolen out of the console of the car (they busted the $300
right door window) along with some Wuthers candies, the cup holder insert
and parking meter change. They scattered papers and napkins out of the
console all over the floor and that was probably why the little buggers
didn't see the IC-2100 under the seat.

Bob,
Take a trip to some of your local repair shops......
I know that at my shop that about once a month or two that I am filling up a pick up truck full of old and newer VCRs, DVDs, televisions, stereo equipment, CD players, CB radios, etc.and taking it all to the dump...... otherwise I wouldn't be able to walk around inside the shop.
I am in the Seattle area so it would not be worth the shipping costs.

whell here is my two and a half cents worth.

i am just a newbe (less than one mo).
i do not know code at all, but i am working on it,
i would rather not have to know it as too much to do these
days to keep on and trying to studying so i can work it at a
good rate, it is hade to find time some weeks.
but do not want to see it go away as it looks like a decent way
to yak to someone else.

but do not realy see a need for knowing code just to use parts
of the radio waves.

when i go for my general i plan to know some code, but not sure
if i will have a need for said.

Thats very well put. If I have to take a code test, then why dont the
Business Band, Radio Stations and all other commercial licensees?
Im not going to do code, so therefore I shouldnt be required to take
it to talk via phone.

Business Band operators don't have to take any test. Just pay money for a license to operate on a fixed frequency with a limited use FCC certified radio. So different from Ham radio I don't see how anyone can even compare the two services.

You're in Seattle too? I might be willing to take a load of some fixable stuff at some point, however I have the same problem at home. Hate to throw anything away, but don't have space/time to fix everything.

And to leave it to repair it with another set, mostly it's always the same piece which is stuck.
So also here in The Netherlands, put it in the car and bring it to a guy who always says, the people throw the money on the street, see what beatuful expensive part are inside, I can use it later, even his house can't collapse due to his "stock" hihihi.

Greetings Peter

J. Yazel:
This is not a phenomena unique to Seattle...... all repair shops everywhere have to deal with disposing of un-repaired and unclaimed electronics equipment. Most shops can only keep a limited amount of "bone yard" equipment to cannibalize...
.... and furthermore, it takes too much expensive labor time to search through old equipment for used and questionable quality parts when a brand new, unstressed part may be in stock or readily available..... Where ever you are, check with your local repair shops, the smaller independents may be easier to deal with.... most will gladly "donate" the scraps to you so they won't have to spend money to haul them to the dump.

I'm not looking for basket case units that are only for salvaging generic parts. I want units that have a chance of being made operational but repair shops want too much to fix them.

I'm not looking for computer monitors; my interest is in transceivers and other ham gear.

You never know, I have gotten a few rigs this way myself and the most
expensive was a Kenwood TS840 that was only brought in for lighting

Just call around to shops or put an ad in the local classifieds, ham gear
will be a lot harder to come by than other consumer electronics because most
hams are fairly technically knolegeable people but you never know.

For sale: Yaese all mode 6 meter rig. This radio is in excellent condition and works great. Comes with 10W attached amplifier and original microphone. this radio always gets great signal reports and punches through even stronger radios in my neighborhood.

I don't smoke, and the radio has never left my shack. Very clean. I no longer have the original box or manual. It also no longer have the mobile mount as I never used it mobile.

email for price discussion. Will entertain any reasonable offer.
Email to Ormsby@moraine.cc.il.us if interested.

First of all, welcome to ham radio! Always nice to have
new folks join the ranks.

I understand your point of view about morse code. It can
certainly be viewed as out of date and unnecessary. I'm
an olde fart that remembers travelling to the FCC office
to take my test. Personally, I'd hate to see the code requirement
go away becuase it was a lot of fun. Certainly a challenge, but
once mastered (even at 5 WPM), it opened up an
entirely new (to me) way to communicate. Folks that
don't learn it are missing out.

Steve W6SSP

> First of all, welcome to ham radio! Always nice to have
> new folks join the ranks.

Thanks for the nice welcome. I do appreciate beeing a ham since the early 70s. Starting within the United Nation Forces in Cyprus and operating the SW-Home Link Station from Larnaca, 5B4ACU was my callsign, it was a real great thing to be able to operate a full Collins S-line also on ham bands. Antenna was a Rhombic with 240 feet each side, directed towards Austria. Back in Austria, I had to pass the exam to get OE8SOQ. Thats for the history so far.

>
> I understand your point of view about morse code. It can

like driving heritage cars and flying oldtimer aircrafts

> and unnecessary.

Is a hobby really necessary?

> I'm an olde fart that remembers travelling to the FCC office
> to take my test. Personally, I'd hate to see the code requirement
> go away becuase it was a lot of fun.

Steve, nowhere in the ITU recomendation is stated, that there must not be any more CW operation on the bands.

> Certainly a challenge, but
> once mastered (even at 5 WPM), it opened up an
> entirely new (to me) way to communicate.

You will still be alowed to stay to your favorite mode, and there will be zillion of hams out there on the all bands, not only HF, who will share their love for this tremendouos skill.

> Folks that don't learn it are missing out.

Unfortunately, I've lost a part of my hearing abilities, so for me it is impossible to do Morse code any more, but i loved it, while I could do it.

Best regards and 73 de OE8SOQ
Helmut

With modern radios you should be able to adjust it so you can still do
Morse. It really ought to be clearer than speech. Or has your hearing bad
enough that now you stick to digital?

Helmut,  have you tried a transducer put on the side of the head?  The
vibrations may do the trick.  Or a LED device to do it visually?  Or putting
your fingers on a transducer or the speaker perhaps?

Just a few thoughts.

Dan/W4NTI

Hi,
Why not? You can use light. Make a flashing light from audio code
signal. Being deaf is not an excuse if you really want to do it.

Here's just the ticket for creating/maintaining your website.

This includes BOTH FP98 and FP2000 with manuals and product keys for both.

I have deleted both versions from my computer, so transfer is legit.

(Because of some organizational websites I maintain, I had to convert to a software package that sells for over $600, so I have no use for FrontPage any more ...)

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3658669564

I am also selling a bunch of NEW V.90 modem cards, some Ethernet NIC cards (I went wireless), two flatbed color scanners, a sheetfeed scanner (nice and compact), a ZIP drive, and a tape drive. Click on "see seller's other items" to see it all.

73,
Carl - wk3c

Rather than list them all, here's a URL to one item I'm selling.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3457456588

To see the whole list, click on "View Seller's other Items" on the right
side of the page.

Most items are "no reserve" - I don't need them and am willing to sell
at very reasonable prices to someone who can use them, just to free
up space.

73,
Carl - wk3c

For sale: Yaesu FT-3000 radio with box, manual, mounting bracket, power cord, mic, etc. In good condition. $200 shipped in the lower 48.

No pictures right now, but I can get them in a few days.

Do a search on the net and you'll find out everything you need to know. If not sold, it's going on Ebay.

I have for sale or trade a Kenwood TM-V7 dual bander (2 meters and 440) with 3 meter remote kit. I bought this radio new from AES about 3 years ago. It was in my car for about 2 years, but rarely used. There is one small scratch on the faceplate, otherwise it's in excellent condition. I'd like $295 or would swap the Kenwood plus cash toward a Swan 700cx, Swan 600T/600R, Swan Mark II, or Heathkit SB-220/221/2200. Includes original manual, cables, box, packing materials, and a tnc cable that was never used.

Thanks,
Jeff N0WJP

FRS Radios System consisting of: Two Standard Radio (now Yaesu Radio) Mod.# HX625A FRS Walkie Talkies (used in excellent cond.), One Standard Radio CMP625 Lapel-style Speaker/Microphone (new in package), Two Sanyo Leather Radio Cases (new opened 1 for photos only), Two belt clips for the radios, One radio owner's manual. ... If your looking for high quality FRS radios that were designed and manufactured my a real two-way radio company, these are it! ... I bought these several years ago, but only used them a couple of times. ... They have good range (full power 1/2 watt with 14 ch. & 38 sub-codes), Are water resistant, Have clear and strong audio, Have tons of features, and are in safety (hi-viz) yellow. ... The lapel-style speaker/mic looks like one of those mics that the police use. Allows you to keep the radio on your belt while talking and monitoring. ... Each radio uses 3 AA batteries (Alkaline or Rechargeable). ... FREE SHIPPING (cont. US) ... NO RESERVE

I've got a Yaseu 757GX service manual for sale on Ebay.

This is an actual original printed manual - very good condition with
schematics & board layouts and alignment instructions.

http://cgi.ebay.com/ws/eBayISAPI.dll?ViewItem&item=3077577707&category=15050

If that doesn't work, just do a search for item # 3077577707

This is a fine example of the early model made by Heath in 1948 and RARE!
Offered with the original assembly and operation manual!

Nobody said Morse code wasn't useful - it's a fine recreational activity. However, when it comes to a licensing requirement, the sole issue is whether Morse code serves a regulatory purpose. As the FCC said, it doesn't today.

> The opinion of the FCC about cw is not
> relevant.   (snip)

Really? Since they regulate this radio service (including the licensing requirements), I somehow suspect the FCC would strongly disagree.

You panty waist crybabys knew there was code in Ham Radio But was to lazy to learn it.
It would have show the world you at least knew something other then crying.
But some of you were in the Boy Scouts and learned then What happened did you brain die?
Code will pass so you can say I'm a ham Wow be proud hold your head high.
Now we can attack something else or someone................Seig Heil

Too bad. Your attitude will cause the US to slip one more notch down on the
world stage. While the rest of the world gains from expanded comm. You and
your buds will keep US citizens from same. Bravo for you. You are a curse on
amateur radio, that won't go away soon enough. Sorta like a cancer that will
not die till the host dies.

Cancer? boy you really show your ignorance. Without old timers you would
all be running AM with beep boxes and yelling ten four all over 20 meters.

We are the ones that keep trash like you out of the service. And will
continue to do so.

Dan/W4NTI

I have for sale a brand new Icom MB-85 mounting bracket. This bracket is an optional accessory for the Icom IC-2720 mobile dual band radio. This bracket attaches the radios control head to the main unit. This has never been used and is in its sealed box. I am asking $18.00 shipped CONUS.

BS, Wayne. In case you haven't noticed, Morse code hasn't been a requirement to get a Ham license (the Technician license) for many years. And, during that time period, there hasn't been, based on FCC enforcement reports, any significant increase in "CB-like" behavior on the frequencies used by those Technician license holders. In other words, the "CB" threat just isn't supported by the facts.

Keep it up, Dan. Attitudes like this will certainly increase the numbers of those opposed to your way of thinking. The rhetoric from you and Bruce only makes my goal of ending code testing that much easier.

Tho' I tend to agree that the minimal 5 wpm code requirement should be kept(What can I say, I'm tradition bound), a couple of the guys in this thread on that same side of the argument are sounding more like the '50s CB "Channelmasters" than the kind of Hams I tend to respect. You have, at least, kept a nominally polite attitude in your responses. It will be interesting to see what those with the final say on licensing will finally decide, won't it?

Hey, I love traditions also (perhaps more so now that I'm getting older). But, I also realise tradition has to bow to the realities at some point. I simply cannot see code testing being a requirement for Ham radio for the next several hundred years. In other words, it has to end at some point. Since no communications system has been designed in many years that depends on code skills, perhaps now is that point.

> (snip) a couple of the guys in this

Noise and static, Harold. Clearly, some have decided that if code testing dies, Amateur radio should die with it. Some have even said so. In that vein of thinking, they have taken a very destructive approach to the whole issue. However, Ham radio is obviously not going down that easily and we all have to go on together regardless of the outcome of this debate. Therefore, I think it is wise to keep the debate civil.

> You have, at least, kept a nominally

Since the ITU has now ended the international requirement for Morse code on HF, I think it is inevitable that code testing will eventually end. The question now is when and how that will happen. At this point, we can only guess.

I have new old stock NE-51 neon shorts bulbs from 1964 available.

these are the shorts bulbs used on TV-2 series military tube testers and are also the pilot lamp on the TV-2

they are also the shorts bulb on Hickok 539C and 533A as well as some Hickok 539B's and some Hickok 533's and the equivalent Western Electric and RD Instruments testers.

the NOS NE-51's are 2 for $6 - free shipping

also have a few NOS NE-45 from 1966 for $11 each for TV-7, TV-3, and TV-10 and many Hickok models.

I also stock #81, #47, #49, #12, #44, #51 #46 etc. new old stock

write me at cacheoverflow@yahoo.com

cheers!

cowboy bill

Roland . . .

While my background is a whole lot less impressive, I do remember the 50's.

But, I never saw any fun in; hitchhiking 30 miles to the Customs House in Boston, filling out an application, walking around looking for a free Notary Public (I had no money when I was 16), and back again to wait my turn to take the test. With another trip to Boston to drop the N from my call! . . . I like the way it's done now.

My mode of choice became CW and as I increased my speed, could not afford a bug, so I made (and still use) a cootie key.

I do not want to see a no-code ham radio! For one reason, I fear that the CW bands will be changed or disappear altogether. I would like to see more CW users, and the only way for that to happen is with a code test. Some of those who learn code will find out how much fun it is.

What I find offensive, is the idea that the young people will bully their way into changing a old tradition to suit their "I deserve everything I want at no cost to me" lives. If CW were really dead, I would re-think my opinion.

5 wpm is very very easy!

Ron Crowley, retired tile artisan
W1WBV (the call issued to me in 1952 was WN1WBV)

This radio is used, but in excellent condition. Asking price is 150.00USD.
If anyone is interested, please feel free to either respond to this message,
or e-mail me at bearhunter@dcwin.org
Below are in-depth details.

IC-V8000 2M Mobile, power when you need it!
75 Watts of output power! With Icom's new IC-V8000 you can reach that
mountain top, punch through that urban canyon - talk and be heard further!
The combination of the V8000's one-piece, die-cast aluminum chassis and 75W
of transmit power gives you the most powerful 2M mobile in its class. but

that's not all. We've added features like: Weather alert and Weather Channel Scan (first time in amateur radio); 207 Alphanumeric Memory Channels; Remote Control Mic; Icom's exclusive DMS Scan System (see below); and much more. Pick up a 'V8000 and let your signal be heard! IC-V8000 Features:

a.. 75 Watts output power
b.. RX: 136 - 174 MHz
c.. Wide/narrow operation
d.. Front firing speaker
e.. Cooling fan
f.. Dual color display
g.. Auto repeater offset
h.. CTCSS Encode
i.. CTCSS Decode
j.. CTCSS Tone scan
k.. DCS Encode
l.. DCS Decode
m.. DCS Code scan
n.. DTMF Encode
o.. DTMF Decode (optional)
p.. DTMF Code squelch
q.. Dynamic Memory Scan
r.. Weather channels
s.. Weather alert
t.. Weather scan
u.. 207 Memory channels (3 scan edges)
v.. Call channel
w.. 6 Character alphanumeric display
x.. PC programmable
y.. Radio - radio cloning
z.. Programmable keys
aa.. RF Attenuator
ab.. Channelized operation
ac.. Alpha only operation

Terry,

I did some research and I came up with some of the names he has used in the past. You can Google for any of them to find out more about his multiple personalities. This man may be capable of what you claim. He's armed and claims he has been busted for violent crimes including robbery. If I were you I'd contact the authorities and let them deal with it.

kewl thread...my 2 cents

extra strings
towel
string winder
9v batteries
extra cables
Boss tuner
spearmint gum
Leatherman tool (pliers, wire cutters)
BC Powder (YES!)
duct tape
ear plugs
flashlight (mini-maglite)
utility knife/lockblade
set list
digital camera
water bottle/holster
strap locks
extra strap

pony tail holders
Beretta Compact 9mm Model L semi-automatic pistol (depends what part of town
I am in:)
extra mag of ammo

....
....

Admits he shot a man in Louisiana, shot dope and robbed banks in the eighties.

one thing about the john lee walker band, those guys were true outlaws in the real world. one of those guys was featured in the skynyrd book "an oral history" jhis name was john haury. he was friends with ronnie and the band and they tore up a few bars together. I think he was even busted for shooting a man somewhere in Louisiana and robbing banks in the eighties. they were all pretty hardcore dopers and needle freaks but man could they jam. anybody know what ever happened to them? I saw them once with skynyrd in west va in 76 and they were awesome but very young and inexperienced, i've always wonmdered what became of them. heroin destroiyed a damn good band!!!!

From: "radiobuff0@mailcity.moc" <JJ>
Subject: Gay Pride Picnic 2003 Recap
Newsgroups: rec.radio.shortwave,rec.radio.scanner,rec.radio.amateur.misc

About 270 people, an all time record, came together to celebrate the 11th annual Pride Erie Picnic at Presque Isle, Beach 11 on June 14, 2003. Once again, we had hot dogs and hamburgers and folks brought a yummy assortment of dishes. There were about 225 people at last year's picnic, which was the previous record amount for attendance.

Another UNA (Urban Nigger Ape) proves why some are that. Baboons with clothes.

JACKSONVILLE, Florida (AP) -- A 2-year-old left alone for nearly three weeks while her mother was behind bars survived by eating mustard, ketchup, rice and raw pasta, police said.

The toddler was watching cartoons when found by her father, police said Monday. She was suffering from malnutrition and was being treated at Wolfson Children's Hospital, police said.

Dakeysha Lee, 22, was charged Monday with child abuse because she didn't let anyone know that her daughter was alone in her apartment, police said. She was jailed Sept. 10 on unrelated charges.

Hey people, found this newsgroup because I wanted to post and get some opinions.

A guy I know used to play and tour with a neo-famous southern rock and roll band in the 70s & early 80s, traveled with folks like Lynyrd Skynyrd, Charlie Daniels, Marshall Tucker, etc, and he lived on the fast lane for a few years, did it all, became a junkie, cleaned up (several times) and did the 12-step thang, all that - and when the southern rock scene fizzled in the early 80s this boy had to clean up his act and get a real job. Welcome to Corporate America.

Well, as a result of his dangerous habits, he has since developed diabetes (Type II) and was diagnosed with neuropathic damage to his sciatic nerve (neurapathy), the worst of his diabetes-related ailments - he went undiagnosed for a long time. Until recently, he hasn't smoked pot since 1986. He now finds that smoking not only eases the discomfort, but also eases the nausea he feels after glucophage and other meds hit his stomach. He used to be a heavy toker:) but now he smokes when he feels the need, which is once or twice a day. He is strongly opinionated to the fact that it does have medicinal qualities - he's proven that it lowers blood sugar and it makes him feel better. He does it only in the privacy of his own home. It's his business.

Unfortunately, he now works for a major corporation that randomly drug tests, and he knows his number is going to be up one of these times. I would like to hear from anyone in a similiar situation, or anyone with any advice on how to really beat the tests, live the way you want to in Corporate America. Any and all advice would be greatly appreciated, but please spare sarcasm and flames. No time for that - thanks!

I'm also looking for a small (4") LL folder with stag handles, replacing one I lost recently. I went to a knife maker here locally in St. Petersburg FL (Roger Gamble) who made me a custom folder with very handsome stag handles, but it's a bit too big and bulky for the pocket - made to be holstered and he included a very nice leather holster with it. Although I love this knife, its not somethng I can carry to work in my pocket. Prefer liner lock, one hand open, possible with pocket clip on it. Any ideas? Thanks

The one I lost was called the Tactical Folder, but I'll be darned if I can remember the company name...bought it from a catalog called The Edge many years ago...they are no longer making the knife.

Like new Buck Phrobis III military field knife/bayonet with scabbard and pouches as it was sold by Buck. Used once on a fishing trip and been in gunsafe since then. Asking $175 - interested parties can email me directily if you want to see a pic - great knife! Only selling it and other items because I am wanting to buy new ham radio. Offering it here for a few days, if no response you will see it on ebay. You will be very pleased with this knife...

john

Good Luck.

If you live in or near Evergreen, Colorado, this will be of interest
to you. The initial meeting of Evergreen hams is tentatively set for
Tuesday January 13th at the Evergreen Sports Grill. Contact Roger
k0yy at k0yy@arrl.net for more information or give him a call on the
146.07/67 repeater.

There is nothing to join and there are no dues...just show up.

See the letter below.

> Howdy all,
>
> A number of area hams have met on the air and mentioned that they
would
> enjoy getting together with local hams sometime for a cup of coffee
or
lunch
> or dinner. Several folks mentioned that the Sports Bar and Grill is
pretty
> centrally located and easy to find.
>
> So, why doesn't everyone "reply to all" and propose a time and day.
Early
> evening during the week or a Saturday morning may be the best time.
There
is
> never a good time for everyone, so we'll just pick the "best" time.
If
there
> is sufficient interest we could do it again and vary the time and
date so
> more folks can attend.
>
> It's interesting, when you do a zip code search for our area on QRZ;
there
> are more than 150 hams in the Evergreen, Conifer, and Kittredge area.
There
> are lots of hams up here living in all the various nooks and valleys.
>
> Do you know a local ham that would enjoy attending? Invite them and

```
pass
> along their email address so we can add them to the broadcast group.
>
> I almost always monitor 146.67, the Castle Rock System up on Squaw
Mountain.
> Drop by and say hello or list a get together preference.
>
> Happy 2004 and 73,
>
> Roger K0YY and Marilyn KB0LJW Krautkremer
> Evergreen, CO
